Better Homes

Better homes are coming to the South.

Where poverty has stalked hand in hand with illiteracy, with poor churches, poor roads, poor farm conditions, miserable huts, women working in the fields-there prosperity is coming with its magic wand of betterment.

The American Colton. Association is the wizard to bring these better days.

Working alone, the cotton growers have been for fifty years in a state of agricultural slavery. Banded together with bankers and merchants in the American cotton As-sociation, they will emancipate themselves and will enrich the South and the Nation.

By growing a smaller acreage of better staple; by better baling; by holding the crop in warehouses for profitable prices; by marketing slowly instead of dumping the crop on the market suddenly; by dirert selling to spinners-by these means the cotton growers will come into thir deserved prosperity.

The bank welcomes the day when cotton shall be free and every cotton farmer shall be prosperous.

The South has found the truth. Its prosperity for the future is assured. You will profit. The Nation will pro-fit. And this bank hopes to share that prosperity.
