

NEED THE Words of Advice. TUTT'S PILL'S CURE FOR HEADACHE. REQUIRE A CHANGE OF DIET. TUTT'S PILL'S NEVER GIVE OR NAUSE. THE DEMAND FOR TUTT'S PILL'S IS NOT CONFINED TO THIS COUNTRY, BUT EXTENDS TO ALL PARTS OF THE GLOBE.

DR. TUTT'S EXPECTORANT.

This unrivaled preparation has performed some of the most astonishing cures that are recorded in the annals of history. Patients suffering for years from the various affections of the Lungs, after trying different remedies, spending thousands of dollars in traveling and doctoring, have, by the use of a few bottles, entirely recovered their health.

"WON'T GO TO FLORIDA."

Dear Sir:—When in Aiken, last winter, I used your Expectorant for my cough and realized more benefit from it than anything I ever took. I am so well that I will not go to Florida next winter as I intended. Yours truly, J. P. O'CONNOR.

DR. TUTT'S Expectorant is a most valuable medicine for the cure of all the various affections of the Lungs, such as Croup, Whooping Cough, Sore Throat, Hoarseness, etc.

We can not speak too highly of Dr. Tuttle's Expectorant, and for the sake of suffering humanity hope it may become more generally known. Price 25 Cents.

THE LIKE WAS NEVER KNOWN BEFORE.—We read the Cincinnati Weekly Star, a fine eight page, forty-eight column paper, independent in politics and in every respect, published weekly for one year. It is the largest paper in the United States for the money.

WASHINGS. THE BEST OF THE SEASON. H. L. BROWN & CO., 230 Walnut St., Cincinnati, O.

A BIT OF BIOGRAPHY. From the Lobby to the Supreme Bench.—How Judge Bradley and Judge Strong Came Upon the Scene. [From the Cincinnati Enquirer.] WASHINGTON, February 12.—Who is Justice Bradley? Well, he was an ornament of the lobby. You have probably heard of the lobby? No! Is it possible? I thought every one had heard of this third estate of the Government, that, owing to the dirt accumulated about it, might well be called re-estate. It is the agency established by Congress to facilitate business between it and people appearing before it possessed of claims of all sorts.

While these two workers were hanging about the passages and committee rooms of Congress the Supreme Court, under Chief Justice, promulgated its celebrated decision in the legal tender case. This gravely affected the railroad interest so largely represented by Messrs Bradley and Strong. The companies hurried to Washington in a high state of alarm. In a few days the Arlington, Willard's, and Ebbett were thronged with bald-headed, round-bellied parties of the highest respectability in appearance—all were rogues disguised under stocks and clean shirts.

THE BLUE-LIGHT CURE.

An Interview With Gen. Pleasanton, Its Discoverer. A correspondent of the New York World says: At a recent call upon Gen. Pleasanton I found him a very corpulent and affable old gentleman, with snow-white hair and beard. He expressed himself happy to give me all the information in his power about the virtues of blue light. I asked if he had known of its influence upon animal and vegetable life for any time.

"Yes," he replied, "I've had blue panes in my nursery for more than ten years, and the action of the light upon the plants was really wonderful. Those vines or parts of vines exposed to the blue rays attained a development wonderfully greater than those influenced solely by the ordinary lights, and Mr. Buist, a distinguished florist, has been very successful in restoring to healthful vigor numerous plants, apparently dying, by the same plan."

"What is the principle, General?" "Why, the electro-magnetism developed by the passage of the sun's rays through plain, transparent glass associated with blue glass possesses wonderful curative powers."

