### TAKES GOLD FROM MINT IN HOLLOW FALSE LEG

Denver, Col., Feb. 6.—Orville Harrington, 41 years old, a skilled worker in the Denver mint, was arrested early today by Rolland K. Goddard, chief of the local branch of the Federal Secret Service on a charge of having robbed the Denver Mint of gold bullion valued at more than \$100,000. A search of Harrington's home revealed the gold bars buried and hidden in various parts of the premises, and all of it was recovered, according to Goddard.

Harrington, according to the officers, carried the bars out of the mint concealed in a hollow false limb which he wore. Because of the unusual means taken to get the gold out of the mint the officers were unable to trace the source of the thefts for several days. Harrington was taken into custody as he was coming off shift, a search of his person disclosing a \$1,400 bar of gold hidden in the false leg.

The thefts which began two weeks ago had been traced to the refinery and watch was set over all employees of that department. The list of suspects narrowed down to three and watch was placed on the homes of the suspected ones. Tuesday night, officers who were watching the Harrington home saw Harrington bury a bar in the orchard and subsequently search of the orchard disclosed four ingots. The search of the house early today netted fourteen other bars which had been buried in the cellar.

### ONE BABY DIES, ANOTHER BURNS AS MOTHERS START LEGAL WAR

Atlanta, Feb. 6.—Fate took a hand today in the tangled claims of blue-eyed Mary Elizabeth and brown-eyed Louise Madeline, eight-months-old babies over whom two mothers were going to court tomorrow. Pneumonia claimed Mary Elizabeth, whom neither mother wanted, and the other child fell into an open grate, sustaining burns on her face that physicians said might prove fatal or mar her looks for life.

The children were born the same day at the Grady Hospital here and Mrs. John C. Garner recently announced that the blue-eyed child given her was not her own. She claimed Louise Madeline, as the brown-eyed girl is known. Mrs. Daniel L. Pittman, tow hom nurses at the city institution gave the brown-eyed child, maintained it was her very own.

Mrs. Garner first offered to take both children to be sure she had her own and later sought habeas corpus proceedings, which were set for tomorrow. Mary Elizabeth, whom Mrs. Garner had been rearing, had been ill for several days, and her death, which was not unexpected, came on the very day that the other tot scarred herself for life.

### A. E. F. CASUALTY LIST COMPLETED

Washington, Feb. 6.—Completion of the record of casualties of the American expeditionary forces in the world war was announced today by Adjutant Gen. Harris with the issuance of a final revised list of the "old casualties." Since the review of the American expeditionary forces records practically has been completed. It was said no further additions or corrections were anticipated.

The total casualties to date follow:  
Killed in action, including 382 at sea; 34,844.  
Died of wounds, 13,960.  
Died of disease, 23,738.  
Died from accident and other causes, 5,102.  
Wounded in action (over 85 per cent returning to duty); 215,423.  
Missing in action (not including prisoners released and returned); 3.  
Total of 293,070.

### MONEY NOT LOCATED

London, Feb. 6.—The United States "is not interested in the extension of additional European credits nor attracted by the foreign security market, simply because American funds are not available for that purpose," said Irving T. Bush of New York, in diagnosing the exchange situation and the world's financial ills at a luncheon today at which Sir Auckland Geddes, minister of national service and reconstruc-

tion, presided.

"America, Mr. Bush continued, "is regarded abroad as a land flowing with milk and honey and unlimited wealth, whereas actually the country's financial machinery is suffering from an attack of acute indigestion owing to the glut of Liberty bonds. Millions of dollars are required to finance the nation's own enterprises. The balance of trade should indicate that enormous quantities of money are there with which the war stressed countries could be helped to their feet, but no one seems to know just where it is. The American bankers are unable to find it. I can only attribute this to the causes named."

### LABOR WILL GET INTO POLITICAL WAR

Washington, Feb. 8.—Organized labor, 3,000,000 strong has thrown its hat into the political ring.

