FIFTEEN UNITS TO BE REQUIRED BY LOCAL HIGH SCHOOL

(Proper-Gander.)

Early in December Supt. Fulp prepared a number of copies of the course of study as now pursued in the high school, and together with a questionnaire, mailed a copy of the course to a number of colleges in Georgia, North Carolina, Virginia, and South Carolina.

For the information of all high school pupils as well as for the benefit of the friends of the school, extracts from the replies, as well as the units credited are here given. The average good college requires fifteen units for unconditioned entrance.

University of South Carolina.

English	4
Latin	4
History	3
Physics	1
Science	1
Mathematics	4.5

Total Units ----- 17.5

We shall require 15 units for entrance next September.

(Signed) L. T. Baker, Dean.

Davidson College.

Total Units ----- 16

Your course seems to me to be admirably well balanced for a student who is going to college.

I am glad to see you take up the Physics rather than other sciences and that you give a full year's course in that with laboratory. I am also delighted to see that you stick to Latin and give as much of it as you do. Let me congratulate you upon the outline sent in.

W. J. Martin, President.

University of North Carolina.

English	3
Latin	4
Mathematics	4
Physics	1
History	3
Science	5

Total Units ----- 15.5

These units we allow a student certified to have completed the work satisfactorily.

Thos. J. Wilson, Dean.

Converse College.

Total Units ----- 15

This would enable any of your eleventh grade graduates entering Converse without a condition but for the fact that you do not give any Modern Language. I would recommend, if feasible, that you give in your course next year one year's work in either French, Spanish, or German.

Robt. P. Pell, President.

Furman University.

English	4
Latin	4
History	3
Physics	1
Mathematics	4 (possibly 5)
Science	1

Total Units ----- 17

We shall be glad to admit your graduates on certificates.

H. W. Provence, Chairman.

Wofford College.

English	3.8
Latin	4
History	3
Physics	1
Science	1
Mathematics	3

Total Units ----- 15.8

In this estimate Solid Geometry and Trigonometry are not counted. To get College credit for these subjects the Colleges of the state require an examination.

Henry N. Snyder, President.

Agnes Scott College.

English	3
Mathematics	4
Latin	4
History	3
Physics	1
Science	5
Physiology	1 or 5

Total Units ----- 16.5 or 16

If as much as one theme a week is required for three years we credit your English course with 3 units. The requirement for unconditioned entrance into Agnes Scott is fifteen units, including three in English, three in Mathematics, and at least three in Latin.

The outline of the work given in your school indicates a good school,

and we are always glad to have students as well prepared as yours should be.

Louise McKinney, Chairman.

Winthrop College.

We take the classification of the State High School Inspector, and admit to our Freshman Class unconditionally graduates of all High Schools in the State rated by the High School Inspector as making at least 17 units. We do not admit upon certificate, students from High Schools not completing the full course of study for graduation of the High Schools. By agreement among the Colleges no High School graduate is given advanced standing upon certificate, but may be given such standing upon examination at the College. We are thinking of requiring 15 units for admission to our Freshman Class next session.

D. B. Johnson, President.

These constitute about 75% of the colleges to whom inquiries were directed and serve to give a general idea of what opinion representative colleges have of our high school.

Students desiring to enter any of the above institutions next fall will do well to preserve a copy of this issue of the Proper-Gander in order that they may know exactly what to expect credit for, and just how much credit they will be given.

Catalogs of the various universities and colleges throughout the United States as well as England may be found in the superintendent's office, and they are at the disposal of any pupil interested.

HONOR ROLL.

The following pupils have been neither tardy nor absent during the school month ending December 31st.

and have made an average of over 90% on their studies. Those marked "highly distinguished" have made a general average of over 95%. The department of the pupil must also be excellent before entitling him to a place on the roll of honor:

First Grade—Distinguished: Mary Maxwell, Marie Reese, Edwin McCuen, William McAllister, Eugenia Swetenburg, Mary Louise Benton.

Second Grade—Highly Distinguished: Martha Aiken, Annie Rogers, Florence Sprouse, Helen Gambrell; Distinguished: Ovelle Gilliam, Claude Neuffer, Myer Poliakoff, David Simmons, William Martin, Frances Johnson, Margaret Culbreth, Norma Flynn, Sadie White, Cassel Ferguson, Lad Perrin.

