

ENUMERATORS HARD AT WORK IN COUNTY

Newberry, S. C.;
Jan. 12, 1920.

To the people of Abbeville County:
The Census department is making every effort to have a thorough and complete Census of the people of Abbeville County as well as the agricultural resources. In order to accomplish this it is very important that the Census takers have the hearty co-operation of the people.

The Enumerators in cities of 2,500 population and over according to the census of 1910 are expected to complete the work of counting the people during this week. Possibly

some of them have already completed the work in their district. All the towns of this size, and even smaller are jealous to have their population properly and correctly set down in the Census figures.

It is possible and even probable that the Enumerators however careful and painstaking he may be has over-looked some of the population in his district. If by the end of this week the Enumerator for your district has not called on you, and you have therefore not been counted, I would request that you see him and have him put you in the Enumeration. In the event he may have sent his paupers to the Supervisor, if you will notify me that you have been over-looked I will be very glad to

have him put you in the count.

Neither the Supervisor nor the Enumerator nor any one officially connected with the taking of the Census is permitted to give out any information as to population or any other matter which he may have received during the progress of his work. All information as to the Census must be obtained from the Director at Washington. A very heavy penalty is attached to any one officially connected with the taking of the Census who may give out any information connected with the work and I therefore request that no one will endeavor to secure information from the Enumerator, but that every one will co-operate to the end that we may have a thorough and complete Census of the people of this district as well as of the agricultural and other resources.

Very respectfully,
Elbert H. Aull,
Supervisor of Census.

SUGAR PRICE FIXED

New York, Jan. 12.—A price of 14 3-4 cents a pound for granulated sugar refined from new crop has been established for the wholesale and manufacturing trade by the American Sugar Refining company it was announced tonight. When the refining price was fixed at nine cents by the sugar equalization board, it allowed a profit of one-half cent a pound to wholesalers and one cent to retailers, making the retail price 10 1-2 cents.

Allowing the middlemen an additional profit of a cent a pound, making their margin two and a half cents, the price per pound to the consumer would be 17 1-4 cents.

NOT A MATTER OF SEX.

The Post-Intelligencer carried a local story a few days ago, advancing the theory, founded on observation, that while a woman does not care much about writing letters, when she does write she wants to be sure the letter is bugged won, properly stamped, and addressed and headed right on its destination. This induced a philosophical discussion from the Portland Oregonian in which the assumption was advanced that woman has an instinct for ordiliness and exactness which man sadly lacks. In short, the Oregonian makes a sex issue of it. The man, it appears, is bound to be careless, disorderly and forgetful; the woman, by reason of her sex, is bound to be orderly, exact, a stickler for details.

This segregation of order and disorder may occur in the Oregonian's territory, but one does not often find it elsewhere. We seem to recall many males whose devotion to order and detail and exactness was almost a disease; and one recalls, also, many careless females whose minds were

like running water and whose affairs were always in an inextricable disorder. Ir sex segregates, the orderly and careless, then there are many men with the female mind and many women with the male mind. And this latter seems to be the fact. We do not find men and women wrapped up in packages that may be accurately assayed by the label "man" or the label "woman."

In fact, we suspect that it is en-

tirely possible for a man to be physically like his grandfather, mentally like his great grandmother, and temperamentally like his mother's eldest sister. And the woman with the masculine mind and habits is too often met to be denied. One sees it often in marriage; the husband, a clinging vine, with the female mind; the wife with the male mind, and in charge of the family direction, leading husband carefully past the pit-

falls of life with admonition and censure, and possibly with occasional chastisement. It is absurd to say that one of these, by reason of sex, would be orderly and exact, and the other, by reason of sex, disorderly and careless. The Oregonian will doubtless recall that a man has a mother as well as a father, and that he is quite as likely to inherit a mind from the one as from the other.—Seattle Post-Intelligencer.

You Still Have Time to Join Our Christmas Savings Club

IF YOU HAVE WAITED—IF YOU HAVE HESITATED—IF FOR ANY REASON YOU COULD NOT JOIN ON THE OPENING DAY, THEN NOW IS YOUR OPPORTUNITY.

Some are joining themselves—some joining for themselves and family—some are joining for friends and loved ones as a Christmas gift for next Christmas.

READ THESE BRIEF FACTS.

Anyone can join. Any church or lodge or club can join. It costs nothing to join—it costs nothing to withdraw.

You do not double your payments each week, as some think—but you simply add an amount equal to the first payment each week.

For example: If you join Club or Class 2, you pay 2 cents the first week, 4 cents the second week, and 6 cents the third week, etc., for 50 weeks, and two weeks before Christmas we send you a check for \$25.00, plus 4 per cent. interest, if payments are made promptly.

If you join Class 5 you simply pay 5 cents the first week and then add 5 cents to your payments each week for 50 weeks and receive a check for \$63.75, plus interest at 4 per cent, if payments are promptly made.

Or join Class 50 and pay 50 cents each week, or Class 100 and pay \$1.00 each week.

If for any reason you can't keep up your payments you do not lose one cent, but receive a check for the amount you have paid in two weeks before Christmas.

OPEN EVENINGS THIS WEEK UNTIL 6:00 O'CLOCK.

Sadler Auto and Tractor Co.

D. E. SADLER, Manager

There are more than 3,000,000 Ford cars in daily service throughout the world, and fully eighty per cent of these are Ford Touring Cars. There are many reasons for this, not the least of which is the simplicity in the design of the car, so easy to understand; likewise it is easy to operate; and mighty inexpensive compared to other motor cars. On the farm, in the city, for business and for family pleasure, it is the car of the people, and the demand is increasing every day. Let us have your order promptly if you want one.
