ENTIRE GARRISON IS KILLED BY EXPLOSION

Everything Within Radius of Ten Miles Destroyed.—Many Dead and Wounded.

Spozia, Sept. 28.—The entire naval garrison at Falconara fort, near here on the Gulf of Genoa, is believed to have been killed in an explosion, caused by lightning which destroyed everything within a radius of 10 miles. There are many hundreds of wounded.

Seventy bodies already have been recovered from the debris. Fifteen hundred tons of explosives were stored in the deep tunnels of the fort. The entire top of the hill on which it is located was completely blown away. The work of recovering additional dead is proceeding. No estimate has as yet been made of their number.

The wounded are being rushed to the hospitals here, all of which are already filled. Military forces have been assigned to the work of rescue. All fascisti of the province of Genoa have been mobilized by their chiefs to assist the soldiers.

The explosion occurred in a violent storm which damaged the crops and property of the inhabitants for large areas along the gulf. Half crazed with terror from fire and storm, the despairing population is being relieved through governmental care.

The towns of San Terrenzo and Pitelli are greatly damaged.

Genoa, Sept. 28.—An explosion caused by lightning today destroyed the Falconara fort near San Terrenzo on the gulf of Genoa and wrecked the town killing and wounding many persons. The wounded are being taken to hospitals in Spozia nearby. Apparently many sailors are among the victims.

Prof. Frank McKinney, the principal, was in the chair. The exercises were begun by singing America. The devotional was conducted by Rev. J. M. Dallas, followed by a solo by Miss Stevenson. Addresses were made by Rev. J. M. Dallas, and Mr. James Drake. Postmaster P. M. Davis repeated the board of trustees and gave a splendid talk on the aims and aspirations of the school. Mr. Davis and the other trustees have worked faithfully to make this one of the best schools in the county and before another year rolls by we expect that their labors will be rewarded. Prof. McKinney needs no introduction to the public, as he taught several years ago in our school and gave splendid satisfaction.
