NOTICED BIG CHANGE IN JUST TWO DAYS

GREENVILLE MAN TELLS OF LONG STRUGGLE WITH DREAD ILLS.

Regarding the great relief that Tanlac gave him from stomach trouble, which after five years developed into pellagra, F. S. Crumley, of No. 8 Buncombe St., Greenville, gave the following statement:

"I spent several weeks at a Government pellagra hospital at Spartanburg, but after I came home what I ate continued to hurt me. Gas formed on my stomach and I had pains in my abdomen. My appetite was not good and I could not rest good at night.

"I began to take Tanlac and it soon corrected my stomach trouble. In a couple of days I could tell a big difference. My food was digested, gas stopped forming on my stomach and those pains left me. The Tanlac soon got me so I could eat as much as anyone, my nerves were quieted and I began to sleep soundly at night.

"Tanlac is a fine medicine for stomach trouble, and I am glad to recommend it to all with such ailments."

Tanlac, the master medicine, is sold exclusively by P. B. Speed, Abbeville; A. S. Cade, Bordeaux; J. T. Black, Calhoun Falls; J. H. Bell & Sons, Due West; Cooley & Speer, Lowndesville; R. M. Fuller & Co., McCormick; J. W. Morrah & Son, Mount Carmel; Covin & LeRoy, Wilmington. Price, \$1 per bottle straight.—Adv.

Miss Ellen Tennent entertained a number of little folks on Friday afternoon in honor of her little niece, Katherine Taggart, of New Orleans, and Mary Chalmers of Abbeville. The little ones had a merry time playing games and eating ice cream.

Mrs. T. O. Kirkpatrick and daughter, Miss Virginia, will leave for Charleston next week to visit Dr. and Mrs. J. B. Latimer. They will also visit relatives in Kingstree before returning home.

DEATH OF C. SUTHERLAND

A pall of deepest sadness fell over the community last Tuesday when the news reached here that one of our most prominent young men, Mr. Curtis Sutherland, who was ill at Dr. Pryor's hospital in Chester, had passed forever from us into the land from which no traveler ever returns. His death came as a grievous shock to his many friends.

Mr. Sutherland was taken sick at his home in the Martin Mill section on June the eleventh. His condition grew worse until it was decided it would be necessary to carry him to the hospital for treatment. He underwent one operation but never gained strength enough for the second which was thought to be necessary, and on Tuesday he passed beyond all medical aid.

Curtis was the third son of Mr. and Mrs. T. C. Sutherland, and death came just as he was entering into young manhood, just 20 years old in April. Although under military age, he had offered his service to Uncle Sam and been rejected. One sad feature of the occasion was his brother, who is now serving in

An Inside Bath Makes You Look and Feel Fresh

Says a glass of hot water with phosphate before breakfast keeps illness away.

This excellent, common-sense health measure being adopted by millions.

Physicians the world over recommend the inside bath, claiming this is of vastly more importance than outside cleanliness, because the skin pores do not absorb impurities into the blood, causing ill health, while the pores in the ten yards of bowels do. Men and women are urged to drink each morning, before breakfast a glass of hot water with a teaspoonful of limestone phosphate in it, as a harmless means of helping to wash from the stomach, liver, kidneys and bowels the previous day's indigestible material, poisons, sour bile and toxins; thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach.

Just as soap and hot water cleanse and freshen the skin, so hot water and limestone phosphate act on the eliminative organs.

Those who wake up with bad breath, coated tongue, nasty taste or have a dull, aching head, sallow complexion, acid stomach; others who are subject to bilious attacks or constipation, should obtain a quarter pound of limestone phosphate at the drug store. This will cost very little but is sufficient to demonstrate the value of inside bathing. Those who continue it each morning are assured of pronounced results, both in regard to health and appearance.

the navy, could not be with him during his illness and death. All that the best physicians, loving hands and loyal hearts could do, was done, but nothing could stay the hand of death.

Curtis was a faithful member of Shiloh Methodist church and was also a prominent member of the W. O. W. It can be truly said of this young he was a loyal friend, a devoted son and brother.

Funeral services were held at Shiloh on Wednesday at 11 o'clock in derson County, and interment was in the cemetery nearby. The pall bearers were: George and Oscar Cochran, Charlie Kay, Alvin Williams, Ernest Gordon and Mr. Beckwith.

He is survived by his mother and father and four sisters, Mrs. Earl Hamilton of Level Land, and Mrs. Foster Weeks of Warrenton and Misses Elma and Mallula Sutherland, three brothers, Claud and Russell Sutherland and Sherard Sutherland of the U. S. Navy. The bereaved family has the sympathy of their many friends. Contributed.

FIRST YANKEE FIELD ARMY IS ORGANIZED; IT HAS FIVE CORPS

Other Armies Are Expected to Be Formed Shortly—Additional American Forces to Bent to Italy.

With the American Army in France, Aug. 11.—Organization of the first American field army of five corps has been completed. The army will be commanded by Gen. Pershing and it is understood will operate in the area north of the Marne from which the Germans have been driven out.

The American divisions which participated in that drive have been under French command but are now included in the first army.

General Pershing, who retains his post as chief of the American expeditionary forces, after a time may relinquish the command of the great army, but possibly not until the organization of a second army is well under way. Meanwhile, he will have two headquarters, at the first army as well as at general headquarters. It is not anticipated that the creation of the first army will see any decrease in the spirit of co-operation. While the Americans have operated under the higher command of the French and British re-

cently, the French had served under American corps commanders and it expected this interchange will continue.

The step is regarded as the most important development in the organization of the American expeditionary forces to date. It is looked upon as the natural, development of the 1917-1918 scheme of organization and training by which regiments after training were merged into divisions under full staff direction. The creation of the first army brings a great American force under American command, but under the orders of the generalissimo, Marshal Foch, the size of the army has not been announced beyond the indication that it contains five corps commanded by Major Generals Liggett, Bullard, Bundy, Reed and Wright.

Each corps is composed of several divisions with each division including 30,000 troops of all arms, while the corps, in addition, will have its compliment of auxiliary troops, supply troops, air squadrons, tanks and heavy artillery. It is understood, etc. as sent.

It is understood that other armies will be formed shortly in view of the recent Washington announcement that 1,300,000 American troops already had sailed for France.

SOUTH CAROLINA REACHES \$5,000,000 MARK

Charleston.—South Carolina has at last reached the \$5,000,000 mark in the purchases of War Savings Stamps, and the per capita sales have now reached \$3.05. For the week ending August 3, sales amounting to \$271,513.50 were reported, bringing the total sales since the beginning of the campaign up to \$5,030,846.75—only about one-sixth of the State's quota for the year, and while the sales now are regarded as fair in comparison with what they were before June, it is obvious that the Palmetto State must buy more W. S. S. in the same enthusiastic spirit which characterizes the splendid fighting the Sammies are now doing on the battlefields of France.

Charleston, with sales almost of \$6.00 per capita, still maintains the lead in total sales, followed in order by Spartanburg, York, Beaufort, Anderson, Greenville, Florence, and Marion, each of which county has sold more than \$4.00 worth of W. S. S. per capita.

For the week ending August 3, Dillon county led in sales amounting to 61c per capita, followed by Florence which purchased 49c per capita.