"What is the method of appliance—say to a little girl with curvature of the spine? I know one so afflicted." "Well, if you want an exceedingly strong light, have a whole sash filled with blue panes and place it immediately in front of your ordinary sash. Then bare the little girl's back down to her hip, so as to have the spine exposed to the influence of the blue light. Then, when the sun is shining, sent her on a chair a little way from the window, so as not to be exposed to the draught coming in through the crevices of the window, and let her take a sun-bath of about half an hour or so. Do that for several days, and if the child desires, give her another bath in the afternoon. Give her no medicine, allow her to eat what agrees with her, and I am confident that the child will be greatly relieved—I hope entirely cured."

panes are sufficient. But the patient must move as the sun moves." "Is effect upon your injured back was astonishing?" "Very true. But it has effected much more astonishing cures. Only this morning I received a letter from Cairo, Illinois, from a lady who had been afflicted with a dreadful case of spinal meningitis. She had been suffering for four years, and was cured by the blue light process."

"Not at all, sir. If people were going to make money out of it, I'd charge them for a license. But its power must not be hampered. It is so essentially a cure by God's unlimited elements that I with all mankind may participate in the benefit of it. All I ask is that any one trying the process shall send me an account of its operation and the result. Whether good or evil, I desire to know the result in all cases."

"By their Works ye shall know Them." The Irishman who thought the druggist stingy because the emetic was so small, is only surpassed in his pugnacious droolery by those who persistently adhere to the use of those nauseating, disgustingly large and drastic pills, while Dr. Pierce's Pleasant Purgative Pellets, which are sugar-coated, and little larger than mustard seeds, will, by their steady and gentle action on the liver, correct and purify, thus permanently overcoming constipation. In South America they have almost entirely superseded all other pills, and are relied on fully by the people, and often used as a preventive of the various affections of the stomach, liver, and bowels, so prevalent in that climate. Pierce's Pocket Memorandum Books are given away at drug-stores.

DR. J. M. GROSVENOR, 22 Park Place, New York. SHE DIDN'T STAND UP.—At one of the Detroit churches where a revival is in progress the clergyman asked those who wanted to be prayed for to stand up. Quite a number rose to their feet, and after services were closed one lady was heard asking another at the door.

THE SUN. 1877. NEW YORK. 1877. The different editions of THE SUN during the next year will be the same as during the year that has just passed. The daily edition will on week days be a sheet of four pages, and on Sundays a sheet of eight pages, or 50 broad columns; while the weekly edition will be a sheet of eight pages of the same dimensions and character that are already familiar to our readers.

THE SUN will continue to be the strenuous advocate of reform and reformation, and of the substitution of statesmanship, wisdom, and integrity for hollow pretenses, imbecility, and fraud in the administration of public affairs. It will contend for the government of the people by the people and for the people, as opposed to government by frauds in the ballot-box and in the counting of votes, enforced by military violence. It will endeavor to supply its readers—a body now not far from a million of souls—with the most careful, complete, and trustworthy accounts of current events, and carefully selected articles of reporters and correspondents. Its reports from Washington, especially, will be full, accurate, and fearless, and it will doubtless continue to deserve and enjoy the hatred of those who thrive by plundering the Treasury or by usurping what the law does not give them, while it will endeavor to merit the confidence of the public by defending the rights of the people against the encroachments of unjustified power.

The price of the daily SUN will be 25 cents a month or \$2.00 a year, post paid, or with the Sunday edition \$2.75 a year. The SUNDAY edition alone, eight pages, \$1.25 a year, post paid. The WEEKLY SUN, eight pages of 50 broad columns, will be furnished during 1877 at the rate of \$1 a year, post paid. The benefit of this large reduction from the previous rate for THE WEEKLY SUN can be enjoyed by individual subscribers without the necessity of making up clubs. At the same time, if any of our friends choose to add to their subscription, we shall be glad to do so, and any such person who sends us ten or more subscribers for one year will be entitled to one copy of the paper for himself without charge. At one dollar a year, post paid, the expenses of paper and printing the paper are covered, and the price of the sheet and the quality of its contents, we are confident the people will consider THE WEEKLY SUN the cheapest newspaper published in the world, and we trust also one of the very best.
