

**GERMAN HOUSEWIVES
BARRED AS LABOR UNION**

**Prussian Parliament Holds They
Must Be Designated as Employ-
ers or Employees.**

Berlin, Sept. 17.—The National Association of German Housewives has asked the Prussian Parliament to recognize it formally as a labor union, but the request has been denied because the organization's constitution failed to specify whether the housewives were employers or employees.

The rejection disclosed differences of opinion among the members of the various branches, some asserting that women who did their own housework were employees, while housewives having maids or other hired servants were employers.

Objection, particularly by peasant members, to classifying married women whose household duties were performed by servants as "professional wives," brought about an attempt to evade the issue by the use of the words "professional calling," instead of laborers, in the constitution.

The Parliamentary spokesman stated that "an organization must justify under the statutes by its activities the right to be designated as composed of professionals."

In relation to the association's activities, which extend virtually to all towns and hamlets, with thousands of members, there is much discussion as to whether an attempt will be made to enforce full demands by strikes, lockouts or arbitration. It is even suggested that the ultra-radicals supersede the present conservative officials. There is a probability that husbands will be asked to put their wives on a salary and recognize woman's equality by sharing in the work of cooking, washing and caring for the children.

**THOUSANDS ARE EAGER
TO MAKE OWN WINE**

**Clergymen Among Those Seeking
Permits Under Internal Rev-
enue Bureau Ruling**

Hartford, Conn., Sept. 17.—Among the five thousand or more letters seeking information as to permits for the making of "home-made wines" or "non-intoxicating fruit juices" were those of at least a dozen clergymen, the Internal Revenue Bureau here announced today.

The office force has been swamped with correspondence since Robert O. Maton made the announcement that heads of families may make 200 gallons of wine yearly for home use provided a permit is obtained.

Washington, Sept. 17.—Internal Revenue Bureau officials frankly acknowledged today that heads of families, on filing of notification with local revenue collectors, may manufacture 200 gallons of wine yearly for home use.

Treasury regulations making effective such a provision of the law were issued by Internal Revenue Commissioner Roper with the approval of Secretary McAdoo in October, 1918, and because of the general lack of public knowledge respecting the provision, Congress never has enacted legislation nullifying it, officials said.

The law applies specifically to exemption from payment of tax, officials pointed out, but in its application makes manufacture of wine at home possible, provided the manufacture is by the head of a family and the wine produced be not sold or otherwise removed from the place of manufacture.

**ORGANIZATION COMMITTEE
MEETS TOMORROW**

**Cotton Growers Cooperative Association
Hass Called Meeting
In Columbia**

Columbia, Sept. 18.—Harry G. Kaminer, president of the South Carolina Cotton Growers' Cooperative Association, has called a meeting of the organization committee for next Tuesday at noon in the offices of the association, Liberty National Bank Building, this city. Important matters affecting the campaign now being waged in this state will be discussed and a full attendance of the committee is expected.

J. S. Stark is a member of the organization committee from Abbeville. Officials of the South Carolina association said yesterday that the campaign in this state was being watched with great interest in other states. Yesterday a letter came to headquarters from Dr. Clarence Poe of Raleigh, N. C., asking for information as to the progress being made in securing signatures to the contract. Dr. Poe was one of the leaders in the campaign in North Carolina in which state the minimum number of bales necessary to perfect the organization has already been secured.

THREE MEN INDICTED

**Thought To Be Implicated in En-
gineers' Death.**

Macon, Sept. 18.—Warrants were sent here Saturday from Ben Hill county for the arrest of Harvey Booker, Perry Booker, Jr., and Tom Hendricks, three of the six men indicted Friday in that county on charges of murder in connection with the shooting of Atlanta, Birmingham and Atlantic engineer, W. T. Reed. The three men were said to be in the city.

Reports from Fitzgerald said all six men had been arrested and were in custody of Sheriff Lormany. The sheriff, over the telephone, said he had only three men in jail in connection with the case—G. V. Myrick, O. C. Fairfield, and J. W. Hornsby.

**MAY DESTROY \$100,000
OF BONDED LIQUORS**

Chattanooga, Tenn., Sept. 18.—Judge Tarver Saturday dissolved the temporary injunction restraining Dade county, Georgia, officials from destroying the carload of whiskey seized there several months ago en route to California from New York. Unless the supreme court of Georgia interferences \$100,000 worth of bottled-in-bond liquor will be poured out. The shipment was accompanied by a government permit, but Judge Tarver held that this did not prevent a violation of the state laws.

