

**RESOLUTION OF KNOX  
ADOPTED BY SENATE**  
(Continued from page 1)

tion made by Senator Townsend Republican, Michigan, who moved to strike out the clause repeating the war declaration and substitute a simple declaration of peace, was defeated 44 to 26, shortly before the final vote. Senator Lodge, Republican leader, opposed the Townsend amendment, stating that it had been considered carefully by the foreign relations committee, which decided that "the direct method was the best."

**Treaties To Follow**

Senator Lodge in inaugurating debate for the day, told the senate that treaties with Germany and with other nations with which the United States has been at war would follow the Knox resolution. He also gave notice that the United States would not abandon the allies.

Substitutes for the Knox resolution prepared by Senator King Democrat, Utah, were not offered. Mr. King said that the Republican majority appeared determined to support the Knox resolution as offered. Senator France, Republican, Maryland also did not offer his plan for a general world conference to consider various questions affecting rehabilitation. He promised to offer his measure later.

The vote on the peace resolution did not come until after 7 o'clock to night and was preceded by tense partisan clashes. The Republicans lined up almost solidly behind the measure and all but five of the Democrats voted or were paired against.

**KING GEORGE SENDS  
BRONZE PLACQUE FOR  
MONTAGUE NICHOLLS**

Spartanburg, S. C., April 30.—Judge George W. Nicholls, of this place today received from King George of Great Britain a bronze plaque, 12 inches in diameter, inscribed in memory of his son, Lieutenant William Montague Nicholls, who was killed in action while serving with British forces in France in the summer of 1917. The plaque bears the name of the dead lieutenant with the words, "he died for freedom and honor."

(Will be out of town two or three days.)

**Watch Your  
Children's Eyes**

To neglect your children's eyesight, is to incur a grave responsibility.

Have us examine them, that you may learn their true condition, and whether or not glasses are necessary.

We never advise glasses unless absolutely required

**SANTUC**

Oscar Gaddis, aged 14, son of Mr. Eugene Gaddie, died at the Anderson hospital April 23. He had been critically ill with pneumonia for some time and about two weeks ago he was taken to the hospital and his friends hoped the change was for the best, but he became seriously ill Saturday and only lasted a few hours until the end came.

He is survived by his father, four sisters, and two brothers, and a host of relatives and friends to mourn his death. Interment was in Greenville cemetery Sunday morning. The family has the deepest sympathy of this community.

The two little Gaddis girls are still ill. They were unable to attend the funeral of their brother. We hope they will soon be well again.

Mr. M. B. Kay is visiting relatives in Antreville and Anderson. We wish him a pleasant visit.

Mr. and Mrs. S. L. Beasley and son, Leroy, Misses Vic and Ruby Beasley, of Abbeville and Mr. Ragsdale, of Honea Path, were pleasant visitors with Mr. and Mrs. M. D. Wright Sunday.

Mr. E. J. Botts recently visited relatives in and near Greenwood.

Friends here of Dr. Power are glad to hear that he is getting on nicely at the hospital.

Mr. W. H. Sharp was a business visitor in the city Wednesday.

Miss Louise Kay spent Saturday with Mrs. M. D. Wright.

Little Ruby Haddon is visiting her grandmother, Mrs. Ernie Haddon.

Miss Annie Kay was the guest of Miss Lizzie Sharp Wednesday.

Mrs. J. W. Callahan, of Spartanburg, and Mrs. M. J. Newell, of Belton, are in Columbia visiting Dr. and Mrs. S. F. Killingsworth. On their return they are expected to come to Abbeville to visit their brother Mr. M. B. Kay.

Miss Marie Boyd is on the sick list. Hope she will soon be well again.

Messrs. J. N. and Jesse Gordon and Mrs. Lillie Gordon and Euphemia were the guests of Mr. and Mrs. W. F. Kay Thursday.

Santuc school closed Friday with a picnic for the school children and the community.

Arlie Price is visiting his sister, Mrs. J. B. Culbreth.

Mr. Frank was a business visitor in Due West Thursday.

Mrs. Tom Hunter spent Friday here with her home folks.

