RUSSIANS SUBMIT A BOUNDARY LINE

Riga, Sept. 30.—Russian Bolshevik representatives at the peace conference here have submitted to Polish delegates suggestions for the boundary line between Poland and states adjoining to the east.

At many points it is some distance east of the line fixed for Poland's eastern frontier at the Versailles conference, and touches the latter line for but a short distance in the neighborhood of Brest-Litovsk so that she might have direct railway communication along her eastern frontier.

Soviet delegates propose that hostilities cease within forty-eight hours after the preliminary treaty of peace is signed, and that Polish troops withdraw approximately fifteen miles westward of the demarkation line. They will withdraw the same distance, maintaining the rate of twelve miles in the first twenty-four hours. This strip of territory would be a neutral zone during the final peace arrangements.

MR. EDISON'S RE-CREATION

Over Five Hundred Metropolitan Newspaper Critics Have Publicly Endorsed Mr. Edison's New Art.

So startling, so epoch-making was Mr. Edison's unique test, that it instantly commanded the attention of the press.

In the famed opera houses of the big metropolitan cities, where musical history has been made, these tests were held.

The critics of over five hundred newspapers, trained in their judgment, severe and critical, came to witness and judge Mr. Edison's astonishing tests.

They, too, were convinced. Publicly, in the columns of their newspapers, they declared that their ears could not detect the difference between the living tones and Mr. Edison's 'Re-Creation' of them.

This total compares with \$11,000,000,000 in 1919, \$9,000,000,000 in 1918 and 1917, slightly less than \$8,000,000,000 in 1916, slightly more than \$5,000,000,000 in 1915 and about \$4,277,000,000 in 1913, the year immediately preceding the war.

PREACHING THIS EVENING

Rev. Paul Pressly, of Louisville, Ga., who is to conduct the evangelical services at the Associate Reformed Presbyterian Church will arrive in the city this afternoon, and will preach his first sermon tonight. The services are scheduled to begin at 8:00 o'clock but on account of the fact that Mr. Pressly will drive from Verdery to Abbeville after the arrival of the C. & W. C. train, the congregation may be called upon to wait a few minutes. However, the services will be held and those who come, if the services do not begin on time, need not grow impatient.

Mr. Pressly is a preacher of more than common power and ability. He comes of a family of great preachers, and those who are fortunate enough to hear him will not be disappointed, if they are desirous of hearing good preaching.
