DEATH OF MRS. CROWTHER.

Mrs. Fleetwood M. Crowther died at the home of her daughter, Mrs. Geo. Mann, on Sunday morning, Feb. 2nd, after a protracted illness.

Mrs. Crowther, before her marriage was a Miss Harkness, of the Antreville section of the county. She married Mr. Crowther many years ago. They moved from the Antreville country to their home on the Due West road some twenty years ago. Two daughters were born to them, one of whom died since they moved to their present home. Mrs. Mann is the other daughter.

Mrs. Crowther was a member of Shiloh Methodist Church for many years. Her body was taken to the old church on yesterday where the funeral services were conducted by the pastor, and the interment took place. A number of friends from Abbeville went with the funeral party to Shiloh.

Mr. Crowther and Mrs. Mann have the sympathy of their large circle of friends in this sad bereavement.

LAND SALES.

The Judge of Probate sold the estate lands of the late A. J. McAdams for thirty-nine dollars per acre on yesterday, (salesday.) The tract contained 115 acres and was bought by J. Rhett Pruitt.

NO PREACHING.

There were no services in the A. R. P. Church Sunday night, Mr. Plaxco having an annoying sore throat, which put him out of business as a preacher.

LIEUT. J. RODDEY DEVLIN.

The friends around Abbeville will be glad to hear that Lieut. Roddy Devlin is well and happy and is enjoying France since the coming of peace. A letter has come to Abbeville written on New Years telling of an enjoyable trip over France. He and his Captain had two days in Paris and saw the big parade given for President Wilson and the President himself passing in a carriage. The city was in gay attire and lights were on which had not burned since the beginning of the war. The girls of gay Paree like our soldiers and Roddy, though it must not be known in Due West—paraded the streets arm in arm with two pretty girls he had never seen before, while two equally as pretty, clung to his Sam Brown belt in the back. He and his captain finally had to take to their heels to save their caps.

He visited Nice, Marseilles, going to the Italian border, enjoying the magnificent scenery especially. He a look at Monte Carlo, though on account of his uniform, he could only "peep" through the door and was shocked to see the greater portion of the gamblers good looking women.

The young Lieutenant says he had a turkey dinner twice on his trip and that the Captain has bought at \$1.00 a pound, enough to treat the company.

Once in Paris is enough for most men's pocket books so the young soldier is back in camp where the big question is "When do we get sent home?"

EVIDENTLY IMPROVING.

Dr. F. E. Harrison writes us from Tampa, Fla., where he is resting comfortably at a big hotel, built out of red brick, if the picture man took it right when he made the postal on which the doctor wrote. This reminds us, however, that the picture and map people do not always get the colors right, as a traveler once found out when he entered the state of Indiana. When told that he was in that state, he disputed the assertion violently because the Geography which he had studied showed that Indiana was a red state, while the land, where he then was, was of an entirely different color.

But this is not to the subject. The doctor continues to improve. He says so himself, and then we know he is a great deal better because he inquires specifically about his friends and associates in the Setback College. No man can put his mind on business when he is sick, unless he is improving rapidly from the sickness.

RIDING IN A FORD.

Mr. T. G. White, of Greenville Street, had a narrow escape on last Friday afternoon. He had driven over the Jones place in Fort Pickens, which he recently purchased, in order to look after some work he was having done. When he had finished he cranked up the Ford car in which he was traveling, and started back to town. On reaching the end of the lane leading from the Jones house into the street, he discovered that the steering gear of his car was not working, and he was unable to make the turn. Neither could he stop the car in time, so that the Ford went on across the street and down into the twenty-five foot cut of the Southern Railway. Though the banks are almost perpendicular, the Ford kept its feet, so to speak, and made the trip to the bottom in good order, where it fortunately landed in soft mud.

Mr. White was duly frightened, but escaped without a scratch or a bruise. The Ford was considerably damaged, however, the front wheels being smashed, and the rods and front axle being bent.

NEW CASHIER.

At a meeting of the directors of the National Bank of Abbeville held on last Wednesday, Mr. Lewis Perrin was elected Cashier, succeeding Mr. H. G. Smith, who resigned sometime ago.

Mr. Perrin has been connected with the bank for a number of years, first as teller, and lately as Assistant Cashier. He has performed his duties with satisfaction to the officers of the bank as is evidenced by his promotion.

The customers of the bank welcome him in his new office, and expect him to keep the National Bank the useful and accommodating institution it has been in the past.

MISSIONARY SOCIETY.

The Woman's Missionary Society of the Baptist church will meet next Friday afternoon in the church parlor at 3:30 o'clock. Subject: "Church Building Loan Fund." The program includes special music and an interesting dialogue. All ladies interested in missions are invited to attend.
