WOULD PLACE TAX ON
BANK DEPOSITS

Washington, Dec. 18.—A tax of
one quarter of one per cent on all
bank deposits is proposed in a bill
produced today by Representative
Treadway of Massachusetts, a Re-
publican member of the House ways
and means committee. Mr. Tread-
way estimated that such a tax would
net a revenue of approximately one
billion dollars annually.

Collection of the tax would be
made at the time deposits were
made and institutions affected
would include all national, state and
private banks, trust companies,
brokers' offices and other institu-
tions, firms or corporations re-
ceiving any money on deposit sub-
ject to withdrawals by check, cash
or otherwise.

Mutual savings banks, coopera-
tive building and loan associations
and similar institutions organized
and operated exclusively for the
benefits of their members would be
exempted.

The bill was referred to the

House ways and means committee
which is considering changes in in-
ternal revenue schedules.

Mr. Treadway in a statement
characterized the proposed tax as a
"turnover tax" on deposits.

"Nothing Could Be Simpler"
"Nothing could be simpler or
more easily administered while at
the same time being greatly produc-
tive or revenue," said he.

Mr. Treadway said the latest re-
port of the comptroller of the cur-
rency "shows that the amount of
exchanges of clearing houses of the
United States for the year 1919 was
\$387,091,000."

"Assuming that 25 per cent of
the transactions of the country did
not go through clearing houses,"
Mr. Treadway's statement said,
"there should be added to this
amount \$96,772,985,000, making
the total transaction for 1919,
\$483,864,926,000."

"A tax of one quarter of one per
cent of this amount would have
brought revenue of \$1,209,662,-
310."

The Massachusetts member said
the proposed tax "may offer a solu-
tion of the problem of a means to
secure adequate revenue if the ex-
cess profits tax and other obnoxious
taxes are repealed by congress.
He added that he did not expect for
midable opposition to the bill from
the banking interests.
