SAGE TEA KEEPS YOUR HAIR DARK

When Mixed with Sulphur It Brings Back Its Beautiful Lustre at Once.

Gray hair, however handsome, denotes advancing age. We all know the advantages of a youthful appearance. Your hair is your charm. It makes or mars the face. When it fades, turns gray and looks streaked, just a few applications of Sage Tea and Sulphur enhances its appearance a hundred-fold.

Don't stay gray! Look young! Either prepare the recipe at home or get from any drug store a bottle of "Wyeth's Sage and Sulphur Compound," which is merely the old-time recipe improved by the addition of other ingredients. Thousands of folks recommend this ready-to-use preparation, because it darkens the hair beautifully, besides, no one can possibly tell, as it darkens so naturally and evenly. You moisten a sponge or soft brush with it, drawing this through the hair, taking one small strand at a time. By morning the gray hair disappears; after another application or two, its natural color is restored and it becomes thick, glossy and lustrous, and you appear years younger. Wyeth's Sage and Sulphur Compound is a delightful toilet requisite. It is not intended for the cure, mitigation or prevention of disease.

When Hoover Was For Quitting

On April 11th 1919, Mr. Hoover, according to a letter which for nearly a year was withheld from the public, urged on President Wilson withdrawal from the various international commissions which it was proposed the peace treaty should conclude, and a practical quittance of Europe by this country.

Some of Mr. Hoover's sentences read as if written by Hiram W. Johnson. Mr. Hoover regarded it as "repulsive to our national interests, traditions and ideals" to give moral or political support to our associates in the late war concerning matters wherein we had little direct interest. On the other hand, if we continued on the commissions with the object of moderating the demands of our allies, we feared we would be thrust into an unwelcome position of seeming to defend our late enemy, and thus be subject to constant complaint and attack by the Allied government. Summing up, Mr. Hoover wrote:

"If we continue to sit in the enforcement of this peace we will be in

effect participating in an armed alliance in Europe, where every change in the political wind will affect the action of these commissions. We will be obliged to participate in all European questions and we will be firmly tied indefinitely to one side, unless we precipitate a break and lend ourselves to the charge that we have been traitors to the 'common cause.'

And again: "It grows upon me daily that the United States is the one great moral reserve in the world today, and that we cannot maintain that independence of action through which this reserve is to be maintained if we allow ourselves to be dragged into detailed European entanglements over a period of years."

Seldom has the argument for aloofness and non-participation been made with more cogency than by Mr. Hoover. In April last he apparently

indorsed the Landing view that if the American people fully knew what the treaty let them in for they would tear it to pieces. Even as to the league of nations Mr. Hoover feared that because of the indefinite exclusion of the Central empires and Russia it would "become simply a few neutrals gyrating around this armed alliance."

Mr. Hoover subsequently somewhat altered his opinions and approved having a representative of the United States on the Reparations Commission, and has urged this country's entry into the gyrating league. But it will come as a surprise to many that Mr. Hoover was once of the belief that we should withdraw from Europe and that our influence would be the greater and the more wholesome because of our aloofness from formal participation in an international organization. Senator Knox

has been savagely abused for venturing to uphold this conclusion, even by the newspaper which had the honor of presenting Mr. Hoover as a Presidential candidate.—New York Tribune.

The War Claims Board of the War Department adjusted approximately 24,000 claims growing out of munitions and supply contracts. About 6,000 claims remain to be settled. Parcel post service between this country and Lithuania has been opened up. Parcels up to 22 pounds will be accepted at the rate of 12 cents a pound.

Steamer Is Rammied.—Seattle, Wash., Mar. 20.—No fears were felt here tonight by officials of the company's Alaska the Pacific Steamship Company for passenger steamer Admiral Evans, which grounded near Seymour Narrows in a fog today after ramming and sinking a small tug. No lives were lost when the tug went down.

Women are now admitted to at least six of the medical colleges in India.

TAKE SALTS TO FLUSH KIDNEYS

Eat less meat if you feel Backachy or Bladder troubles you—Salts is fine for Kidneys.

Meat forms uric acid which excites and overworks the kidneys in their efforts to filter it from the system. Regular eaters of meat must flush the kidneys occasionally. You must relieve them like you relieve your bowels; removing all the acids, waste and poison, else you feel a dull misery in the kidney region, sharp pains in the back or sick headache, dizziness, your stomach sours, tongue is coated and when the weather is bad you have rheumatic twinges. The urine is cloudy, full of sediment; the channels often get irritated, obliging you to get up two or three times during the night. To neutralize these irritating acids and flush off the body's urinous waste get about four ounces of Jad Salts from any pharmacy; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine and bladder disorders disappear. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate sluggish kidneys and stop bladder irritation. Jad Salts is inexpensive; harmless and makes a delightful effervescent lithia-water drink which millions of men and women take now and then, thus avoiding serious kidney and bladder diseases.

GENERAL NEWS

General Leonard Wood has secured a two months' leave of absence from the army in order to promote his campaign for the Republican nomination for president. Gen. Wood may secure permission to wear civilian clothes while on leave, but apparently he is "not ashamed" to appear before the people in the uniform of his country. Practically the whole of the general's 60-day leave will be spent on the stump.

IMPRESSION

The policy of any business house is quickly perceived by its customers. Level-headed business men know that an undeviating policy of giving satisfaction creates the impression that attracts and holds patronage. A business institution feels that its customers and friends and the public are impressed with the fact that we operate with their best interests as our first consideration. Our efforts are directed constantly toward the justifying and strengthening of that impression.
