THURSDAY, NOVEMBER 8, 1838.

TO OUR PATRONS.

We must again dun our good friends. The operations of a Printing Office cannot be conducted without Money, and we are desirous to impress this important truth upon such of our readers as are forgetful of it. Many of our Subscribers are in arrears to us, and we earnestly solicit them to liqui-date their accounts. We would suggest to those who are disposed to comply with our request, that the Extra Court which will sit at this place on the 3rd Monday of this month, will afford a fine opportunity .-Come up like men, or give your neighbors who design attending, a Power of Attorney, to execute your business for you

In consequence of ill health, Adjutant and Inspector General Jones has returned from his military tour, to his residence in this place.

Better late than never .- The Hon. F. H. El more's Speech .- We publish to-day some ex tracts from the speech of Col. Elmore, delivered at the Columbia dinner, as some of our read ers have not had an opportunity of reading it. It is needless to commend it to public attention. The press, generally, has bestowed upon it the highest approbation.

Among the deaths, by stranger's fever, in Charleston, we notice those of Drs. Scott and Nardin. They fell martyrs to their humanity to the sick.

"Their's are unfading wreaths, to which "The laurels that a Cæsar reaps, are weeds."

The Greenville Mountaineer of the 2d inst. says, that "the Western mail was stolen from the boot of the stage on the morning of the 27th ult. It is supposed to have been taken in 12 or 15 miles of this place, as it was going west. Nothing has yet been heard of the mail or its contents. A reward of \$45 is offered for the recovery of the mail, and the appreliension of the thief."

The Neptune .- This steam packet went a shore on the Horse Shoe, at the mouth of the Cape Fear river, on the 23d ult. with a pilot on board, while putting in for a supply of fuel She has been got off without injury.

Meetings have been held in different places in Georgia, to appoint delegates to the State Commercial Convention, which will assemble in Milledgeville, on the 2d Monday in this month.

Mr. Joseph Lancaster, aged 67, dicd in New York, on the 24th ultimo. He was the founder of the Lancasterian Schools, which have been so highly extelled for their plan of instruction.

The Bank of the United States has bought bonds of the Union Bank in Mississippi, a large portion of which are to be paid for, in Mississippi money. It is quite probable that the U. S. Bank will buy up Brandon money, and other depreciated paper, and pay it out for the bonds, at par value. Nicholas knows how to speculate. He has learned much by his Cotton speculation last year, and by his operations in Mississippi, will add greatly to his means, in buying more Members of Congress, Editors, et id omne genus.

Vermont Senator .- The Hon. S. Phelps is elected United States Senator, hy a small majority.

New Jersey .- The Baltimore American of the 22d ult. says, that "by returns received a Trenton, the Whig ticket is elected by a major ity of 3 or 400. Many of the anti-bank papers say, that great fraud was practised in counting out the votes. Returns from certain districts were disallowed, on account of alleged illegality in the proceedings.

New York .- The Administration party have nominated Edwin Forrest for Congress. We

Foreign.

From the New Orleans Courier. MEXICO .- We have been favored with the perusal of a letter, lately received from Mexico, and have translated a part of its contents, in order to enable our readers to form an idea of the state of things in that

country. Several of our most distinguished politicians have greatly injured their popularity, by throwing difficulties in the way of government at the present crisis, where the nation is prepared to exert all its energies to resist the unjust protensions of a proud foreign cabinet. They endeavored o bring about a revolution, but have been discovered and arrested. They are now stigmatized as French Federalists.

Orders have been despatched to march all the regiments from the interior to the coast, where a considerable force of regular troops has already been collected. At Jalapa, are concentrated the regiments from the capital, and other large cities --There are besides 4000 meu in Vera Cruz, and 2000 in the castle. The defends rs of Vera Cruz are deter-

mined to be buried_under its ruins sooner than give up the city. Great preparations are making for defence. Gen Rincon has pledged himself not to give up as long as there is a man alive. A spirit of enthusiasm and emulation prevails that calls to mind the most brilliant epochs of our war of independence.

"A great many of our federalists will make common cause with the government, against the attempt at invasion; however they dissent from its internal policy. They feel, as patriots, that the Mexican government has a right to expect the aid of all its citizens to ward off the peril menacing all."

you addressed me yesterday. I have the great disadvantages.

The Chilians demanded twenty millions of dollars, and posssession of Callo, until the arrangement should be concluded .----These demands were considered inadmissuble. They then advanced and took Callao and Lima, after an action, in which, it is said, 2000 men were killed. Gen. Gomarra has been proclaimed President. The South still adheres to the cause of Santa Cruz, who. it is said, was within 3 days of Lima, with an army of 8000 men, The dates from Callao are up to the 22d August, and from Guayaquil to the 1st September Orbegosa, had fled to the mountains

Schr. Benjamin Gaither, Conover, for N. Y, sailed in company with the Olive.

Interesting from Canada.-The New York Post, says:-"We hear from a source we deem respectable, that there is likely to be further trouble on the frontier. gentleman writes-"Things are coming to head on the frontier; I think by the Ist proximo, we shall have a renewal of the Canada war, and if I am not deceived, under an organization and with a reciprocity on the part of the inhabitants general-ly, very different from what characterised ast winter's and spring's operations."

OBITUARY.

Died in Charleston, S. C. on Saturday he 27th ult. of the prevailing epidemic, Dr. D. F. Nardin, (Editor of the Botanic Journal) a native of France, but for many years a resident and citizen of this country, aged 33 years

Dr. Nardin, as is generally known in the South, was a disciple of what is commony called the Thompsonian School of Mediine; and whatever variance of opinion may exist as to the merits or defects of that system, scientifically considered, (of which we say nothing) it is yet certain, there are housands in this country who religiously believe that to it, under Providence, they are indebted for health and prolonged existence. By many of those the death of Dr. Nardin will be considered as a great calamity. He was, we believe, the first, or among the first, who introduced the practice into this city; and although assailed by every species of open and secret hostility-threatened, prosecuted, ridiculed -he neither faltered nor failed to the end. Of his sincerity, there can no longer be a shadow of doubt. Dr. Nardin became a martyr to the cause. Though subject to attack himself, and repeatedly urged to leave the city, yet such was his earnest de-sire to test, and thus to demonstrate his principles of practice, that he flung himself night and day into the midst of pestilence, which at length destroyed him-

though not, we have reason to believe, be fore his utmost hopes had been realised. We take occasion to remark here, that s many as have experienced the benefit of this practice during our late and still ingering epidemic, should adopt some method of certifying the fact. The public have a right to demand it. If a disease which has all along confessedly baffled the skill and resources of the fuculty, has been met and arrested by this, or any other method of treatment, it should be universally known ; and any attempt to smother or impede its adoption when thus certified, no matter in what quarter it originate, or by whatever real or fancied regard to scisuce it may seek to shield itself, is high treason against humanity.