Vigorously denouncing congress, which, it was said, "had failed to do its duty," the American Federation of Labor today announced the appointment of a national nonpartisan political campaign committee, which will mobilize trade unionists and "all lovers of freedom" in an effort to defeat candidates indifferent or hostile to labor and to elect "true and tried" friends of the trade union movement. Not waiting for the general election in November, the campaign will be started immediately and pursued "without relaxation through the primaries, in which it is stated all aspirants for office will have their records "analyzed stated in unmistakable language and given the widest publicity." This program applies to all candidates, from presidential nominees down.

Samuel Gompers, president of the American Federation of Labor; Frank Morison, secretary, and James O'Connell, president of the federation's metal trades department, were appointed an executive committee, empowered to obtain such assistants as necessary. Four women are included in the national committee.

### Circular to Unions.

A national crisis, threatening the free institutions of the country by the "reactionary" attitude of congress, it was said, impelled organized labor to apply this year the nonpartisan policy formulated in 1906 and used in several subsequent campaigns. Announcement of the decision was made in an official circular, embodying the conclusions of the federation's general committee, which has been in session for several days. This circular will be distributed to trade unionists in every state through the local unions, by which it will be called also to the attention of friends of organized labor.

### WAX MODEL SHOCKS PASTOR.

She was clad in dainty, filmy "unmentionables," and in waxen loveliness occupied a prominent place in a large show window at Oklahoma City, Okla.

He, the Rev. R. L. Hawkins, passed by and noticed that all the young fellows cast sidelong glances at her.

Mr. Hawkins was shocked. He remonstrated with the shopkeeper unsuccessfully. He appealed to the sheriff successfully.

Ray Young, window trimmer, was arrested on a charge of "indecent exposure of models", and the sheriff was ordered to remove the model from the window. The sheriff demurred, mentioning the embarrassment of carrying the waxen lady down the street.

There was a compromise, and the model was placed in the basement until the court can determine her "fitness."—St. Paul News.

Total output of the meat packing industry in the United States for 1915 was estimated at more than \$5,000,000,000 in a statement given out Friday by the Institute of American Meat Packers. The estimate was based on annual reports of more than 500 packing companies which operate under federal inspection.

Profits throughout the industry averaged not more than half on each dollar of sales, the report estimated.

## TURN HAIR DARK WITH SAGE TEA

If Mixed with Sulphur It Darkens so Naturally Nobody can Tell.

The old-time mixture of Sage Tea and Sulphur for darkening gray, streaked and faded hair is grandmother's recipe, and folks are again using it to keep their hair a good, even color, which is quite sensible, as we are living in an age when a youthful appearance is of the greatest advantage.

Nowadays, though, we don't have the troublesome task of gathering the sage and the mussy mixing at home. All drug stores sell the ready-to-use product, improved by the addition of other ingredients, called "Wyeth's Sage and Sulphur Compound." It is very popular because nobody can discover it has been applied. Simply moisten your comb or a soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, but what delights the ladies with Wyeth's Sage and Sulphur Compound, is that, besides beautifully darkening the hair after a few applications, it also produces that soft lustre and appearance of abundance which is so attractive. This ready-to-use preparation is a delightful toilet requisite for those who desire a more youthful appearance. It is not intended for the cure, mitigation or prevention of disease.

## Owners' Approval Is Like a Rousing Cheer

The Cleveland Six, from coast to coast, is establishing its place in motordom. The bitter cold days of the Northern winter have proved its ease of starting, just as the hot summer days, when hundreds of new Cleverlands were being driven across the country, proved the perfection of its radiation.

The Cleveland Six is in the hands of owners all over the United States today, and the chorus of satisfactory approval from these owners is like a rousing cheer. They say the car surprises them, pleases them, delights them. Its pliant power, its simple ease of handling, its boat-like

comfort, surpass all expectations.

If you hope and plan to start the new season with a new five-passenger touring car which is a real six, or such a car of roadster type with wide, deep seat of restful cushioning and plenty of stow-away space, then come in and see the Cleveland Six.

A study of this car will interest you.  
A ride in it will convince you.
