PALMETTO STATE TO HAVE ALCOVE IN VICTORY HALL

Columbia, Dec. 30.—South Carolina will have an alcove in Victory Hall, to be erected in New York city, as a memorial to the heroes of the world war. The alcove is allotted to the state without cost, except the cost of properly furnishing it. Governor Cooper is today in receipt of advices from Geo. W. Wingate, president of the Victory Hall association of New York, regarding the memorial building and the place South Carolina will have in it.

Each state in the union is to have an alcove in the hall. Each state is to decide on its method of furnishing the alcove, in honor of the men of the state who served during the world war. These state alcoves will be in the "Corridor of the states" one of the cardinal features of the memorial.

Victory Hall is to be erected in Pershing Square, directly opposite the Grand Central station, in the heart of the great metropolis. It is to be erected by the people of New York city, as a memorial to the war dead of the city, dedicated to the war service of the American people.

GOVERNMENT OFFICIALS ACCUSED OF GRAFTING

Three Men Said To Have Realized \$400,000 From Transaction in Coal During Shortage of Last Summer

Washington, Dec. 30.—Dan W. Sims, who was engaged by the department of justice as a special prosecutor in cases brought against coal operators and miners in the federal court at Indianapolis and who resigned after differences with Attorney General Palmer over the evidence to be used, has been summoned to appear before the senate committee investigating the coal situation.

The committee was to have continued its hearings tomorrow, but decision was reached today to postpone examination of witnesses. Chairman Calder is expected to call an executive session, however, with Senator Kenyon, of Iowa, and Edge, of New Jersey his republican associates. Mr. Sims will be taken into this conference of the committee.

Further inquiry into charges that government employees and officials engaged in profit taking on coal during the shortage last summer has been made by agents of the committee. George H. Cushing, managing director of the American Wholesale Coal Association has now furnished the committee with three names, said to be those of government officials, who joined in a single coal transaction which netted \$400,000 for the participants. Two of the three are still connected with the government service, it was said, by the committee representatives, though one who was employed on a dollar a year basis during and after the war is not now in service.

OF INTEREST TO FARMERS

Many Come Here From Canada—Immigration For Year Breaks Records Ninety Thousand in

Washington, Dec. 30.—Immigration from Canada during the last fiscal year broke all records, and there was a tremendous increase in immigration from Mexico as well as from the European countries. Anthony Caminetti, commissioner general of immigration, says in his annual report.

Aliens from Canada admitted to the country, the report says, numbered 90,025 while aliens departing numbered 7,666 leaving an excess of 82,957. In addition 19,336 aliens in Canada who applied for admission were debarred, while 5,328 were refused examination, the report says, because of inability or unwillingness to meet the head tax requirement.

Admission of aliens from Mexico totalled 52,361, while the number of aliens going to Mexico from the United States numbered 6,606 leaving an excess of 45,755. During the previous fiscal year the admissions of immigrant aliens from Mexico numbered 29,818.

Europe sent a total of 246,295 immigrant aliens to the United States in the past fiscal year, while 256,433 emigrant aliens left the United States for Europe, causing a decrease in alien population of 10,138. Immigrant aliens admitted from Asia numbered 17,505 and emigrant aliens departing for Asia numbered 9,441, leaving an excess of 8,844.

Resumption of immigration on a large scale and efforts to deport alien anarchists made the last fiscal year the busiest of any since the inauguration of the immigration service, the report says, "with indications that pre-war immigration figures would be outdistanced unless affected by laws of this or other countries."

"Chinese immigration," the report continues, "shows an increase over the preceding year, the number of admissions having risen from 3,340 coming for permanent residence in 1919 to 4,790 in 1920, these figures not including aliens of the Chinese race granted transient privilege. Of the citizen class of Chinese persons there were admitted in all, 1181, of whom 897 were of native birth, 843 were born

abroad of native born parents and 141 were foreign born wives of American citizens of the Chinese race.

"Immigration from Japan to the continent of the United States shows an increase of 1 per cent over the preceding fiscal year, while that to Hawaii shows a decrease of 6 per cent, the admission in figures being 12,868 to the mainland and 3,306 to Hawaii as against 11,404 and 3,500, respectively, in 1919.

Surprise is Found

"As stated in the last annual report, the practice then obtaining as to the admission of proxy brides as alleged brides of Japanese in this country was not satisfactory to the department and the result was a new rule which promised a solution of the question. Contrary to this expectation the number of arrivals of such wives increased from 3,189 in 1919 to 3,816 in 1920. This tendency caused continued study of the subject. Finally Japan fixed by decree, the 29th of February of this year, the last day upon which passports would be issued to so-called proxy brides and as the holders of such documents had six months in which to apply for entry, September 1, 1920, saw the end of this system. "The granting of passports under the gentlemen's agreement, with the

exception mentioned, will continue as heretofore by Japan. The immigration service finds difficulty in meeting the situation when subjects of Japan endeavor to impose not only on the United States, but sometimes also upon their own government. Japanese laborers are allowed to enter Mexico and some Central and South American countries upon presentation of passports issued by Japanese limiting to one of such countries, the holders there of not being entitled to admission thereon to the United States. Notwithstanding this inhibition Japanese find their way into Mexico and surreptitiously or through smuggling devices enter or attempt to enter this country.

"The too general terms of the agreement itself and ex parte determination by officials of Japan of matters arising under its terms have not been conducive at all times to the results anticipated by both countries when the agreement was conceived. Not only is clarification of the agreement needed if its main purpose in keeping laborers from coming to the United States is to be effected, but systematic enforcement thereof by joint administrative efforts should be brought about by both nations. Frauds against both would thereby be ma-

terially checked if not entirely prevented and the rights of all concerned protected.

"In the last report reference was made to laws of Spain and Portugal which permit a person, native of either of those countries, who may be in a foreign jurisdiction to name by power of attorney an attorney in fact to represent such persons in a marriage ceremony to be consummated in the home country in the absence of the bride or bridegroom as the case may be. Proceeding have arisen where an alleged bride had made application for admission to the United States to join an alleged husband; thus as the 'proxy bride' experience on the Pacific coast is about to cease it is possible to have it continued on the Atlantic side with the probable addition of a 'proxy bridegroom' attachment."

Movement of Anarchists

Turning to alien anarchists, communists and kindred classes, Mr. Caminetti says the activities for the last 12 months in this line of work have been greater than all previous efforts in this direction. He reviews the arrests in November and December, primarily of members of the Union of Russian Workers, and notes that of the 452 Russians taken into custody orders were issued for the deportation of 246.
