Now Is the lime RIV

Land in Abbeville County. There are many excellent farms in this county that are for sale at unusually moderate prices. We have farms listed for sale that are near town, have good homes on them, plenty of outbuildings, community advantages, churches and schools, and near roads.

We would be glad to get in touch with you and show you what we have.

We know of no better investment at present than the buying of land in this section. In a very short while all the desirable land in the county will command a price of around \$200 per acre.

If you want to sell list your farm with us. We get results.

County Savings Bank

Young Pershing saved every penny he could get his hands on. He was building up a little fund to use in acquiring an education. He finally quit teaching for a while and took his little "rainy day" wallet and packed off to Kirksville, Mo. Normal, where he applied himself with great diligence to the pursuit of knowledge. Saving money not only gave the future general 'the means to get an education, it schooled him in self-discipline, which gave him the power later on in his life to enforce discipline in others.

Economy and thrift helped to mould his character.

Saving will help any boy or man to lay the foundation of success and to build a strong character, just as it helped Pershing—just as it has helped others who have achieved.

Mr. Frank Uldrick spent last Friday with Mr. William Uldrick.

PROFIT IN SUGAR IS REDUCED BY ORDER

Retail dealers must not make more than two cents a pound profit on sugar while wholesalers must not make a profit exceeding \$1 per hundred pounds, according to the construction of the food control bill by J. William Thurmond, United States district attorney for the Western District of South Carolina. Both wholesale and retail dealers who exceed this limit are liable to prosecution, it was stated, and, representatives of the conartment of justice have been instructed to

The ruling of the district attorney supersedes the previous one in which it was thought that a dealer might make a profit of 10 per cent. Under the previous ruling if a dealer sold sugar for 25 cents per pound, he was allowed to make 2 1-2 cents per pound. Now, however, the retailer is confined strictly to a profit of not more than two cents per pound, irrespective of the price of the com-

The following statement was issued Saturday morning by District Afterney Thurmond:

"Some confusion has arisen in rear V to the sugar situation in this trict. This office feels that if the wholeside and retail dealers in this commodity understand the law fully that they will comply with it. The federal authorities have arrived at the couclusion that one dollar per hundred pounds is the maximum reasonable margin of profit for retailing sugar. Wherever these margins of profit are exceeded this office will institute criminal prosecutions under the food control act.

"I feel that retail and wholesale dealers in foodstuffs and in wearing apparel have not had sufficient time to understand and digest the federal food control act, which caries a very severe penalty. Some profiteering is perhaps now going on in the sale of wearing apparel, clothing, shoes, etc. The federal government always has been a friend to legitimate business but congress has declared war on the profiteer. We hope it will not be necessary to institute many prosecutions, but persons making more than a reasonable profit on any of the necessaries of life wil be prosecuted vigorously and to the full extent of

the law." "J. WM. THURMOND"

e daily service throughout the world, and fally per control these are Ford Touching Carl. we ready reward for this, not the least lpha iwhich is the simplicity in the design of the car, so cay to understand; Elemine it is easy to operate; and mighty inexpensive compared to other motor cars. On the farm, in the city, for business and for family pleasure, it is the ear of the people, and the demand is increasing every day. Let us have your ealer promisely, if you
