The truth about clothes

It's fair to assume that every man who buys clothes wants good clothes; no matter what price you pay for a suit, \$18.00 or \$40.00, you want to get good value for your money. That's really the only business-like way to look at it.

We sell

Hart Schaffner & Marx Fine Clothes
at \$20.00, \$22.50, \$25.00 and \$27.50

We handle these goods because we know they represent greater value for the price we ask than any other clothes made. We know where to get the cheap stuff; we know who makes it, and how it's made and what it's made of, there's no deception about it. Some of it is worth the price; but the price isn't high enough for good clothes.

The price of Hart Schaffner & Marx clothes is enough to insure quality; and not too much to give big values. That's why we sell them; and if you're wise, that's why you'll buy them.
