

**TESTED MERITS ENDORSES TANLAC**

**ENGINEER BISHOP SAYS HE FELT LIKE HE WAS "NEARLY DEAD"**

**Now He Feels Fine**

"The Tanlac Has Entirely Relieved My Ailments," Columbia Man Declares.

"I know from actual test on myself what Tanlac will do, and I am glad to recommend it," asserted T. W. Bishop, a locomotive engineer residing at 501 Green Street, Columbia, S. C., in a statement he gave

telling of the remarkable benefit this remedy gave him.

"Malaria had attacked me and my system was in very bad shape, and I was so weak I could hardly walk. I had no appetite, my back hurt me a lot, and, in fact, my system was in such bad condition that it seemed every organ in my body had gone back on me. When my health failed I was in Florida and I had to leave that State, and I felt like I was nearly dead when I left. I had no energy and felt badly all the time. In fact, I could not do my work at all.

"I read about Tanlac and started taking it. My system was built up a great deal. I gained a lot of weight—about eleven pounds—and began to

feel fine. I am working regularly now and I have a good appetite—almost always hungry. I am in fine shape now and Tanlac has entirely removed my ailments and the causes, I am sure." (adv.)

**JOINT RESOLUTION FAVORED BY EDITORS**

Shortage of Newsprint Causes Action by National Editorial Association in Annual Convention

Boston, May 31.—The newsprint shortage was discussed today by the National Editorial association in annual convention here. A resolution was unanimously adopted and forwarded to Chairman Porter of the house foreign relations committee at Washington urging the passage of senate joint resolution 152, which is designated to afford immediate relief in the emergency and especially to country newspapers.

Edward Albright of Gallatin, Tenn., in his presidential address said "ubiquitous profiteer is abroad in the print paper field just as he is in many other lines of trade and an acute situation demands drastic action."

"My opinion is," he said, "that congress by prompt legislative enactment should restrict the issue of every newspaper in the United States to a maximum of so many pages per day and in such an act define a maximum page size. Large users of print paper with their own mills or contracts should keep out of the spot market. Congress also should make a substantial appropriation for a determined effort to find a substitute for wood pulp."

President P. T. Dodge of the International Paper company, predicted even higher prices for newsprint paper due to the threatened rise in freight rates and the demands of labor for higher wages. He suggested some amendment to the postal laws requiring an added rate on newspapers above a certain weight and size and appeal to the newspapers to keep out of the spot market.

**A FINE OF \$31,000 FOR BIG PROFITEER**

Syracuse, N. Y., May 29.—Weed's Inc., Binghamton, clothiers were found guilty this morning in the United States court on eight counts of an indictment charging profiteering. The court imposed a fine of \$31,000, which is the largest that has been passed in the United States following a conviction for profiteering.

Department of Justice officials said today that the conviction was the second secured in the entire country against a large and long established concern conducting a prosperous business.

Six counts covered sales actually made and fine of \$5,000 was imposed for each of them.

The charges in these counts were as follows:

- The sale of a suit of clothes costing \$20 for \$40.
- The sale of a suit costing \$12.10 for \$40.
- The defense disputed the cost price, said it was \$21, instead of \$12.10.
- The sale of another suit for \$45, the cost price being fixed at \$23.50.
- The sale of a suit costing \$17.82 for \$45.
- The sale of a suit costing \$11.75 for \$29.50.

**MONEY FOR POSTOFFICE**

Washington, June 3.—Representative Mann, assisted by Representative Byrnes, a member of the appropriations committee, today succeeded in having inserted in the general deficiency bill the item carrying \$95,000 recommended by Secretary Houston last week for the completion of the Columbia postoffice. Mr. Mann, when seen late this evening, was very much pleased that his long fight for the building had terminated successfully. As soon as the act is signed by the president, the money will be available and the government will then be in position to go on with the work.

