

**Mr. Buchanan.**—This great Oriental traveler is lecturing in Charleston. The Courier gives a long and poetical account of him. He is represented as highly impressive, and eloquent. His descriptions of Palestine, and the countries which he visited, are said to be very graphic and picturesque. He possesses the power of holding his audience spell-bound, by the richness of his imagery, and the general beauty of his diction.

**Mammoth Cheese.**—A Cheese, weighing 700 lbs., made at the dairy of Col. Meacham, of Orange county, N. Y. was presented to Mr. Van Buren. He gave it to the Washington Female Benevolent Society, to be sold for the benefit of the poor.

**Kentucky Legislature.**—The resolutions upon the subject of abolition, which first passed the Senate, have been adopted by the House of Representatives.

One of the provisions of the resolutions, is, that two Commissioners shall be appointed by a joint vote of the two Houses of the Legislature, to proceed to Ohio, lay before the Legislature of that State, the views of Kentucky, in regard to this question, and ask of it the enactment of such laws, as will tend to the suppression of the evils growing out of the interference of certain fanatics in Ohio, with the Slaves of Kentucky.

**North Carolina, U. S. Senators.** Messrs. Brown and Strange. —Shortly after the reception of the Anti-Sub-Treasury resolutions passed by the North Carolina Legislature, at its recent session, Messrs. Brown and Strange wrote a letter to the General Assembly, stating that they did not know the meaning of the Resolutions. These gentlemen acknowledge the right of instruction. The General Assembly replied by the following Resolution, which passed its third reading 25 to 23.

"Resolved, That the Resolutions passed by this General Assembly, and transmitted to our Senators in Congress, are sufficiently plain and intelligible to be comprehended by any one desirous of understanding them; that we believe this communication, anticipating the reception of said Resolutions and making enquiry as to their meaning, is not in good faith; and that it would be inconsistent with the self-respect of this General Assembly to make any reply to it."

**Delaware.**—In the House of Representatives of this State, Joseph Maul, Whig, lately received a majority of votes for the U. S. Senate. Late accounts state that the Legislature fixed on the 17th inst. for the election.

**Massachusetts.**—The Hon. Daniel Webster has been re-elected United States Senator, from Massachusetts, for the term of six years, from the 4th of March next.

**Mississippi.**—In Lowndes county, Mr. Tucker, (V. B.) has been elected State Senator. Mr. Gholson, late member of Congress, has been elected to the Legislature, from Monroe county.

**Gold Eagles.**—The Globe says that the Mint in Philadelphia, is making Gold Eagles. None of this coin has been cast since 1804.

**Florida.**—A Convention recently assembled at St. Joseph, Florida, and adopted a Constitution for Florida. Robert Raymond Reid was President of the Convention.

**Piracy.**—Some months since, an atrocious piracy was committed by the Malays, in the Indian seas, on an American vessel, the Eclipse. Several men-of-war started out shortly afterwards, in pursuit, and have probably chastised the pirates ere this.

**Horse-thieves.**—We call the attention of the public, to the advertisement of Mr. Geo. Anderson, inserted in to-day's paper.

**RICE PLANTATIONS!**  
Mr. Editor:—What an astonishing thing it is, that some people wish to appear rich, and even express themselves in such a manner as to be thought so by others; when indeed, if the truth were known, the most that could be said of them is, that they are like the animals of the shell tribe!—During the Summer of 1837, a company of Ladies and Gentlemen visited one of the Sulphur Springs in the upper country, in order, I suppose, to improve their health. One of the Ladies being presented with a cup of the water, exclaimed, "dear me! it smells just like the ditch water in one of Father's rice plantations," and behold! it was ascertained that he did not own even one such plantation, much less, two or more, as she intimated.

