## PLANS ADOPTED BETTER OUTLOOK TO FIGHT WEEVI FOR BUSINESS

THREE-FOURTHS OF ALL OPEN

LANDS TO BE DEVOTED TO

CROPS AND PASTURE-ONE-

FOURTH TO BE PLANTED IN

Columbia, Sept. 30.-R. C.

Hamer, president of the South

Carolina Division of the American

Cotton Association, said yesterday

he had read with a great deal of in-

terest of the action of the commit-

tee which met in Columbia to con-

sider an agricultural program

which would meet the conditions

caused by the invasion of the boll

weevil and said that the cotton as-

sociation would be delighted to have

"The American Cotton Associa-

tion," said Mr. Hamer, "has for

some time been giving most earnest

consideration to the conditions con-

fronting the cotton belt because of

the weevil and how it could best be

to be the most suitable and most

feasible were submitted to a re-

ferendum of the members of the

farmer was asked to vote for the

plan which he thought the most

fectively be carried out. Great in-

terest was taken in the referendum

"The plan adopted by an over-

"First, Three fourths of all open

lands to be devoted to food and feed

crops and to pasturage for live

"Second, One-fourth of the cul-

tivated land to be playted in cotton,

well fertilized and worked so as to

produce the best yield under the

most economic conditions of labor

"Third, Encourage the rapid orga-

nization state wide cooperative mar-

keting association for handling cot-

"Fourth," Adopt economic re-

forms and efficiency in the future

baling, warehousing, financing and

CONDITIONS IMPROVE GREAT-LY IN SEPTEMBER-FEDERAL **RESERVE TELLS OF INVESTI-**GATIONS MADE IN ALMOST EVERY SECTION OF COUNTRY

Washington, Oct 1.-American Jusiness conditions improved broadlu during September, in the view of the federal reserve board, which made public tonight a distinctly optimistic review of conditions for the month. Important changes for the better were seen in the credit situation, "distinct encouragement" in basic business lines and many strong liquidation indicating increased ability of business to settle its accounts.

The "wholesome improvement," which the board's correspondents found in almost every section appeared to have been based largely on the advance in cotton prices. As a result of the higher cotton values figuidation has taken place and wholesale and retail trade has been buoyed up, the report said.

Marked improvemnt in the credit situation was cited by the review as the noteworthy feature of business during the month, the board declaring that "taken all in all, from a fimancial standpoint the month has been in the main a period of distinct encouragement." ,

The board noted only a slight increase in the number of unemployed This was likely to be offset by a growth in demand for labor on thepart of manufacturing industries.

"Railroads have begun to increase the number of their employees to some extent, especially in the far West," the review continued, "and the fact that building contracts have reached a record figure for this year promises partial employment in that service during the autumn.

There has been a steady and reasonably heavy movement of agricul\_ tural products to distributing and export centers, the board reported. Prices of most of these have advanced to an extent, although a drop in live stock quotations was seen attributed to local marketing conditions.

Textile manufacturing has been well sustained during the month, the board's agents said, adding that the boot and shoe industry had been "notably active."

course, committed to this plan and Some hesitancy still was noted on will make every effort within its

ACCIDENTS COSTING BILLION

That's Estimate of Safety Council Secretary for Twelve Months.

Washington, Sept. 29 .- More than one billion dollars a year is the toll exacted by industrial accidents in the United States!

That's the estimate of Sidney J. Williams, secretary of the National Safety Council.

Williams bases his findings on a thorough investigation of industrial accidents in 1919.

There were 8,000,000 industrial accidents in that year.

The fatal accidents, Williams estimates, resulted in the loss of 6,000 working days each, making a total of 138,000,000 working days.

Temporary disabilities are estimated to have caused the loss of 50,000,-000 davs.

Permanent disabilities caused loss f 115,000,000 working days.

That makes a total of 296,000,000 working days-the total time toll of 1919 industrial accidents.

Williams estimates the average daily wage of the workmen injured at \$4. That gives those 296,000,000 lost days a wage value of \$1,184,000-000.

met. Two plans which were thought But all that isn't lost. The 23,000 men who lost their lives didn't have to pay for food and lodgings. That was "saved" That represents \$331,-American Cotton Association. Every 000,000.