**WORK BEGINS ON 17-STORY BUILDING IN GREENVILLE**

Greenville, June 1.—Greenville's seventeen-story skyscraper is at last under way.

**PROTECT YOURSELF AGAINST LOSS**

It is usually the unforeseen that happens when a rain storm approaches during the growing season; it may bring devastation and ruin to your standing grain in just a few minutes in the form of HAIL.

**The Season of HAIL STORMS Is Here.**

You probably know of some instances where the or even part of your season's work from destruction by the elements, when a few dollars invested in an insurance policy will give you financial protection.

You probably know of some instances where the damage of just one passing storm has wiped out a man's profits for his entire year of farming.

We can write your **HAIL INSURANCE** for a nominal sum in a good substantial Company; the cost is small—the protection is great.

Call us up or drop us a line and we will make it a point to see you.

**DEVOE The Guaranteed Lead and Zinc Paint Fewer Gallons—Wears Longer**

It contains no whiting, silica, china clay or other such stuff. It is made of the same pure ingredients that the old-time painter used: Pure White Lead, Pure White Zinc, Pure Linseed Oil, and nothing else. Devoe is mixed by machinery, 1000 gallons at a time. That makes it absolutely uniform in strength, color and covering capacity—always takes fewer gallons, too.

Let us show you the real economy of painting Devoe paint. Will be glad to send you copy of the practical booklet—"Keep Appearances Up and Expenses Down."

**CHANDLER SIX Famous For Its Marvelous Motor**

**The Chandler Gives You the Service You Demand**

THOUGHTFUL men, in selecting an automobile, find in the history of the Chandler Six a source of real confidence.

The Chandler motor of today is the development of the Chandler motor of seven years ago, embracing refinements and improvements which have been the natural development of these years of service in the hands of thousands of owners, and the constant application of the engineering skill and the sincerity of its builders.

Motors of one type and another have been heralded and retired within these years. But the Chandler motor, its true superiority proven in service on every roadway in America and in many nations abroad, has lived and gone forward into a place of distinction.

Men who have owned and driven many cars, men from coast to coast, will tell you the Chandler is the leader of all sixes. Over the long mountain roads or on the trails of the desert or in crowded city traffic, anywhere, the Chandler will give you the service you demand. Its power, its flexibility, and its sturdy endurance are not surpassed.

**The Chandler Six is the Most Closely Priced Fine Car Built**

**SIX SPLENDID BODY TYPES**

- Seven-Passenger Touring Car, \$1995
  - Four-Passenger Roadster, \$1995
  - Four-Passenger Dispatch Car, \$2075
  - Seven-Passenger Sedan, \$2995
  - Four-Passenger Coupe, \$2895
  - Limousine, \$3495

**Case 15-27 Kerosene Tractor**

**Pulls 3 or 4 Plows**

In fields where plowing is difficult—tough or baked soil, stiff grades, etc.—this Case 15-27 Kerosene Tractor will pull 3 plows easily. Where conditions are favorable, this tractor can pull 4 plows.

So it is a favorite on the average farm. It is neither too large nor too small.

In addition to its field work, it is designed for belt work, having the pulley properly placed. It will drive a Case 26x46 Thresher equipped with feeder and wind stacker or other machines requiring similar power.

The Case 15-27 has abundant reserve power. While rated at 15 horsepower on the drawbar, it can deliver more than 115

horsepower. While rated at 27 on the belt, it can deliver 33 horsepower. It is ever ready for the hardest jobs. It never tires.

All gears are cut steel, enclosed and run in oil. It has a four-cylinder valve-in-head motor, mounted crosswise on a one-piece main frame. This affords the use of all spur gears.

A Case Sylvania Thermostat controls the cooling system and insures complete combustion of kerosene. A Case air washer delivers clean air to the carburetor.

There are dozens of betterments found only in this tractor. You should be familiar with them, so that you may make a careful comparison.

May we have the opportunity soon to point out Case superiorities?
