BANK OF ENGLAND REDUCES ITS RATE

London, April 13.—The Bank of England today reduced its discount rate to four per cent. The last previous reduction was on February 16, last, when the rate was dropped from 5 to 4 1-2 per cent.

The reduction coming on the eve of the Easter holidays was an entire surprise to the money market and financial interests. On Lombard street had begun this morning without the usual "subject to lower bank rates," which is usually posted when there is a possibility of a reduction during the day and the belief is expressed that the action was prompted by the treasury which had been ruling the money market for some time past.

The reduction was welcome as another step in the restoration of more normal conditions and the loosening of money for trade purpose.

MISS DEVLIN SELECTED

Miss Ruby Hill Devlin of Verdery has been selected by the Palmafesta committee in Columbia to represent this county in the Palmafesta Week. Miss Devlin was not in the contest this year though she was voted queen last year from this county. The two contestants in this county have reported that they were unable to go to Columbia and the contest managers have taken the matter up with the Columbia committee reporting that only nominees were left and all of these could not be reached. In this situation Chairman Eldridge asked if it would not be possible to secure Miss Ruby Hill Devlin again as representative of the county. Miss Devlin has decided to accept the invitation made on behalf of the Columbia committee.—Index Journal.