Subtracting that leaves a total of \$853,000,000 wage loss. feasible and which could most ef-

Besides that, accidents led to expense in doctor and hospital bills. and approximately 50,000 votes These amounted to \$161,000,000. That gives a total of \$1,014,000,-

000 as the cost of 1919 industrial accidents.

## Expensive Business.

A red-headed boy applied for a job in a butchershop. "How much will you give me?"

"Three dollars a week; but what can you do to make yourself useful around a butcher-shop?" "Anything." /

"Well, be specific. Can you dress chicken?"

"Not on three dollars a week," said the boy .-- O. E. R. Bulletin.

It took **YEARS**and **YEARS** to develop CAMEL QUALITY

We worked on Camels for years before we put them on the market. Years of testing-blending-experimenting with the world's choicest tobaccos.

And now, EVERY DAY, all our skill, manufacturing experience and lifelong knowledge of fine tobaccos are concentrated on making Camel the best cigarette that can be produced.

There's nothing else like Camel QUALITY. And there's nothing else like Camels wonderful smoothness, fine tobacco flavor and FREEDOM FROM CIGA-RETTY AFTERTASTE.

That's why Camel popularity is growing faster than

A better cigarefte cannot be made.

We put the utmost quality into THIS ONE BRAND.

the part of the dstributors to place power to put it across in South large orders but offset this, large Carolina. We are already pushing seasonal increases in certain lines of wholesale trades were reported, coupled with orders for stock replacement. .

Improvement also was seen in the amount of cargo offered for shipment to foregn ports. The available tonnage was said to remain, however, greatly in excess of requirements, with the result that ocean freight rates continued substantially unchanged.

Washington, Oct. 1.-Business conditions in South America were marked during September by steps towards a recovery which were regarded as having the earmarks of the department of commerce made public tonght.

As an important feature in the improvemnt agents of the department cited practically complete withdrawal of the large amount of general merchandise which had accumulated in customs houses Slight improvement in exchange conditions also had a bearing on the situation. Although labor urest was reported as a disturbing factor in some localities, the department summary viewed the situation so hopefully as to suggest that North American export houses "could make valuable use of their time by strengthening their export organizations."

The statement adds that the exporters should be ready to handle "efficiently the business which they may properly expect" from South America. 的影响

German competition was said to Se at work in Argentina, forcing lower prices. Fewer , salesmen from in evidence and little foreign investment capital entering the country.

with all of the vigor at our command the campaign for the formation of the South Carolina Cotton Growers' Cooperative Association. We plan to begin shortly a food and foodstuffs campaign and we shall make every effort within our power to have the farmers plant only one-fourth of their cultivated lands in cotton next spring in order that the cotton may be intensively cultivated and the ravages of the boll weevil reduced to a minimum.

"We propose to devote most of the time of the annual meeting of the South Carolina Cotton Association in December to a discussion of the boll weevil and it is our hope to permanency, according to advices to have the foremost experts of the country with us at that time to tell us how cotton can be best grown under weevil conditions.

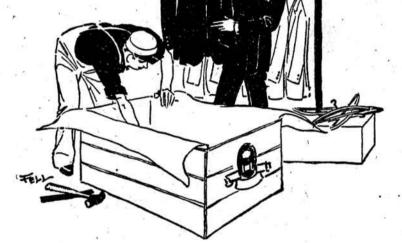

> "The American Cotton Association at its annual meeting in Birm\_ ingham October 26-29 will discuss plans for putting the program into effect over the belt generally.

"We ask the united support of the people of the state in our campaign. Surely this is a time when the people of the state must stand together and meet the menace which confronts us."

COLUMBIA'S NEW POSTOFFICE OPENED

Columbia, Oct. 1.-The Columbia postoffice was thrown open to the public this morning at the usual opening hour and presented a very busy scene during the entire morning. The big lebby, which is a delight to the eye, was well filled with patrons and a long line waws form-North America also were said to be ed to secure boxes for the coming quarter.

Greater stocks of exportable com- and wool to Germany were increasmodities were reported on hand than ing. Lower prices for all raw pro. a year ago while exports of hides ducin, however, were predicted.

Sust unpacked! New Fall suits from those famous makers-the Kirschbaum shops. They'll fit. They'll wear. They'll give you a full money's worth. That's our guarantee!
