DECLARES SECRET POLITICS MUST GO

New York, Dec. 12.—The cure for social unrest in this country is a "full knowledge of the American institutions," declares President Wilson in an article written for the current number of The Independent.

"The men today are blessed with a curiosity about their governments," says the President. "Everywhere they are demanding that the doors behind which secret policies have been incubated be thrown open and kept open henceforth. The doors that do not respond to the keys the people hold will be battered down and free passage-ways erected in their stead.

"Autocratic governments of the past have lived by concealment; free government must live by understanding. In the new day that is dawning only those governments that have no secrets from their peoples can long endure. I do not say that such a government will make no mistakes, but I do say mistakes will be fewer and more easily corrected

when all governments are guided by well-informed public opinion.

"Unrest is evident everywhere throughout the world. It is not of itself a disease but a symptom of disease. In our own country the disease lies principally outside the government. Those who think otherwise are mostly the newcomers and the men they have influenced. The cure for their disquiet is a fuller knowledge of American institutions. In this nation the people have in their ballot the instruments of peaceful change."

VALUE FARM CROPS EXCEEDS 1918 TOTAL

Washington, Dec. 12.—Record prices and bountiful production sent the value of farm crops harvested this year to the unprecedented total of \$14,092,740,000 exceeding the value of last year's crops by almost \$1,500,000,000.

Final estimates of production were issued today by the Department of Agriculture and values were based on prices paid to producers December 1. The area of harvested crops this year was more than 2,600,000 acres larger than last year, amounting to a total of 359,124,473 acres.

Corn King of Crops.

Corn easily maintained its place as king of crops with a value of \$3,934,234,000, while cotton, including cotton seed, was second with a total

value of \$2,922,913,000. The hay crop was third with \$2,129,087,000. Wheat, including winter and spring crops, was fourth with \$2,028,522,000. Oats, a billion dollar crop last year, reached a total of only \$895,000,000 because of decreased production.

Large Wheat Production.

Record crops of winter wheat, spring wheat and hay were grown, and the production of all wheat, rye and tobacco was next to the largest ever harvested.

"PRETTY BABY"

The 1919 Jimmie Hodges' version of "Pretty Baby" is bound to be as popular as its two predecessors in 1917 and 18, said one Enthusiastic reviewer after the premier last fall of the famous musical comedy which is to be seen at the Opera House Friday Dec. 19.

Time has proven that the prophet was not over-enthusiastic but rather lukewarm in his praise for the new musical offering of Jimmie Hodges. Responsible for "Pretty Baby" the two past seasons, not only lived up to the reputation of the former two but greatly eclipsed them, both in drawing power and the creation of enthusiasm in the audiences.

Jimmie Hodges seems to be an inexhaustible well of musical jollity; it seldom happens that three successes do decide as these follow in rapid and uninterrupted succession. Here is one man who is fast earning a reputation among American musical comedy producers. Amongst the musical comedy favorites seen with this season's success are Jimmie Hodges, Eva Lappin, Johnnie O'Neil, Tom Williams, Norman Coudy, Ted Shaffer, Eddie O'Neil, and the handsomest and best trained chorus in the fields of musical comedy. Prices .50c., .75c, \$1.00 \$1.50 plus war tax. Seats on sale now.