**Caricature.**—We have received from Washington, an amusing caricature print, representing Mr. Forsyth, stopping his nose, and introducing to President Van Buren, the Marquis De Quasiponpo, Envoy Extraordinary, and Minister Plenipotentiary from the Sister Republic of Hayti. This is the right way to treat the late specimen of united folly and wickedness on the part of the abolitionists. Such an employment of the graphic art will soon drive the proposition, with "inextinguishable slaughter" from the land.—*Charleston Courier.*

### Miscellaneous.

**From the Hudson Republican.**  
Died, in the city of Hudson, on the evening of the 11th instant, Capt. Alexander Coffin, in the ninety-ninth year of his age, (born 21st September, 1740, on the Island of Nantucket.) Until within the last year, he was active and prompt in bodily exercise; the sickness terminating his life was of about four weeks' duration, being the natural decay of the system. He was the last of the original proprietors who settled in the city of Hudson, in 1784. Often called by his fellow citizens to places of confidence—he was twice elected to the Legislature of Massachusetts—a member of the Convention of this State for amending the Constitution—post-master and mayor of this city—discharging the duties with satisfaction to his constituents and honor to himself. He had long been an intelligent ship master of sterling integrity, until he finally discontinued the seas, at about 60 years of age.

In the winter of 1774, he had for passengers to London, the consignees of the Tea then recently destroyed in Boston harbor. That so much worth should be early sought for, might well be expected; the same year he was invited to dine with Dr. Fothergill, in company with Dr. Franklin and a British peer, in London, thus becoming early initiated in the views, feelings and anticipations of those true friends of the American Colonies, he at once came out a firm supporter of the American cause, an unwavering patriot. He was the bearer of despatches from Dr. Franklin, in Paris, announcing the friendly interest the French Court had manifested towards America.—He was twice a prisoner during the war; was intimate with John Adams, John Hancock, and Samuel Adams, and the leading whigs of the Revolution—and has since enjoyed the most friendly relations with the most prominent men of the present day, and those preceding them.

**GREENVILLE, Jan. 18.**  
**Accident.**—A likely negro fellow, about 20 years of age, belonging to Mr. Mauldin, of this town; came very near losing his life on Sunday last in the following manner: He was at the house of Mr. Duncan, in company with another boy, whilst the family were at church, and by some means got hold of a musket loaded with buckshot, which exploded in his hands, the lead entering his face a little below the ear, carrying away nearly half of his lower jawbone, a piece of his tongue, and the greater part of his teeth. Notwithstanding this frightful wound, he is said to be doing well, and there is a prospect of his recovery.—*Mount.*

**W. L. Yancey, Esq.** who was convicted of Manslaughter at the last Fall term of our Court, and sentenced to a fine of \$1500, and an imprisonment of twelve months, has had his sentence commuted by the Governor of this State to \$500 fine and three months imprisonment, which term expired on the 22d inst. and Mr. Y. was released. The petition forwarded to his Excellency, were signed by upwards of 1000 respectable persons, and a large portion of them citizens of this District.—*Greenville Moun.*

**ALTA GA. Jan. 24.**  
**Fire.**—On Tuesday morning last, about three o'clock, a fire broke out in the Carpenter Shop of Mr. William Thompson, in the lower part of the city, and so rapid were the flames, that before assistance could arrive, the building was destroyed, with its contents.—*Constitutionalist.*

**NEW-ORLEANS, Jan. 18.**  
**From Texas.**—The steamer Cuba arrived yesterday from Galveston, whence she sailed on the 15th instant, bringing dates from Houston to the 12th, two numbers of the Telegraph of the 9th, and 12th have come to hand, containing the proceedings of Congress, and a few items of news of a local character. Considerable excitement had been occasioned by an attack made in the Senate chamber upon a member of the Senate, Dr. S. H. Everett, by the surgeon general of the army, Dr. Asa Smith, in which there was a show of pistol and Bowie knife by the assailant, and a display of pugilism. The public were very indignant at the outrage, and a resolution was passed unanimously by the Senate, requesting the President to remove Dr. Smith from his office as surgeon general.

Dr. Archer, of Texas, has been sent to prison for challenging General Houston, the anti-duelling law of the young republic being very severe; and a Mr. Wilson had been expelled from the Senate for using profane language in his place and resisting the officers of the House. Texas is making a stride beyond us.

**AN ACT**  
Entitled an act, to extend to late emigrants, or those who may emigrate within a specified time, a donation of Land.

