A CUTTING SCRAPE.

There was a cutting scrape on the place of Thompkins Ramey Monday between Julia and Jim Marshall. Julia and Jim are husband and wife and whenever they have an argument Julia seems to get the worst of it. This time Julia had borrowed a friends hat and made the mistake of wanting to return it. Jim did not approve of this and in the dispute cut his wife across the breast, necessitating five stitches being taken. Dr. Neuffer was called in and did the necessary sewing. This is the second cutting scrape between the two.

THE VICTROLA AND VICTOR RECORDS

MUCH MEDICINE ONLY BEVERAGE

Speakers Tell of Change With Prohibition—Meeting of The Drug Men.

Washington, March 22—Prohibition has brought in its wake hundreds of mushroom business establishments engaged solely in making booze beverages, speakers declared here today at a meeting of pharmaceutical manufacturers and manufacturing chemists. The conference was discussing the prohibition law and regulations as they affect the manufacture of medicines containing alcohol.

Speakers also charged that the activities of manufacturers who catered to the beverage medicine trade had compelled prohibition enforcement officials to brand all pharmaceutical manufacturers as "potent criminals." Several expressed the belief that an injustice had been done to them, and in order to talk it over with Commissioner Kramer, the conference invited him to attend tomorrow's session that he might learn their ideas and plans.

There was some criticism of the Volstead act, but it did not go far. The position of manufacturers as stated by their chairman, W. J. Woodruff of Detroit, was that they desired only to have an understanding with the prohibition officers. They want to work unhampered and they want the prohibition office to feel that they can be trusted to obey the law, Mr. Woodruff said. He added that resentment exists because the gether under the same regulations. good and bad had been classed to Dr. Harvey W. Wiley, former chief chemist, one of the speakers told the manufacturers that their troubles were all founded on the "person with a thirst," and that their future service to their trade should be governed by that knowledge.

STATUS OF CAMPS NOT DISTURBED NOW

Washington, March 22—Any statement regarding disposition of the various camps throughout the country, prior to the enactment of the army reorganization and appropriation bills, would be premature, it is announced today by Col. J. S. Hall of the adjutant general's office.

This officer had been questioned regarding the report which came to Senator Dial from Columbia yesterday that the war department planned to abandon Camp Jackson or to consolidate it with Camp Meade. As to whether or not the department had considered such action was not divulged, but Colonel Hall made it emphatic that nothing had been determined and would not be until it was conclusively shown what the action of congress would be.

Senator Dial said today that he had not heard the report of the proposed consolidation until information reached him from Columbia. He is impressed with an idea that the war department does consider the abandonment of certain camps, and he will be on the alert lest danger of obliteration confronts Camp Jackson.