**GOVERNMENT DEBT  
TO BE REFUNDED**

(Continued from page 1)  
ment accompanying the letter says. Of this \$4,100,000,000 was in Victory notes and \$2,754,841,000 in the form of short term certificates of indebtedness which it is proposed to consolidate in one great refunding arrangement.

**THREE NEGROES ARE  
KILLED AT STILL**

Raleigh, N. C., April 30.—In a three-cornered fight late yesterday between a party of revenue officers and guards at a big illicit moonshine whiskey still near Pascal, N. C., three unidentified negroes were killed according to meagre reports received here today. None of the officers were hurt. The officers seized three big distilleries, twenty-five thousand gallons of beer, one hundred and fifty-five gallons of whiskey and \$2,500 worth of material.

The negroes who were killed were on guard at the distilleries and fired on the party of eight revenue officers when they approached the plant. The officer returned the fire and after a battle lasting several minutes, three of the negroes fell mortally wounded. During the shooting 12 other men at the distillery succeeded in making their escape.

Joe and Hayes Baldwin who are said by federal authorities to have been the owners of the triple plant, are fugitives from justice and have been sought for more than a year. They were convicted of blockading 18 months ago and sentenced to serve two years on the roads, but escaped.

More than 75,000 wooden shoes are made annually in Michigan and Wisconsin out of scraps from saw mills.

**A WIERD GAME**

**Abbeville High Defeats Clinton By 22 to 7 in Uninteresting Contest Friday—Copeland Gets Home Run**

In a slow and uninteresting game of baseball Friday afternoon on Rosenberg field Abbeville High swamped Clinton High with a score of 22 to 7. Clinton had no business making any scores at all for they have no team. The pitcher was fair and maybe would have been good had he been given a bit of support but his team mates, short and second base particularly making one error after another until they reached a half score.

Abbeville played together better than usually, Tate's catching improved but his judgment was occasionally bad in making throws. Allen Long was weak with the stick but did well on first base. Buster was a bit wild in the box and was relieved by Galloway B, who in the ninth was relieved by Billy Long.

Before the game was over about all the substitutes had been put in even Socrates Bradley having a try in right field. Austin Roche did good work in left field accepting all chances and handling them well. He suffered an injured finger in the seventh and Bill Cox finished the game.

The score by innings was:  
R. H. E.  
Abbeville 280 120 63x 22 15 4  
Clinton 020 001 121 7 10 10  
Umpire: Galloway. Time: 2:15.

**BUSINESS RECOVERY  
GAINING MOMENTUM**

(Continued from page 1)

levels. In the hide and leather industry the discrepancy is even greater, the board asserted, the present price of skins being one-third under pre-war levels while the price of shoes is twice as high as in 1913.

While labor has been participating in the readjustment process, the board continued, the participation has been uneven as between different sections of the country and different groups of labor.

The agricultural situation during the month was characterized as generally favorable although the fruit growing sections suffered from cold waves. Good progress has been made in planting a crop in the cotton states, the board said, while grain movement had increased.

Little demand for coal is reported, the board said, but petroleum production has gained.

**Differences Narrower**

There was greater stabilization in the price of raw cotton during the month, according to the report, and the price of gray goods, after declining to 6 1-4 cents a yard, advanced slightly. Nevertheless, the New England district reports that at present prices the spread between a pound of cotton goods and a pound of raw cotton is only 22 1/2 cents, whereas a year ago it was approximately a dollar.

Textile mills in the South are reported to be running approximately full time in the Richmond bank's district. Wage cuts in the Southern mills have been more drastic than in other sections and it is said that many people in the trade claim that the reductions have been in keeping with the lowered prices for raw material. In the Atlanta district a number of reporting mills show an increase in yardage of 4.5 per cent. over February, although there was a decrease of 22.1 per cent. as compared with a year ago. The increase in orders on hand during the month was negligible, but much greater than a year ago when new orders were not acceptable because of the press of work. It is said that few mills are as yet working at full day capacity, although a number indicate orders on hand which will require full running time for several weeks for their completion. The increase in yarn output, by pounds, of reporting yarn mills was 8 per cent. during the month, although totals were 26.2 per cent. below that month a years ago. There has been a recent increase in export sales of cotton goods amounting to between 10,000 and 12,000 bales and consisting principally of drills and sheetings to China, India and Levant.

