

LOWNDESVILLE.

Lowndesville, Sept. 19—The Lowndesville High School opens Monday, Sept. 22nd. Mr. L. C. Griffin, of Ninety Six, has been elected principal. The same teachers will serve in the different rooms that taught last session. It is earnestly urged upon the parents that they send their children the first day, and arrange their business in such a way that the children can attend school every day. One of the greatest drawbacks to a child's education is to keep him out of class every few days, doing some little job that might easily be done by some other member of the family. This manner of sending a child to school is entirely too general and is conducive to two prevalent evils, non-advancement of the pupil on the child's part, and fault-finding with the teacher, on the parents' part.

Mr. E. J. Huckabee has made the following real estate transfer deals recently: the Jas. Bell farm sold to Mr. Bosh Sutherland, the John Pruitt house sold to Mr. A. M. Bonds, the

Mr. Mac McCalla has moved into his new home.

Mr. Willie Broadwell has moved into the house vacated by Mr. McCalla. Several other residential changes will take place shortly.

The young people with the summer flowers have taken their departure, and like the old bard's "Deserted Village" a pensive air of melancholy lingers over all. C., Miss Ruby Ficquette to Greenwood, Miss Cornelia Tennent to Georgetown, Miss Julia Bell to Orangeburg, Miss Blanche Cooley to Orangeburg, and Mr. Fred Ficquette to Starr. The following have gone to attend school: Messrs. Rembert Allen and Alvin Hardin to Clemson College, Misses Christine Kay, Pauline Clinkscales, Kathleen Cooley, Alice Cooley and Alpha Barnes to Winthrop. Misses Eloise and Sallie Hardin to Asheville, N. C.

There's the same economy in using the one-ton Ford truck that there is in using the Ford car—only the larger carrying power of the truck commends it particularly to farmers, and other business men. The famous Model T motor assures reliable power, and lots of it; the manganese bronze worm drive makes certain the use of all that power; the three-point suspension gives flexibility, and vanadium steel strength. Price, without body, \$550 f. o. b. Detroit.

Handle New Wagons.

The Stark Vehicle Co., have contracted for space to tell about their famous Bain Wagons. It will be remembered that this company handled the famous Mitchell Wagon. This wagon is not being made any more as the Mitchell people are now manufacturing automobiles. Looking round for a wagon equally as good—one that would compare favorably with any wagon, they found the Bain. The Bain will stand the strain.