Sec. 1st. Be it enacted by the Senate and House of Representatives of the Republic of Texas in Congress assembled.—That every person who may have emigrated to the Republic, by the first of Oct. A. D. one thousand eight hundred and forty, who is a free white person, and the head of a family, and who actually resides within the Government with his or her family, shall be entitled to a conditional grant of six hundred and forty acres of land, by paying the fees of office and surveying.—The conditions of the said grant shall be, that both grantee and his or her family shall remain and reside permanently within this Republic, and do and perform any and all duties required of other citizens, for the term of three years; after which time, he or his legal representatives shall receive from the government an unconditional deed for said grant of land; provided that no sale of said claim to land by the individual entitled to the same from this Government, shall be valid in law and binding upon the person selling the same, until an unconditional deed shall be obtained by the grantee for said land; and in no case whatever, shall a grant of that description be made, unless it be satisfactorily proved that all the conditions and provision of the law have been complied with: And all single free white male persons, of the age of seventeen and upwards, who may have emigrated to this Republic by the first day of January, 1840, shall be entitled to 320 acres of land.

Sec. 2nd. Be it further enacted. That all permanent resident citizens of Texas, who have or may arrive to the age required of emigrants by the above section of this act, shall be entitled to the same quantity of land as emigrants, upon the same conditions that emigrants are.

Sec. 3rd. Be it further enacted. That all officers and soldiers who engaged in the service of Texas, previous to the first of March one thousand eight hundred and thirty seven, whose families are now here, or who may arrive here by the first day of January, one thousand eight hundred and forty, shall be entitled to the same quantity of land that they would have been, if their families had emigrated to the country with them.

JOHN M. HANSFORD,  
Speaker of the H. Rep.  
S. H. EVERETT.

**The Book Making Business.**—The following is an extract from a lecture on printing delivered some time since before the Portsmouth Lyceum, and afterwards published. After speaking of the establishment of the Harpers, at New-York, the author says, "At Brattleboro," in our sister State, Vermont, is one which is deserving of notice. The printing establishment keeps in operation several power presses. Connected with it is a paper mill at one end, & a book bindery at the other, so that, (like the chrysalis, changing of a vile caterpillar to a beautiful butterfly, what enters at one end, the cast off covering of the human body, is, by a regular and rapid change brought out at the other extremity, beautiful paper, finely printed and bound—a material for the permanent dress of the immortal mind. So rapid is the progress that rags have been received at the mill in the morning, manufactured into paper, and printed before night. The "Comprehensive Commentary" is now printing at that establishment. When it is completed it will have consumed fifteen thousand reams of paper. Think not that the woolen or cotton manufactures are the only ones which benefit the agriculturalist, for this one work will use the amount of a thousand bales of cotton in paper—and will have required the skins of sixty thousand sheep for its binding!

We understand that during the five years ending with the present, there will have been published at this establishment about one hundred and sixty thousand imperial octavo volumes, averaging more than eight hundred pages each! The volumes contain each more than ten of the average of those issued by the Harpers, the largest publishing house in America—making an amount of matter issued, equal to one million six hundred thousand such volumes as theirs! The business is now carried on by the "Brattleboro' Typographic Co.," incorporated in 1836, with the privilege of holding a capital of two thousand dollars. *Vt. Phenix.*

**ATLANTIC STEAM NAVIGATION.**—The Journal of Commerce says: "The last passage of the Royal William has proved that if steam vessels but take the Southern route, they can cross the Atlantic as well in winter as in summer. She ran down within a hundred miles of Fayal, and came up the Gulf Stream, and all round found the weather so mild that no fire was necessary in the cabin, except for a very short time at each end of the voyage. The sailors worked with their coats off, and barefoot. The Gulf Stream keeps every thing warm as summer, almost up to sounding off our coast. The fact is, that the world has become so small of late, that if one feels cold here at the North, he has only just to run down to the equator and warm himself by the great fire, just as on a smaller scale a dull urchin in school runs to the fire there. There is nothing now in the way of Atlantic steam navigation. The terrors of the ocean were first subdued, and now old Boreas blows his blast and scares nobody."

