

# CORN SYRUP MAY BE USED IN PRESERVING

Corn Syrup Successfully Used in Equal Proportion With Sugar to Save Sugar—Last Few Weeks of Canning Should be Busy Weeks.

Columbia.—The canning season will soon be over and, for that reason, these last few weeks should be taken advantage of where there is fruit that may be put up for next winter's use. Can without sugar wherever possible, the Food Administration advises, but can by all means. Sugar used in preserving goes further than in any other form for bodily requirements and the Food Administration has made it possible for home canners to secure an extra allotment of sugar for that purpose. Skillful housewives will find little difficulty in taking care of their fruit now without it will be more plentiful.

Corn syrup may be used successfully in preserves, jams and jellies by using one-half corn syrup and one-half sugar. In place of one cup of sugar, one cup of clear honey or one and two-thirds to two cups may be used. These suggestions are made by the Food Administration:

Prepare fruit and add the sugar. Allow to stand several hours until sufficient juice to prevent burning is extracted. Then add the syrup and cook as usual, but do not use any water at all. It makes a very heavy syrup, which is usually desired, and does not make any difference in the favor.

In making preserves and marmalades, equal weight of corn syrup may be used, making a three-fourths syrup, instead of all sugar. One method is to make a blended syrup of the corn syrup and sugar and cook the fruit in it. Another is to add the sugar to the gently simmering fruit, cook gently until it is dissolved, then add corn syrup (equal weight, pound for pound with the sugar) and boil fast.

## ADVISORY COMMITTEE ON COTTON SEED AND PRODUCTS

Columbia.—William Elliott, food administrator for South Carolina, has appointed the following advisory committee to act with the Food Administration on cotton seed and cotton seed products:

From the farmers: Capt. J. H. Claffy, Orangeburg, president of the Farmers' Union; and E. W. Dabbs, Mayesville.

From the oil mills: Russell Acree, Darlington, president of the South Carolina Cotton Seed Crushers' Association; and J. J. Lawton, Hartsville.

From the ginners: F. S. Evans, president of the Ginners' Association, Greenwood; and M. M. Manning, Clio. Seed buyers will also have representation on the committee.

## HOW TO MEASURE THE DAILY SUGAR RATION

Columbia.—Two pounds per month per person is the sugar ration. The American people are on this honor ration. Hundreds of thousands are conscientiously and patriotically endeavoring to limit their consumption of sugar to conform with this regulation. It may be difficult for some, however, to apportion the sugar supply so that the ration may not be exceeded. For this reason, and in order to provide a sugar schedule for the householder, the Food Administration gives the following guide:

Monthly ration ..... 2 pounds  
30-31 days ..... 2 pounds  
Approximate Daily Ration  
1 day ..... 1 ounce, or  
1 day ..... 2½ level tablespoons, or  
1 day ..... 1 round tablespoon, or  
1 day ..... 6 level teaspoons, or  
1 day ..... 6 half lumps  
In this measure the average household teaspoon should be used.  
Teaspoons per pound  
96 level teaspoons equal 1 pound  
48 rounded teaspoons equal one pound  
32 to 40 heaping teaspoons equal one pound.

## SUBSTITUTES FOR SUGAR IN MAKING ICE CREAM

Columbia.—Proprietors of soda water fountains, hotels and public eating places will be furnished information concerning substitutes for sugar in the making of ice cream and water ices and, recipes for the use of such substitutes, upon application to the Conservation Division, Food Administration, Columbia, S. C. These recipes may be had by any interested person and will be mailed upon application.

## EATING AT THE COMMON TABLE

When the Food Controllers of the Allied nations met recently in London, President Wilson sent them this message: "The American people will gladly make any sacrifice in consumption and in the production of foodstuffs that will maintain the health, comfort and the courage of the people of the Allied countries. We are in fact eating at the common table with them." Are you making good the President's assurance?

## REPORT OF RED CROSS WORK

The response to the call for helpers in the Red Cross rooms has been splendid this past week. A second letter has been received urging the prompt fulfillment of this order and the great need of these dressings. We have found it necessary to keep rooms open mornings and afternoons. They are open at ten in the morning and five in the afternoon. Every one that can, come to the rooms and help.

The following workers have been in the rooms the past week:

Aug. 27.—Mrs. J. A. Harris, Ch., Miss Mamie Kay, Miss Lydia Owens, Miss Kate Haskell, Miss Mary Milford, Miss Lydell Graevs, Miss Mary Hill Harris, Mrs. T. G. White, Mrs. Lila Mabry, Mrs. G. E. ## OCONEE CORONER IN BAD

Popular Official Bound Over For Appearance at November Term of Court.

