AMERICAN AWARDED TEN GUINEA PRIZE

For Best Suggestion How To Make London the Magnet of the World.

London, Mar. 2.—An American has been awarded the ten guinea prize offered by the Pall Mall Gazette for the best suggestions on how to make London "the magnet of the world." Miss Alice Young, of Mishawaka, Indiana, the winner, based her suggestions on what is done in America to make towns attractive. She advocated "Brighter, cleaner stations, with good warm waiting rooms and good restaurants. First impressions count. "Electrify all railways within twenty miles of London, eliminating the present smoke and noise, allowing stations to be kept clean.

"Central heating on American principle, or gas fires, or smokeless fuel or coke. Cut out unsightly chimneys and present smoke.

"More attractive window dressing, with good lighting after closing hours. Introduce district competition by offering prizes for smartest business section.

"Hotels allowed popular entertainment and dancing at meals, at popular prices. Light wines to be sold at all hours.

"Eliminate refuse on streets in all parts of city. Introduce waste basket on bottom of lamp posts. Knock down all walls hiding gardens or green plots, and plant trees in the wide streets wherever possible.

"Lots of good music and entertainments of all kinds.

"Clean, light, modern offices on the American plan."

GOVERNOR SIGNS LICENSE FEE BILL

Columbia, Mar. 1.—Governor Cooper last night signed the corporation license tax bill, this being the third new revenue measure to get the approval of the chief executive this year. The bill was ratified yesterday at 12:30 o'clock and turned over to the governor last night. He immediately signed it.

Under the provisions of the bill the license fees are increased from one-half of a mill to one mill on every dollar of the capital stock of corporations. This will increase the revenue from \$120,000 to \$240,000 it is estimated. The act took effect with the approval of the governor.

The governor also signed the new dental bill prescribing and regulating the practice of dentistry in South Carolina.

READY TO START WORK

Washington, Feb. 28.—Clifford M. Holland, chief engineer of the new Hudson river vehicular tunnel, today notified Colonel Arthur Woods of the President's Conference on Unemployment, that the contract for the construction of the subaqueous portion of the great roadway which is to connect the states of New York and New Jersey, beneath the Hudson river at New York City, will be awarded next week by the two state commissions.

When in full operation, this great tunnel, to be the longest of its kind in the world, will give immediate work to thousands of men for several years to come and indirectly to more, all over the country.

The project calls for the largest single contract ever undertaken by either of the states, or by the City of New York. The lowest bid received was \$19,300,000. Mr. Holland writes to Washington:

"As this work will require a great amount of materials, including 105,000 tons of finished castings, many thousands of barrels of cement and construction plant of all kinds, it can be readily seen that with the placing of this contract a great stimulus will be given to industry."

MILLIONAIRE WEDS WASHERWOMAN'S DAUGHTER

Sensation in the Four Hundred As Dick Prentiss Elopes With Shamrock O'Day

Nothing in years has so astounded New York society as the marriage last Saturday of Richard Prentiss, heir to the Prentiss millions, to the daughter of a washerwoman—Shamrock O'Day. The sudden wedding is all the more surprising in view of the fact that only a few days ago Mr. Prentiss's engagement to Iris van Suydam was formally announced.

"It is simply a case of real love breaking class barriers," said Mr. Prentiss when questioned this morning. "Shamrock is the girl of my dreams. What matter if she lacks superficial culture, that is not half so important as genuine womanly worth. I am sure we will be very happy."

Mr. Prentiss's mother and sister could not be seen this morning, and it is reported they are greatly broken up over the affair.

The marriage, it is said, is the culmination of a secret romance which began some months ago, when the former Miss O'Day met the young millionaire as she was delivering a basket of laundry to his home. Since that time, although he was engaged to Miss van Suydam, Mr. Prentiss has been seeing the young woman continually.

Both Mr. Prentiss and his bride are under engagement to appear at the Opera House next Thursday and Friday when Cecil B. DeMille's latest Paramount picture production of "Saturday Night" will be the bill. It is hinted in exclusive quarters that they take part in the production, but in what capacity will not be revealed until the picture is shown. Manager Verchot refused to discuss the matter when questioned regarding the matter. He admitted, however, that all the facts will be made public before next Saturday night.

Few Bankruptcies in Germany
Berlin, Mar. 2.—There is a huge decrease in the number of bankruptcies in Germany. For the whole of 1921 the number was only 3,100 compared with 12,700 in the prosperous year of 1913.

FOOD CANNING IS LEADING INDUSTRY

From Small Beginning It Has Grown to More Than A Billion Dollars.

Washington, March 1.—From a small beginning the canning of food has grown into a billion dollar industry. As figures go these days even the production of a billion dollars worth of food a year might fail to impress, but when this figure is translated into five to six billion cans of food it is almost more than the human mind can grasp.

An idea of the magnitude of the industry may be gained from the latest U. S. census report (1919) on canned foods. Exclusive of molasses and syrup the figures show a total of 3,936,069,646 cans valued at \$837,926,749.

Therefore taking into account potted and canned meats, other miscellaneous meat products, and molasses and syrup, the grand total above tabulated would approximate close to 5,000,000,000 cans.

Not only does the United States now lead the world in the production of canned foods but this food is the best of any country. Major J. H. Adams, U. S. A., of Washington, chief of subsistence, quartermaster general's office, recently said:

"American canned food is the best in the world, with a few minor exceptions. The French are known for a certain high grade pea and the Norwegians have attracted attention with baby carrots. I have no doubt, however, where special claims are made for foreign goods, our own people feel confident they are meeting the same stand of excellence.

"We are about down to normal with our army food supplies now that we have our shelves cleaned up and the buying will naturally increase. I venture to say our purchases will be heavier than during the last two years. I have not the figures with me for fruits, meats and vegetables but you can get an idea about what our army consumes along other lines when I say that our requirements for the coming fiscal year will equal something like:

- 960,000 cans assorted peas, 144,000 cans blackberries, 120,000 jars assorted jam, 86,000 cans assorted marmalade, 149,000 jars assorted preserves, 108,000 jars assorted preserves, 216,000 cans (1 gallon) syrup, 86,000 cans sardines, 84,000 bottles (1 quart) olives, 72,000 cans (1 quart) olives.

All of which gives an idea of the immense amount of canned food consumed in the army alone. According to government statistics canned products in United States amounted in 1919 to over \$800,000,000 and at least from \$200,000,000 to \$250,000,000 was paid that year to the farmer by the canner for raw produce. Considering the wheat crop of 1921 which was worth about \$1,000,000,000, it is readily seen that the canning crop of 1919 represented about one-fourth of the value of the 1921 wheat crop to the farmer.

ROYAL WEDDING CROWDED HARDING OUT OF LONDON

London, Mar. 2.—President Harding's proposals for an American merchant marine ship subsidy were crowded out of several of the London newspapers by the accounts of Princess Mary's wedding to which every journal devotes many pages.

Only the biggest newspaper print more than a brief summary of the President's statement to Congress and the Daily Chronicle, the only one to comment, says that America's possession of a huge fleet of merchant shipping is bound to evoke some such proposals and that nobody need be surprised.

"Nevertheless," it adds, "the position created for British ship owners—themselves very hard hit by the collapse of the world's trade—is a serious one. * * *

"For the moment we can only take note of these portents, but not without expressing profound regret that so strong a lead should be given in such quarters to what is from a world standpoint a most reactionary trade policy."
