Palmetto Fort, will lose its savour, and the deed that Mr. McDuffie has given his opinnever dying names of a Washington, a Pinckney, a Marion, a Pickens, and a Butler, will sound in our ears but to remind us of our degraded state, and humble coudition. Yes, sir, our liberties will be gone, and gone forever. The long and arduous struggle between Federalism, in all its various tacks and disguises, against Republi-canism will be brought to a final close, by a complete and triumphant victory of the ner over the latter. All future elections for President of the United States will be a complete morkery. The President will sustain the Bank, and the Bank will sustain the President. The fate of the late United States Bank will be a warning, long and loud, to all future Banks, never again to be found in opposition to the Executive authority of the General Government, but on the contrary, to exert in favor of said an thority all their power, which like the ar rows of Hercules, the Serpents of the Wilderness, or the Plagues of Egypt, will con-sume its enemies. A Bank of lifty millions allied to the President by an understanding of reciprocal favors, and acting on the community with the powerful auxilaries of avari e, hopes and fears, will infuse its poisonous influence into every ramification of society. Add to this Mammoth Tustitution the Government deposits and its control over all the Banks of the country-the countless number of office holders, seekers, agents, sub-agents, stockholders stock jobbers, hangers-on, expectants, debtors and dependents, and it will create such an array of power and patrouage on the side of the Executive, as will enable all future Presidents to appoint their successors with as much certainty as the British Dy nasty can claim the hereditary succession of the Imperial Diadem, and will form such a rampart of tyranuy and oppression, as will be very hard, if not impossible, to overturn. HAMPDEN.

MT. WILLING, Aug. 25, 1838. Mr. Editor.

Dear Sic-In my communication of the 16th inst., I confined myself to a simple and direct answer to the question (as I understood it) propounded by citizens of Edgefield, through your columns. I have since learned, that it is expected and desired that the candidates should not only give an onequivocal avowal of their opinions as to the policy expediency and constitutionality of a National Bank, but that they should also express their opinions in relation to the different plans proposed in Congress, for the management of the fiscal concerns et the Government. On this subject it will only be necessary for me to say that my opinion as a Republican of the Old School, and my feelings as a Southern man, both lead me to give a decided preference to what is called the Sub Treasury scheme, as being more in accordance with the letter and spirit of the Constitution, and less likely to be per verted to the giving of undue commercial advantages to favored sections of the country. I regret having to appear before the People again; yet it is a pleasure, that they should know my opinions on all leading National Respectfully your's, &c. J. B. SMITH. questions.

THURSDAY, AUGUST 30, 1838.

Subscriptions to the South Carolinian the Prospectus of which will be found in our columns, will be received at this Office. We trust sincerely that the friends of the Constitutional Currency among us, will come forward and sustain it.

ELECTIONS .- The Elections in Alabama, though full returns have not yet been seen by us, have resulted no doubt, in favor of the Administration.

Branch has been defeated by Dudley, for

Governor of N Carolina.

The Charleston Mercury says, that a Candidate against Mr. Legare will soon take the field with every prospect of success. miles of Centreville. Gen. Campbell is opposed by Dr. Thomas, rear succeeded, in wheeling about and re-Smith, and Gen. Thempson by Cel. T. Walker.

A very decided proof that the Independent Treasury Policy is sustained by a large majority of the People of South Carolina, is furnished by the fact, that not one of the I elegation who voted for it, has opposition.

The Charleston Courier announces the appearance of the Strangers Feyer, (Yellow Fever) in that City.

Since writing the above, we have seen the Proclamation of the Mayor of Charlesgers who can, to leave the City, and all who Indians. cannot, to avoid ever thing by which their systems may be overheated or inflamed, the night air and dew."

HONORS TO VAN BUREN AND VICTORIA. - Van Buren Effervescent Saline Aperient," and "Exquisite Victoria Chewing Tobacco" are advertised for sale in the Charleston market. We are sorry to see the name of the virgin Queen associated with such a noxious weed-hope that she does not use it.

GEN McDuffie's Letter .- A large author has some notions which perhaps may be regarded as peculiar to himself, but Banks. This is the true question, and gratified indeed are we to add to the gratified indeed are well as the grati gratified indeed are we to add to the catalogue of eminent men who are publicly fersonian Republicans, by whatever name committed to "the great measure of deliver- at present called must unite in one body. ance and liberty," the name of one whose and rally to the defence of the Constitution

ions to the world. He owed it to himself the public, as few men enjoy so large and a portion of confidence in our own State. If it were necessary to furtify our position by great names, it is too plain for doubt, that it could easily be done. Messrs. Calhoun, McDuffie, Harper, Huger, and others will surely command as much respect s any in the opposition. And it is perhaps worthy of remark, that no four mea could be found in the world, who would more certainly think for themselves on such a question. It is not true that the first men in the State are opposed to the Independent Treasury. This was the great argument of the opposition among us, but it is scattered to the winds. But we wish not this question to be decided by the mere weight of names. Those who denounce the support of the measure by a majority of the people of the People of the State, as Calhounism, must explain how the distinguished men whose names we have given above, come to their conclusions. Duped and fooled and led on like children by the great Senator .-How probable! We cannot join in ascrip. tions of praise to certain men only, for having having dured to think for themselves and withhold from others a similar tribute. In this matter we feel as Caroliniaus, and we would rather hope for the honor and character of the State that the booy of her intelligent citizens have not yet concluded to leave off thinking altogther, and suffer others to do it for them.

A Currous Taing .- The Biddle Party of Philadelphia have lately celebrated the resumption of Specie payments. How long are the People to be gulled and cheated !-Can it be that this Party can successfully impose upon the Public by representing themselves as the great actors in the work of resumption! Governor Ritner, the known and devoted friends of Mr. Biddle, the great friend of the Bank Party, the opponent of the Constitutional Currency, he who winked at Mr. Biddle's violation of law in suffering him to disregard an express provision of the Charter of his Bank, and who was guilty of the unfairness of issuing his Proclama tion for Resumption only when forced to it by the strong voice of public opinion-this man and his friend are now guilty of the duplicity of uttering the sentiment "Ritner and hard money," and claiming a large measure of glory and honor. However, we are glad to see that even at this late period the party will sing Hesannahs to the "Constitutional Currency," and we can forgive their past opposition, if they will keep the faith for the future.
