CONFESSED SENDING WIFE POISONED CANDY

Nashville, July 28.—City detectives today made public a confession accredited to George Litruel, a young Sumner county farmer, who is charged with sending the poisoned candy to his wife, Mrs. Susie

Litruel, an inmate in the Middle Tennessee hospital for the insane, which resulted in the death of Mrs. Lizzie Brooks, another inmate, and the serious illness of Mrs. Litruel, and two attendants.

Litruel was arrested Saturday night by the Nashville police department on two warrants sworn out by H. J. Matthews, Litruel's brother-in-law, one warrant charging murder and the other attempt to commit murder. The confession accredited to Litruel went into details regarding the purchase of the candy and the poison and the mailing of the package. Litruel is quoted as telling the officers that he had informed a young woman neighbor, of what he planned to do. They were to be married, he said, but no date was fixed.

COMPARATIVELY UNKNOWN PORTRAIT OF WASHINGTON DEPOSITED WITH SOCIETY

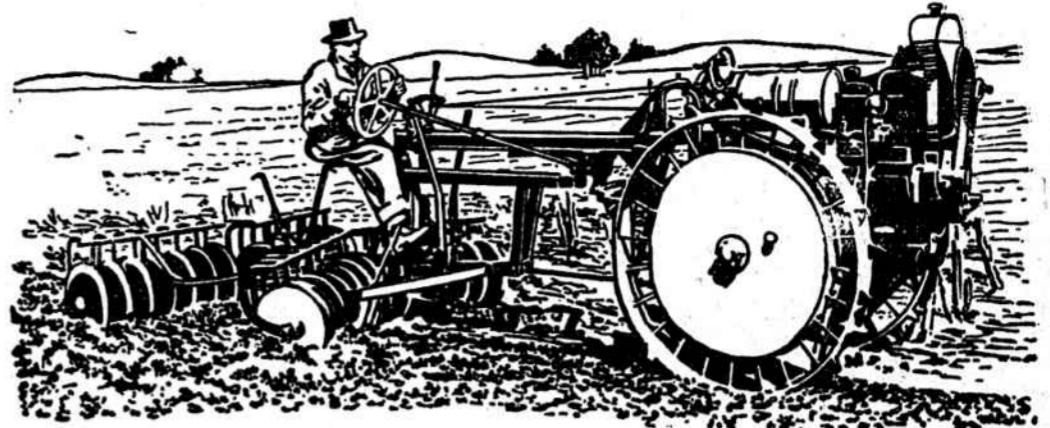

New York, July 29.—A rare and comparatively unknown portrait of George Washington, painted in oils on a marble slab, by Archibald Robertson has been deposited in the New York Historical Society by Tarrant Putnam, a lineal descendant of the artist, it was announced today.

A notation by the artist on the backboard filling indicates the portrait was painted in Philadelphia in December, 1791. The artist had written that when the painting was made Washington did not wear his false teeth.

URGES UNITED STATES TO PREVENT FIGHT IN MEXICO IF POSSIBLE

Calexico, Cal., July 29.—United States Consul Boyle announced tonight he had sent a lengthy telegram to the State Department at Washington urging that the United States offer its good offices in an effort to prevent hostilities between troops of the Mexican provisional

The MOLINE Tractor is Universal

Discs 38 acres a day

One man with one tractor does all field work from plowing to harvest

The Use of a Tractor Improves the Soil

One discing before planting is as good as two cultivations after the crop is up, because weeds germinate in a lower degree of heat and discing brings a large portion of them to the surface and destroys them at the start.

Discing more than any other operation insures a good seed bed. And yet, good discing is often neglected, hurried or slighted and a chance taken that the crop will make without it.

With the "plow pan" properly broken up, and the tractor is the only way to do this, you can get over your fields with a disc harrow more often than with horses and guarantee a good seed bed in record time.

Here is what one man and a Moline Universal Tractor can do in a ten-hour day:—

- Plow 7 to 9 acres
Disc 27 acres with a 7' Tandem Disc Harrow
Disc 38 acres with a 10' Disc Harrow
Harrow 76 acres with a 20' Peg Tooth Harrow
Cultivate from 13 to 20 acres with a two-row Cultivator
Drill 35 acres with a 10' Grain Drill
Harvest 40 acres with a 10' Grain Binder
Harvest 10 acres with a Corn Binder
Mow 25 acres with a 8' Mower
Rake 40 acres with a 12' Rake

The Moline Universal Tractor not only guarantees more acreage; saves men and horses, but adds \$5 to \$15 per acre to the value of your land. We can prove this to you.

