GOSSETT TO GREENVILLE

Gossett To Appear Before Justice Cothran Tomorrow

Columbia Sept. 20.—Kenneth Gossett left the penitentiary today for first outside appearance since April, 1920, when he was brought here to be held pending his plea for a new trial on the charge of criminal assault. Gossett is to be carried to Greenville for appearance there before Justice Cothran of the supreme court at 10 o'clock Wednesday morning to see whether or not he is to be granted bail pending his second trial.

Gossett was convicted in Abbeville in April, 1920, of criminal assault and sentenced to 40 years in the penitentiary. The supreme court has granted him a new trial and last week Justice Cothran ordered Gossett brought before him this Wednesday to determine whether bail should be granted or not. Capt. R. M. Day, head of the penitentiary guards will in all probability carry the prisoner to the Mountain City to appear before Justice Cothran.

FIRE DESTROYS BARN

Orangeburg, Sept. 20.—Edward S. Bruner, a large lumber dealer of this city, had the misfortune to lose his barn and contents, including about six auto trucks. His loss will total nearly \$25,000 with small insurance. The fire occurred about 10 o'clock last night. Mr. Bruner lives beyond the city limits and was without fire protection. Two bales of cotton and much produce was also lost in the fire.

CAMP JACKSON TROOPERS

TO REST IN ATLANTA

Atlanta, Sept. 20.—The Sixth U. S. infantry, here during the day on its 888 mile hike from Camp Jackson, S. C., to St. Louis, Mo., will camp for two days at Lakewood Park, a suburb, to give the men a needed rest, according to Lieut. H. W. Johnson, who came ahead of the troops to make arrangements. The hike is said to be the longest ever taken by an American force in peace time. It is a part of the general transfer necessitated by cutting down the personnel to 150,000. Moving in heavy marching order as though going into battle the 900 men and 23 officers make a column a half mile long. The regiment is in command of Col. Hunter B. Nelson and contains many veterans who followed into Mexico.

ARBUCKLE'S WIFE

COMES TO ASSIST

(Continued from page one)

Expect Startling Developments
San Francisco, Sept. 20.—Federal indictments under the prohibition laws in connection with the party staged at the hotel St. Francis here by Roscoe C. (Fatty) Arbuckle will not be asked tonight as intended, Robt. P. McCormack, special assistant to the United States attorney general announced today. Mr. McCormack said he had decided upon delay because he expected startling new developments.

McCormack is conducting an exhaustive investigation into the source of the liquor supply alleged to have been consumed at the Arbuckle party, the outcome of which has resulted in charges against Arbuckle for the death of Miss Virginia Rappe, film actress.

Belief that his investigations will unearth a system of liquor smuggling from Mexico to Los Angeles, who may be able to divulge information concerning the liquor is being continued, he said.

Mrs. Minta Durfee, Arbuckle's wife, was expected here today to aid in the defense of her husband. Charles Brennan, chief counsel for the accused actor, and Milton Cohen, Arbuckle's attorney met Mrs. Arbuckle at Sacramento last night and held a lengthy conference with her. She refused to see newspaper men while at Sacramento and remained closeted in her state room.

Bright Leaf Tobacco Markets Open.

Raleigh, N. C., Sept. 20.—Bright leaf tobacco markets in the central North Carolina belt, including those at Raleigh, Durham, Henderson and other points, opened today for the 1921-22 season. Tobacco will be sold in Raleigh for the first time in 15 years, two large warehouses having been built here during the past few months.

COTTON MEETING
IN BIRMINGHAM

ASSOCIATION DIRECTORS MAY HEAR HARDING DELIVER ADDRESS—SESSION COMES OCTOBER 26-29, FOR ANNUAL MEETING.

Columbia, Sept. 20.—J. Skottowe Wannamaker, president of the American Cotton Association, announced today that the directors of that organization had accepted an invitation extended it by Birmingham, Ala. to hold its annual meeting in that city October 26-29. President Warren G. Harding has been asked to deliver an address on the opening day of the convention and Mr. Wannamaker said that many men of national and international prominence would be on the program.

The following statement was given out by Mr. Wannamaker regarding the meeting:

"The annual convention of the American Cotton Association will be held in Birmingham, Ala., October 26-29. The annual convention of the organization, which has been held in various cities since 1914, has been recognized as conventions of national and international importance, the speakers being men of prominence and the matters handled at the convention being matters that affect virtually the agricultural and commercial interests of the nation and the world.

"Among the many important matters to be handled at the convention, none is attracting more attention than the move for putting into effect the plan adopted by a referendum vote of the members of the association for planting only one-fourth of the average cultivated acreage for the next four consecutive years in cotton, planting the balance of the lands in food and feed crops.

"The boll weevil and methods for combating same, will be discussed at the convention. The discovery of some method for counteracting the effects of the weevil is recognized as a world necessity, not only to the cotton industry of the world but to the cotton consuming world. The weevil now covers 80 per cent of the cotton belt; its ravages during the past year were the most destructive ever known and there is no scientific method for combating them.

"The approaching convention promises to be the most largely attended in the history of the association. President Warren G. Harding has been asked, and is expected to accept the invitation, to deliver an address on the opening day.

"Each of the governors of the fourteen cotton growing states have been urged by the American Cotton Association to issue a special proclamation calling upon the farmers to destroy their cotton stalks either by plowing under or burning, with all possible speed, it being pointed out that it is the opinion of the best experts that by adopting this course before the weevil hibernates his ravages next year may be reduced. The secretary of agriculture of the United States has also been requested to appeal to all of the extension forces and agricultural organizations throughout the south and use every influence possible to have the cotton stalks destroyed with all possible speed it being pointed out that on account of the extreme short production this year that large proportions of the cotton stalks can be destroyed now and practically all of them by the first of October."

FIND MAMMOTH STILL
IN GREENWOOD COUNTY

Greenwood, Sept. 19.—What is believed to be the largest outfit for the manufacture of liquor ever seized in this section was captured by officers late Saturday night in the lower part of this county. The equipment consisted of a 600 gallon steam boiler made from a gasoline tank; a series of wooden barrels, around which live steam circulated, used as the still proper; copper condensers, and fermenters of thousands of gallons capacity. One thousand gallons of brandy mash, made from dried peaches, were poured out and thirteen sacks of meal brought away.

Jim Campbell, negro, the only person found at the still, which was running in full blast, was arrested on the charge of operating the outfit.
