FARMERS RELIEF PLAN ADOPTED BY SENATE: FOUND AT STILL **BILL GOES TO HOUSE** Directs Secretary of Treasury and

Others to Revive War Finance Corporation-Liberal Credits Plan is Favored

Washington, Dec. 14 .- The Senate late yesterday passed the agriculture resolution directing the revival of the War Finance Corporation as a measure of affording relief to farmers.

The second section of the resolution which as introduced would have directed the extension of liberal credits to farmers by the federal reserve system, was amended to make the desirability of such a course only an expression of opinion of the Congress The amendment making the change in the section of the resolution relating to the federal reserve system was proposed by Senator Norris, Republican. Nebraska, and was accepted by

a vote of 47 to 16. **Duties** Are Broadened

The remaining divisions would be maintained in skeletonized form and would be increased to full strength only in emergencies under Mr. Anthony's plan.

Immediate sale of between 30, 000 and 40,000 motor trucks now held in reserve was said by Representative Anthony to be favored by the committee.

Secretary Baker was questioned particularly as to the present size of the army and in reply said it consisted of approximately 216,000 enlisted men and 14,000 officers.

Members of the house military committee have charged the war department with breaking faith with congress in recruiting more than the 180,000 men for which provision was made in the army appropriation bill.

"This year," said Representative Anthony, "we will appropriate for an army of not more than 175,000 men and in addition will put a mandatory provision in the appropriation bill that the war department is not to exceed that number."

CAPT. SHAW HERE

Capt. W. C. Shaw, of Lowndesville, one of the men who told you so, was here today. He found out how much taxes amounted to, which did not surprise him. He tells us, though, that some of his neighbors who voted for good roads' bonds are complaining about high taxes. Had

they listened to a neighbor who knew what he was talking about they might not now find themselves bombarded with such steep requirements on the part of the county and state.

The Captain wrote some letters last year and the early part of this year in which he gave the people timely notice of what was coming. They paid no attention to him, but elected to follow those who thought taxes could not get too high. He promises to write us again shortly and give the people some more good advice. We hope they will give it more attention this time.

of the country upon the security of the agricultural products now held by them, by permitting the rediscounting

of such notes of extension at a fair and reasonable rate of interest." The Senate agriculture committee during the day continued its hearings with a view to framing other measures looking to the relief of the farmers from the conditions brought about by falling prices.

The House received an addition to its collection of relief measures in a bill offered by Representative Young, Republican, of North Dakota, proposing an embargo on imports of grain and grain products, livestock and their products for one year.

veiled allusions, invoked as one reason why general disarmament can not be boldly grappled with at this time, Mr. Barnes said. H. A. L. Fisher of the British delegation referred to nationals with powerful arms and munitions making facilities that still are outside the league. The absence from the league of former enemy countries also as referred to by Mr. Fisher. This brought from Mr. Barnes the retort: "They now are practically disarmed and can not constitute a menace for years to come." A curious manifestation of the session was the general applause of the delegates for the pleas made by Messrs Barnes and Lange for an immediate minimum effort, while at the same time accepting the conclusion of the disarmament committee. These are, briefly, an effort to prevent the future increase of armaments and propaganda in favor of a decrease as a steady means of bringing about eventual but remote, general dis-armament.

France and Belgium accepted the committee's conclusions until limitation of armament during the next two years on the base of appropriations for last year. They added, however, that they could not consider the restoration of armaments destroyed during the war as increase expenditures but pointed out that measures were being taken to reduce the period of military service.