Third Grade—Highly Distinguished: Sarah Evans, Sara Smith, Sam Shiver, Jr., Emily Morse, Alma May Fleming, Laura May Welch, Virginia Starnes, Eleanor DuPre, Jack Sutherland, William Thomson; Distinguished: Louie White, William Dawson, Alvin Wham, Ethel Bowen, Charlotte Reese, Sarah Thomson.

Fourth Grade—Highly Distinguished: Jeon Milford, Mary N. Perrin, Martha Calvert, John McMurray; distinguished: Mabel Bradley, Susan Minshall, Jenrose Pressly, James Fulp, Estelle Lyon, William McComb, William Dawson.

Fifth Grade—Distinguished: Margaret Flynn, Margaret Able, Elizabeth Beeks, Elizabeth Corley, Frances Ferguson, Anna Jones, Margaret Stallings, Lucy Thomson, Otis McMurray, Mary Hill Ferguson, Pat Howie, Frances Jones, Alma Wilson, Grace Smith, James Graves.

Sixth Grade—Highly Distinguished: Rachel Minshall; distinguished: Mary Barksdale, Mark Hawthorne, William Greene, James McComb, Stella Seitz.

Seventh Grade—Highly Distinguished: Sara Edwards, Madge Ferguson, Donald Harris, Judith Hill, Ellis Poliakoff, Jeanie White; Distinguished: Foster Barnwell, Louis Bristow, Estelle Gaston, Frances Gilliam, Ernest Hughes, Raeford McMillan, Gus Smith, Jack Thomson, Virginia Wilson, George Wood.

High School.

Eighth Grade—Highly Distinguished: Mary Shaw Gilliam, Elizabeth Lyon, Grace Milford, Deby Owen; Carolina Chalmers, Alice Cheatham, Mary Jones.

Ninth Grade—Highly Distinguished: Ada Faulkner, Marie Neuffer; Distinguished: Edwin Barksdale, Fred Minshall, George Smith, Addie Bowen, Celia Chalmers, Ruth Coleman.

Tenth Grade—Highly Distinguished:

ed: Hal Moore, Elizabeth Gambrell, Helen Milford, Mary White, Annie Wilson, Florence Neuffer; Distinguished: Janie Vance Bowie, Willie McLane, Janie Milford.

Eleventh Grade—Highly Distinguished: Victoria Howie, Gwen Bristow, Mary Greene; Distinguished: Sophie Reames, Leroy Cox.

BUICK CARS

It does not pay to wait and let all your chances go by, but place your order now before they are all gone.

E. H. Longshore,
Agent.

NOTICE! SCHOOL ELECTION

Whereas a petition has been circulated in Keowee School District, No. 37 asking for an election for the purpose of voting an additional tax of five mills for school purposes, and whereas, it appears to be properly signed, an election is hereby called to take place at the Zarline school house on Saturday Jan. 24th, 1920.

Those in favor of the tax will cast a ballot upon which there is written or printed the word "yes". Those opposed to the tax will cast a ballot upon which there is written or printed the word "no".

Trustees to act as managers of said election.

Rules governing General elections to be observed.

W. J. Evans,
Co. Supt. of Education.

CHALMERS

Wonderful for Its Powerful Hot Spot and Rams Horn Motor

The CHALMERS Car is doubly distinctive, because it combines unusual beauty with unusual performance, whether you drive it, or ride in it as a passenger. To examine it critically for perfection of detail, you are pleasantly surprised to find that it is in all these respects a better motor car than its price would indicate.

One ride in the CHALMERS tells an eloquent story of finely balanced construction. The smooth, even power of the motor sweeps you along without a suggestion of vibration or mechanical noise. There is merely a gentle purr from the exhaust as the car glides on its way.

The body is finished in rich blue black, with black fenders and running gear. The upholstery is done in a fine grade of leather. It is equipped with a rubberized mohair top, which is richly lined with gray.

Come around and look them over.

Ellis-Leslie Company