Citizens of Oconee have been watching and hoping for what was at last taken place. There have been constant rumors going about that Coroner Hal D. Grant, who has been unquestionably popular among the people of the county, was engaging in conduct at once unbecoming an officer of the law and good citizen. Mr. Grant had no enemies that we know of seeking his downfall, but he had hosts of friends ready to stand by him in right living and clean office-holding, who turned when the rumors became so constant and so pointed that there was no mistaking their truth, which lacked but official confirmation to transform persistent rumor into actual, unquestioned fact.

And the official confirmation came suddenly, unexpectedly on the part

of the public last Sunday night about 9 o'clock when Deputy Sheriff B. R. Moss, of Walhalla, Rural Policeman Mitchell, of Westminster, and Corbett, of Seneca, overhauled Mr. Grant on the lower road at Knox's bridge, about three miles from Fair Play. His companions were Mrs. Henrietta Williams, (alias Miss Church), about 35 years of age and her daughter, about 7 years old, who goes by the name of Williams; Ruth Church, about 16 years old; and Joe Brown, a former Fair Play darkey. The party was driving in a Ford touring car, which was taken into custody, along with the occupants and ten gallons of contraband liquor.

The captured party was taken to the Magistrate at Fair Play, and a preliminary hearing was waived by the defendants. Three members of the party were bound over for appearance at the November term of court, the coroner being held in the sum of \$500, Mrs. Williams, alias Church, in the sum of \$300 and the negro, Joe Brown, in the sum of \$300. Mr. Grant also put up bond in the sum of an additional \$500 for the release of his car.—Belton Journal, Aug. 3.

## PROHIBITION TAKES A BIG STEP FORWARD

Senate Adopts Leaders' Compromise Without Record Vote Whereby "Bone Dry" Law Becomes Effective on July First.

Washington, Aug. 29.—National prohibition moved a considerable step forward in congress today.

Without a record vote being taken or required, the senate late today adopted the leaders' compromise on "bone dry" prohibition, effective July 1, 1919, and continuing during the war and until the American troops are brought home and demobilized.

The compromise amendment adopted by Senator Sheppard, of Texas, prohibition leader, to the \$11,000,000 emergency agricultural appropriation bill, is expected to remain in the measure under the harmony agreement of "wet" and "dry" factions, although technically subject to another vote. Passage of the bill itself is planned tomorrow and the measure will be returned to the house which is expected by prohibition candidates to accept the senate action.

Efforts to materially change the Sheppard substance were futile. Amendments to advance and defer the effective dates, and to extend time

for its operation against beer and wine were overwhelmingly defeated without record roll calls.

That there was any agreement among leaders against having record votes was denied by Senator Sheppard and other advocates and also opponents of prohibition legislation. The general understanding, it was declared, extended only to the support of the compromise amendment and to avoid obstructive debate or parliamentary tactics.

With "wet" and "dry" members evidently observing their agreement unite on the Sheppard draft, the senate voted down without a roll call an amendment by Senator Trammell of Florida, to move the effective date ahead to January 1919, as provided in the bill before the compromise agreement was reached.

The amendment as passed is a substitute both for the original amendment California, prohibiting use of money in the agricultural appropriation bill unless the president should exercise his present authority to stop manufacture of beer and wines (an amendment adopted by the house when it passed the bill May 23 last) and for the original agricultural committee provisions to stop sales of all intoxicating beverages January 1, next.

# AN OLD RECIPE TO DARKEN HAIR

Sage Tea and Sulphur Turns Gray, Faded Hair Dark and Glossy.

Almost everyone knows that Sage Tea and Sulphur, properly compounded, brings back the natural color and lustre to the hair when faded, streaked or gray. Years ago the only way to get this mixture was to make it at home, which is messy and troublesome. Nowadays we simply ask at any drug store for "Wyeth's Sage and Sulphur Compound." You will get a large bottle of this old-time recipe improved by the addition of other ingredients, at very little cost. Everybody uses this preparation now, because no one can possibly tell that you darkened your hair, as it does it so naturally and evenly. You dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, and after another application or two, your hair becomes beautifully dark, thick and glossy and you look years younger. Wyeth's Sage and Sulphur Compound is a delightful toilet requisite. It is not intended for the cure, mitigation or prevention of disease.

666 cures Headaches, Biliousness, Loss of Appetite, foul breath, or that tired aching feeling due to Malaria or Colds.

It removes the cause. 7-16-1t. ea. wk. 10 wks.
