BULL SNAKE TO HELP Will Eat All Gophers on Acre Says Expert.

Manhattan, Kan., Aug. 14 .--- A full crown bull snake in a Kansas alfalfa field is worth at least \$2.50 a month to the farmer on whose land ternational language of the financial sew, knit, darn and cook, it women he lives. This is the statistical deduction

of experts at the Kansas state agricultural college here. They arrive at it in this way:

There are on the average six gophers to the acre and they damage the alfalfa crop to the extent of about \$2.50 a month. A bull snake of this kind can keep an acre free. The calculation are those of F. L. Hisaw, mammalogist at the college, and J. B. Rogers of its zoology department.

"A full grown bull snake," says Mr. Hisaw, "is capable of eating all

the gophers on an acre of alfalfa in one month and during the six months of the year is able to clear six acres. DOLLAR IS URGED AS INTERNATIONAL COIN Washington, Aug. 13 .- Senator

Gilbert M. Hitchcock, Nebraska, today sought support for his plan to make the American dollar the in-ino reason why a man can't learn to world. His plan is to make the dol-

lar an international coin. "Money talks," declared Senator Hitchcock, "and I want to see the American dollar made the financial language of the world."

To do this Mr. Hitchcock has introduced a bill in the senate to create a bank of nations in New York which would issue an international dollar.

The creator of the international dollar idea pushed aside a series of charts showing the much-mussed-up world financial condition to give an interview.

He gazed at the ceiling for a moment and whistled a few bars of "Reuben, Reuben, I've Been Thinkin'."

"Music." he exclaimed, as the ironing and doing the family mendthought struck him. "There you are. ing right along with his wife. man. The words are lost to us, but we all understand the music. So it is Mrs. Johnston suggests, "and if they with world finance.
