SON BILL ON GHOSTS.

Son Bill informed us Sunday night that "some people makes out like they don't believe in ghosts." Bill has been studying physiology at the Greded School. He informed us that the human body is full of phosphorus, and that when one dies the phosphorus comes up and makes a ghost.

ABBEVILLE IN LEAGUE

The Abbeville Cotton Mill baseball team, which did such good work last season, has been admitted as a member of the P. & N. Baseball League for this year, due largely to the efforts of Mr. Roscoe, who attended a meeting of baseball enthusiasts at Ware Shoals Friday. The following letter tells the story of how our boys got a place in the picture, as well as something of the organization which they have joined:
Ware Shoals, S. C.,
April 23, 1920.

Editor Press and Banner:—
Allow me to congratulate your town on the man that you have at the head of the Welfare work (Mr. Roscoe). Mr. Roscoe was in attendance at the base ball meeting held here yesterday and it was on his personality that Abbeville was taken into the P. & N. Base Ball League for the season of 1920.

We are glad to inform you that the league will consist of teams from Belton, Honea Path, Ware Shoals and your home team. There is a possibility that Grendal Mill No. 2 of Greenwood may come in if it is possible for them to find another team that will come in with them to make the six teams. It is to be a Saturday game league of split schedule so that the winner of each half play the winner of the other half for the championship. I am glad to inform you that as the person drawing up the schedule I have given Abbeville the opening game at Abbeville, with Ware Shoals. If at any time during the season I can be of any service to you, please call upon me.

Cordially,
H. B. Skinner.

MR. WAKEFIELD IN TOWN

Col. Samuel J. Wakefield, of Antreville, was here Saturday on business. He had not visited Abbeville for some time, being busy with matters at home. He tells us that he is preparing to erect a new home on the fine plantation he bought at the beginning of the year from the Knox estate, and he expects this job to keep him busy until the land trading gets lively, when he will get other people busy.

He tells us that there are large numbers of people in Anderson county who sold their lands last fall and who have not been able to purchase again for the reason that lands have given out in that county. He expects these good farmers to invade Abbeville county during the summer, being attracted by the fertility of our soil and the moderate prices asked for lands here. Like a great many of us he would welcome some of the Anderson hustle and thrift in the farming business in Abbeville County.

She had a marriage license, a man, a ceremony and they were on their honeymoon—but she wasn't married.

COL. WILSON STILL ON JOB

Col. Walter W. Wilson was down from Level Land again Saturday. Mrs. Wilson came with him this time, and she learned of the attractions here for him that evening when she suggested that they attend the movies and Col. Wilson informed her that he had an engagement with Uncle Jim. The fact is that the Colonel had no sooner gotten to town than the Greenville Street expert had challenged him and Uncle Jim for a game, they consenting readily.

After the details of the game had been arranged and a royal combat was promised, Col. Wilson got in some more of his diplomatic work. This time he informed his chief opponent that the five burner was not working well and he was thinking of

returning it. This so upset the Greenville Street champion that his partner was never able to get him out of the rut in which this news landed him. The result was more disgrace. Col. Kerr's partner has served notice that there will be no more games until the five burner transaction is settled.

Col. Wilson informed us that he also went up against Col. P. Roche, of the Hillbillies and the latter's brag partner. The Level Land president soon put them to the bad, and but for the fact that Colonel Roche was tied to his chair he would have jumped the game before it was half over.

SHORTAGE OF LABOR TO CURTAIL FOOD CROPS

Washington, Apr. 24.—A shortage of farm labor which will be as acute as that of 1918 threatens to curtail food production on American farms. Secretary of Agriculture Meredith said today in an appeal to business men and college students to spend their vacations working on farms, particularly as helpers in harvest fields.

The supply of farm labor is only 72 per cent of normal carefully com-

pared reports to the department indicate, compared with 84 per cent last year.

The fact that the present situation exists despite an increase of 15 to 25 per cent in wages paid farm hands is regarded as highly important by Secretary Meredith. As a result more acreage will be put into grasses and other crops requiring a minimum of labor.
