JUST TWO!

The women are rising to the occasion and are practicing a stiff economy, one lady giving her experience thusly: "You know, this is the first time in my life, that my husband has ever cautioned me not to spend money, and I haven't bought a thing, not a thing, but two hats!"

RATES AND WAGES MAY BE INCREASED

Plan Put Forward By Southern Bell Telephone Company in Georgia

Atlanta, Ga., Oct. 28.—That the Southern Bell Telephone and Telegraph company proposes a general raise in wages of its employees in Georgia, should its petition for increased rates be allowed, was brought out today at a hearing before the state railroad commission, in which representatives of Macon, Eastman, Valdosta and Warrenton were heard in vigorous opposition to the proposed increases.

The average annual wage of the company's employees in the state, according to J. M. B. Hoxey, first vice president, is \$876.21, and it is proposed to add \$112.40 to the annual wages of each employee. The company asks increases in rates ranging from 20 to 40 per cent. and numbers of other cities are to be heard in the case.

Testimony also disclosed that on September 1 the company had a total indebtedness of \$4,627,238.48, and it was declared that unless rates are increased it would be unable to meet its investment program of 1921.