**Pennsylvania.**—The late conduct of the Whigs, in attempting a fraudulent control of the Legislature of this great State, is beginning to recoil on them. A vacancy in Cumberland District, caused by the decease of Mr. Cassatt, a Whig Senator, has been filled by the election of Miller (Adm.) over Macfarlane (Whig) by a majority of 203.—*Courier.*

Two millions of dollars will not indemnify the Ohio valley for the expenses and sacrifice it has sustained in consequence of the difficulties and suspension of navigation since last July. In other words the Ohio valley would have been enriched to more than the amount of two millions of dollars, if the rail road from Covington to Charleston, S. C. was now in full operation.—*Post.*

The Virginia Legislature has before it a project for a general Banking Law, similar to that of New York, Georgia, Michigan, and for aught we know, the Moon.—It seems to be taken for granted rather too hastily, that if every man can make paper money, every man must get rich.—*Char. Mercury.*

**A fact.**—The Cincinnati News says there is a man living about fifty miles north of that city, who has had 24 children by one wife, 18 of whom are now full grown hearty males, capable of bearing arms.—"In peace prepare for war," is his maxim.

### Commercial.

**From the Augusta Constitutional, Jan. 24.**  
**AUGUSTA AND HAMBURG MARKET.**  
**COTTON.**—There has continued an active demand during the past week, in our market, and prices remained until the same as last noticed up to yesterday, when a report was in circulation that later and more favorable intelligence from Europe was in view, received via Charleston, which caused an increased demand, and prices for the lower and middling descriptions improved fully a quarter to a half a cent. The amount of Cotton on the market for sale at the present time, is limited, and nearly all in store is in second hands and hold for higher prices.—The limited quantity arriving is readily disposed of from wagons. Prime and choice Cottons continue scarce, and would meet with ready sale at from 14 1/2 to 15 cents in square packages, but there are none of this description in the market—the bulk of the present stock, may be cleared from middling to fair. We quote 12 a 14; prime and choice 14 a 14 1/2.

**OBITUARY.**  
Died, in this Village, on the 18th inst. Mrs. Sarah M. Lipscomb, consort of Capt. John Lipscomb, aged 40 years.  
A few days before her decease, Mrs. L. was in the vigor of health, and had the brightest anticipations of the future. But suddenly, "in the twinkling of an eye," the great Destroyer came, and she fell prostrate beneath his ruthless hand. Mrs. L. was for many years a most estimable member of the Baptist Church. In all the domestic relations, she was a model for imitation. As a wife, she was confiding, as a mother, affectionate, as a friend, sincere. In society at large, she was distinguished for her lady-like ease and affability; in the circle of her immediate friends, she was remarkable for her warmth, and the kindness of her feelings. She has left an affectionate husband, an aged mother, and a number of small children, but her sorrow is not like that of those "who have no hope." She is gone! but her numerous relations and friends have the consolation to know that "Their loss, is her eternal gain."

Died, at his residence, on the Upper Three Runs, Barwell District, S. C. on the 24th ult. Mr. Nathan Green, in the 67th year of his age.

**Another Revolutionary Veteran Gone!**  
Departed this life on the 28th ultimo, at the residence of his son-in-law, Mr. James S. Wofford, in Spartanburg District, Capt. Martin Cole, an officer of the Revolution, aged eighty-three years, four months and nine days. He was in the battles of Fort Mifflin, Brandywine, Germantown, Monmouth, and at the Siege of Charleston, where he was taken prisoner, by the British. He was one of Gen. Washington's Life Guard for two years.—*Greenville Mountaineer.*

### \$30 Reward.

**STOLEN,** on the 11th inst. from the residence of the subscriber, on the Martintown Road, twelve miles above Hamburg, a Bay Horse, about fifteen and a half hands high, nine or ten years old, with some white hairs on one hip, and some few saddle marks—away backed a little, round body and well made—in good order when taken away, worth \$125. The horse I believe was stolen by a man whose name is Richard Ford, who was committed to Edgefield Jail, on the 25th inst. for theft, and says he resides in Lincoln Co. Ga. He is a man of bad character, and is supposed to have traded said horse not far off, or south via perhaps by some of his associates in Georgia. It is believed he has comrades in South Carolina, Georgia and Alabama, and that he has paid the penalty of the law at the whipping post, as his back has been well lashed and the scars have not changed their color yet. The Jailor examined him and found such to be the case. The said Ford has recently been trading in horses and mules in this District, and no doubt all were stolen property. It is probable that he and his company carry on the business on a large scale, as he is thought to be a noted villain.

The above reward will be given for the delivery of the horse to me, or for proof to convict the thief trading him.