The principle of the electric motor was discovered in 1824 by Peter Barlow, an Englishman.

**FRENCH AND BRITISH  
COME TO AGREEMENT**

(Continued From Page One)

could not agree to a blockade which would bring the allies into controversy with the United States. M. Briand agreed to this point of view. He added that the course of the United States had been absolutely correct.

Uneasiness still exists among the French delegates over the possibility that Washington may endeavor to meditate; they declare this would not be acceptable to them. The cause of this impression is not clear, but some of the delegates have made it understood that it does not originate with the French ambassador, M. Jusserand.

M. Briand and the whole French delegation are sitting late tonight with General Nollet, president of the interallied commission, who was summoned by the French premier from Berlin to give his views. Notwithstanding the agreement the French are not entirely satisfied with today's developments and the idea of an ultimatum, which is believed to have been largely due to the influence of the British ambassador to Germany, Lord D'Abernon. M. Briand was averse to delay, and it is reported that he had under taken that, falling Germany's compliance, some move should be made today.

Indeed the French premier had declared before the meeting of the council: "I am decided upon the commencement of new penalties from today. I mean by this that the necessary order for mobilization will be given this evening. Such is my position. I can not act otherwise."

**BOND MONEY COMING**

The Highway Bonds were received by the Chairman of the Highway Commission last Friday, and were duly signed and returned to the purchasers the next day. Attached to the bonds was a draft for the full amount of the bonds, less the deposit with the commission to guarantee the taking of the bonds when the bid was accepted.

The bonds are subject to a final opinion by the attorneys for the purchasers, but it is expected that this is a matter of form only and that the bonds will be accepted and the purchase money paid by the end of the present week. If so the money should be received by the Highway Commission by the beginning of next week.

As soon as the money is in hand, it is presumed that the Commission will begin the work on the roads. Just where work will commence has not yet been announced, but it will be either on the Due West road or on the road to Antreville. While the work is in progress the money will be kept in the banks of the county, the whole amount being distributed amongst the banks in proportion to their capital and surplus.

**HARVARD INSTRUCTOR  
ARRESTED ON CHARGE  
MAKING WHISKEY**

Boston, April 30.—Louis Agassiz Shaw, assistant instructor in applied physiology at the Harvard Medical school, was arrested by federal authorities today charged with manufacturing liquor at his home, number 8 Marlboro street, in the back Bay section of the city.

Prohibition agents who raided the house said they found an elaborate still in operation on the top floor in a room adjoining the ball room. They seized the apparatus together with five gallons of moonshine whiskey described as an excellent product. Fifty gallons of mash was destroyed by the officers. At the request of Shaw, they said, the still was carried out through a rear door and taken away in a taxicab.

A summons was served on Shaw for appearance at the federal building where a warrant was served on him and he was arraigned. He pleaded not guilty and was released on \$500 cash bail, a hearing being set for May 6. The agents described the still as one of the finest that had come to their attention. It consisted they said, of a copper boiler with a ten foot coil and galvanized condenser. They were told, they said, that the liquor was frequently served at dances and other social affairs. Shaw has maintained a private research laboratory at his Marlboro street address.

**45 Came Friday**

**Summer Dresses**

Organdies, Voiles, Dotted Swiss, Georgette, Crepe de Chine and Gingham.

**SIZES 16 to 44**

These are not Spring dresses, but new Summer styles—and there are no two alike.

The colors are beautiful and varied; also some exceptionally pretty combinations in the lot...

We invite you to look them over...

**WILLIAMS NOT READY**

Atlanta, Ga., April 30.—Request for a postponement will be made tomorrow when the motion of John S. Williams, convicted of the murder of 11 negroes found dead on or near his Jasper county plantation is called for argument before Judge John B. Hutchison in superior court at Decatur.

This was announced here today by Greene B. Johnson, chief counsel for Williams, who was sentenced to life imprisonment recently after a trial at Covington, Ga. Mr. Johnson said the record of testimony in the case had not been completed and he thought it would take at least a week for completion and for him to study it.