It solves the farm help problem. Hundreds of owners report an average saving of one and one-third men and five horses, by using the Moline Universal Tractor.

A demonstration on your own land cheerfully arranged, immediate deliveries guaranteed—satisfactory service available instantly.

If desired you can use the "drag behind" or horse drawn implements you now have with the Moline Universal the same as with other types of tractors.

CAN you imagine a wash day, with practically nothing to do? Washday seems almost like a holiday, instead of a day of drudgery, when you do your washing with Clean Easy Naphtholeine Wash Soap.

Just soak your clothes overnight; shave 1/2 bar of Clean Easy into 4 1/2 gallons of water; let it dissolve; boil for ten minutes; rinse thru two clean waters; blue and dry in open air and the washing's done. No tired, aching back, no red hands or skinned knuckles. You feel just as fresh as when you first began your day's work.

Clean Easy may be purchased at any grocery store. One bar will do two ordinary weeks' washing—just think, an average week's wash done for only a few cents and in ten minutes time. Clean Easy does not hurt the fabric. Try it today, and your house will have no room for the old-fashioned scrubbing board.

Notice how different Clean Easy looks from other soaps. Ask for Clean Easy by name at your grocer's. Clean Easy is the only soap made that will do this work.

HOW OLD DOES A DOG HAVE TO BE, TO BE A DOG? HERE IT IS

Tulsa, Okla., July 29.—When does a pup become "of age?"

P. L. Long, the city's chief sanitary inspector, under whose direction the dog catcher operates, has handed down a decision which, in the future, will govern in all instances where controversy arises over the owner of a canine claiming exemption of the dog tax, alleging the dog still to be a "pup."

At the bi-weekly conference of the mayor and city commissioners, the subject was brought up and Long appealed for an official interpretation of the period when a pup becomes "of age." They decided it was four months. Hereafter, pups in Tulsa are pups until they are four months old—then they automatically become dogs.

DISORDERS CONTINUE IN LOWER JAPANESE HOUSE

Tokio, July 29.—Disorder in the house of representatives yesterday was repeated today when the allegiance that Baron Takahasi, minister of finance and other ministers

had improperly used their offices by indulging in stock gambling were again discussed. Several members of the opposition rushed to the rostrum, followed by governmental

members and fist fighting was started.

Relieve Your Rheumatism For 25c.

NR does it by improving digestion, assimilation and elimination—the logical way.

NR Today—Relief or No Pay

There are three vital processes of human existence—the digestion of food, the extraction of nourishment from it and the elimination of the waste.

Let anything interfere with these processes—let them be interrupted or improperly carried on, and sickness of some kind follows.

Poor digestion and assimilation means failure to derive full nourishment from food and that in turn often means impoverished blood, weakness, anemia, etc. Poor elimination means an accumulation of waste matter which poisons the body, lowers vitality, decreases the power of resistance to disease and leads to the development of many serious ills.

Rheumatism,—due to some interference with the process of elimination, failure to get rid of certain body poisons,—cannot be expected to yield to any medicine that fails to correct the condition responsible for it. Could any reasonable person expect to rid himself of rheumatic pain as long as

rheumatic poison is allowed to remain in the body. Think of this. It explains the success of Nature's Remedy (NR Tablets) in so many cases where other medicines have failed. Thousands are using NR Tablets every day and getting relief. Why pay five or ten times as much for uncertain things? A 25c box of Nature's Remedy (NR Tablets), containing enough to last twenty-five days,—must help you, must give you prompt relief and satisfactory benefit or cost you nothing.

And Nature's Remedy is not only for the relief of rheumatism. It improves digestion, tones the liver, regulates kidney and bowel action, improves the blood and cleanses the whole system. You'll feel like a new person when you've taken NR Tablets a week. You've tried the expensive medicines and doctors, now make the real test. You'll get results this time. Nature's Remedy (NR Tablets) is sold, guaranteed and recommended by your druggist.