**SINN FEIN REPLY
LEAVES DOOR OPEN**

**PRESIDENT DE VALERA TELLS
DAVID LLOYD GEORGE IRISH
REPUBLIC WANTS PEACE
CONFERENCE BASED ONLY
ON "TRUTH AND REALITY."**

Dublin, Sept. 18.—Sinn Fein wants an Irish peace conference based on "truth and reality," President De Valera telegraphed Premier Lloyd George Saturday.

De Valera's message was short, but it was hailed here as keeping open the door to a conference between Irish and British representatives.

De Valera's telegram was a reply to the one sent by Lloyd George from Gairloch, Scotland, in which the British premier said that a conference would be impossible if Irish emissaries insisted on attending as representatives of a "sovereign" nation. Lloyd George said he would not abandon this principle.

De Valera in his reply said: "We have not asked you to abandon any principle. Our one object is a conference on the basis of truth and reality, to secure the results the two islands ardently desire."

De Valera's message was in reply to one from Lloyd George sent earlier in the day in which the premier reiterated that the Irish delegates could not be received at a conference as representative of an independent state, on the ground that allegiance to the king was the basic fabric which holds the British empire together.

SUNDAY SCHOOL EXHIBIT

**Plan to Reach People Through Coun-
ty and State Fairs.**

York, Sept. 17.—The great big job of the South Carolina Sunday School Association is to interest people in Sunday School work—to bring the attention of the people to the importance of the Sunday School in every way possible. Hundreds and thousands may be reached through the state fair and the county fairs that are to be held this fall and for that reason an exhibit showing Sunday school conditions and progress throughout the state will be given by the South Carolina Sunday School association at a number of fairs including the state fair in Columbia this fall.

"This exhibit," says Leon C. Palmer of Spartanburg, association general superintendent, "will include samples of the best work done by each department in the Sunday School. Sunday schools of all denominations are invited to participate in the exhibit. Samples of new methods for Sunday school work, together with the best modern supplies will be exhibited."

South Carolina is said to be one of the first states in the country to have exhibits at state and county fairs showing Sunday school progress. Charts will be displayed, showing the condition of Sunday school work in the various counties and the relative efficiency of the Sunday Schools. An expert Sunday school worker will be in charge of the exhibit prepared to explain any feature to those interested. Literature showing improved Sunday school methods will be distributed.

MARKET INFORMATION

**Potato and Peanut Growers May
Get Bureau Report.**

Clemson College, Sept. 18 As the season approaches for marketing sweet potatoes and peanuts, many growers of these crops will be interested in the market reports issued by the Bureau of Markets of the U. S. Department of Agriculture and announcement is made by F. L. Harkey, agent in marketing, that these reports are available to those interested who will send in their names for entry on the mailing list of the bureau for receipt of the reports as issued.

The peanut market reports will be issued weekly and will give market information on peanuts including data on imports and exports.

Names and addresses for either of these reports should be sent to F. L. Harkey, Agent in Marketing, Clemson College, S. C.

GERMANY RATIFIES

**Peace Treaty With United States
Proves Satisfactory.**

Berlin, Sept. 18.—The treaty of peace between Germany and the United States has been formally ratified by the German reichsrath, or upper chamber.

The reichsrath, or imperial council, which has just ratified the peace treaty with the United States, was organized under the new constitution for the representation of the competent states. It consists of sixty-three members.

The reichstag, the legislature of the empire, superseded the temporary national assembly.

EXHIBIT BY SOUTHERN

GETS NEW INDUSTRIES

New York, Sept. 18.—Prospects are bright for the location of several important industries in the South as the result of the Southern Railway System's exhibit of mineral and chemical resources of the territory it serves at the Seventh National Exposition of Chemical Industries in New York which came to a close Saturday, September 17.

Wide attention was attracted to the remarkable opportunities for industrial development in the South by the Southern's exhibit which was the only one made by an American Railway. The exposition proved a great success, the total attendance having been over 100,000 made up almost entirely of chemical experts and manufacturers interested in the development of new industries and looking for favorable locations.

Throughout the week the Southern's booth was thronged by visitors, many of whom were amazed at the showing of Southern resources, particularly as to the great variety of minerals needed for the new chemical industries which are now being developed in America.
