**REAP THE BENEFITS**

Old Man Gloom and his brother, Pessimism, will receive the licking of their lives on **SATURDAY, JULY 9th**, when the merchants of Abbeville get busy with the long talked of price-slashing knife. This knife is to have the rust worn off it for sure, and when you folks come to the stores below you are not going to be able to recognize the things a dollar will buy, so much greater will be its purchasing power.

This is to be a really cooperative effort, one that can only be a success if it has the united determination of the people who are most interested in it—the merchant and his customer. The merchant is offering some real bargains, and on these you, Mr. Buyer, will find some opportunities to save money, and while you are in the store you will probably see other things you need and want.

Below are the firms that are offering Bargains, of which you can read more specifically in later editions of this paper:
