Mr. Buckingham .- This great Oriental traveller is lecturing in Charleston. The Courier gives a long and poetical account of him. He is represented as highly impressive, and eloquent. His descriptions of Palestine, and the countries which he visited, are said to be very graphic and picturesque. He possesses the power of holding his audience spell-bound, by the richness of his imagery, and the general beauty of his diction.

Mammoth Cheese .- A Cheese, weighing 700 lbs. made at the dairy of Col. Meachem, of Orange county, N. Y. was presented to Mr. Van Buren. He gave it to the Washington " Female Benevolent Society," to be sold for the benefit of the poor.

Kentucky Legislature .- The resolutions upon the subject of abolition, which first passed the Senate, have been adopted by the House of Representatives.

One of the provisions of the resolutions, is, that two Commissioners shall be appointed by a joint vote of the two Houses of the Legislature, to proceed to Ohio, lay before the Legislature of that State, the views of Kentucky, in regard to this question, and ask of it the enactment of such laws, as will tend to the suppression of the evils growing out of the interference of certain fanatics in Ohio, with the Slaves of

North Carolina, U. S. Senators, Messrs. Brown and Strange .- Shortly after the reception of the Anti-Sub-Treasury resolutions passed by the North Carolina Legislature, at its recent session, Messrs. Brown and Strange wrote a letter to the General Assembly, stating that they did not know the meaning of the Resolutions. These gentlemen acknowledge the right of instruction. The General Assembly replied by the following Resolution, which passed its third reading 25 to 23.

"Resolved, That the Resolutions passed by this General Assembly, and transmitted to our Senators in Congress, are sufficiently plain and intelligible to be comprehended by any one desirous of understanding them; that we believe this communication anticipating the reception of said Resolu tions and making enquiry as to their meaning, is not in good faith; and that it would be inconsistent with the self-respect of this General Assembly to make any reply to it.'

Delaware .- In the House of Representatives of this State, Joseph Maull, Whig, lately received a majority of votes for the U S: Senate. Late accounts state that the Legislature fixed on the 17th inst. for the election.

Massachusetts .- The Hon. Daniel Web ster has been re-elected United States Senator, from Massachusetts, for the term of six years, from the 4th of March next.

Mississippi.-In Lowndes county, Mr. Tucker, (V. B.) has been belected State Senator. Mr. Gholson, late member of Congress, has been elected to the Legislature, from Montoe county.

Gold Eagles .- The Globe says that the Mint in Philadelphia, is making Gold Eagles. None of this coin has been cast since 1804.

Florida .- A Convention recently as sembled at St. Joseph, Florida, and adopted a Constitution for Florida. Robert Raymond Reid was President of the Convention.

Piracy .- Some months since, an attrocious piracy was committed by the Ma lays, in the Indian seas, on an American vessel, the Eclipse. Several men-of-war started out shortly afterwards, in pursuit, and have probably chastised the pirates ere

Horse-thieves .- We call the attention of the public, to the advertisement of Mr. Geo. Anderson, inserted in to-day's paper.

> [COMMUNICATED.] RICE PLANTATIONS!

Mr. Editor :- What an astonishing thing is it, that some people wish to appear rich, and even express themselves in such a manner as to be thought so by others; when indeed, if the truth were known, the most that could be said of them is, that they are like the animals of the shell tribe?-During the Summer of 1837, a company of Ladies and Gentlemen visited one of the Sulphur Springs in the upper country, in order, I suppose, to improve their health. One of the Ladies being presented with a a cup of the water, exclaimed, "dear me! it smells just like the ditch water in one of Father's rice plantations,"!! and behold! it was ascertained that he did not own even one such plantation, much less, two or more, as she intimated.

Caricature.-We have received from Washington, an amusing caricature print, representing Mr. Forsyth, stopping his nose, and introducing to President Van Buren. the Marquis De Quashipompo, Envoy Extraordinary, and Mini Pleni-Hayti. This is the right way to the late specimen of united folly and wickedness on the part of the abolitionists. Such an employment of the graphic art will soon drive the proposition, with "inextinguishable slaughter" from the land.—Charles-

#### Miscellaneous.

From the Hudson Republican Died, in the city of Hudson, on the eve-

ning of the 11th instant, Capt. Alexander Coffin, in the ninety-ninth year of his age, (born 21st September, 1740, on the Island of Nantucket.) Until within the last year, he was active and prompt in bodily exercise; the sickness terminating his life was of about four weeks' duration, being the natural decay of the system. He was the last of the original proprietors who settled in the city of Hudson, in 1784. Often called by his fellow citizens to places of conre—was twice elected to the Legisla Massachusetts—a member of the

on of this state for amending the on of this state for antending the this city-discharging the duties with satisfaction to his constituents and honor to nimself. He had long been an intelligent ship master of sterling integrity, until he finally discontinued the seas, at about 60 years of age.

In the winter of 1774, he had for passengers to London, the consignees of the Tea then recently destroyed in Boston harbor. That so much worth should be early sought for, might well be expected; the same year he was invited to dine with Dr. Fothergill, in company with Dr, Franklin and a Brit ish peer, in London, thus becoming early initiated in the views, feelings and anticipations of those true friends of the American Colonies, he at once came out a firm supporter of the American cause, an unwavering patriot. He was the bearer of despatches from Dr. Franklin, in Paris, announcing the friendly interest the French Court had manifested towards America.-He was twice a prisoner during the warwas intimate with John Adams, John Han cock, and Samuel Adams, and the leading whigs of the Revolution-and has since enjoyed the most friendly relations with the most prominent men of the present day, and those preceeding them.

GREENVILLE, Jan. 18. Accident .- A likely negro fellow, about 20 years of age, belonging to Mr, Mauldin, of this town; came very near losing his life on Sunday last in the following manner: He was at the house of Mr. Duncan, in company with another boy, whilst the family were at church, and by some means got hold of a musket loaded with buckshot, which exploded in his hands, the load entering his face a little below the ear, carrying away nearly half of his lower jawbone, a piece of his tongue, and the greater part f his teeth. Notwithstanding this frightful wound, he is said to be doing well, and there is a prospect of his recovery.-Mount.

W. L. Yancey, Esq. who was convicted of Manslaughter at the last Fall term of our Court, and sentenced to a fine of \$1500. imprisonment of twelve months. has had his sentence commuted by the Go-vernor of this State to \$500 fine and three months imprisonment, which time expired on the 22d just, and Mr. Y. was released. The petitions forwarded to his Excellency, were signed by upwards of 1000 respectable persons, and a large portion of them citizens of this District.—Greenville Moun.

Augusta Ga. Jan. 24. NEW-ORLEANS, Jan. 18. From Texas .- The steamer Cuba ar rived yesterday from Galveston, whence she sailed on the 15th instant, bringing dates from Houston to the 12th, two numbers of the Telegraph of the 9th, and 12th have come to hand, containing the proceedings of Congress, and a few items of news of a local character, Considerable excitement had been occasioned by an attack made in the Senate chamber upon a member of the Senate, Dr. S. H. Everett, by the surgeon general of the army, Dr. Asa- beginning to recoil on them. AN ACT

Entitled an act, to extend to late emigrants, or those who may emigrate within a specified time, a donation of Land.

Secc. 1st. Be it enacted by the Senate and House of Representatives of the Republic of Texas in Congress assembled. That every person who may have emigra-ted to the Republic, by the first of Oct. A. D. one thousand eight hundred and forty. who is a free white person, and the head of a family, and who actually resides within the Government with his or her family, shall be entitled to a conditional grant of six hundred and forty acres of land, by paying the fees of office and surveying.— The conditions of the said grant shall be, that both grantee and his or her family shall remain and reside permanently within this Republic, and do and perform any and all duties required of other citizens, for the term of three years; after which time, he or his legal representatives shall receive from the government an uncondi-tional deed for said grant of land; provided that no sale of said claim to land by the individual entlited to the same from this Government, shall be valid in law and binding upon the person selling the same, until an unconditional deed shall be obtained by the grantee for said land; and in no case whatever, shall a grant of that description be made, unless it be satisfactoriy proved that all the conditions and provision of the law have been complied with And all single free white male persons, of

Sec. 2nd. Be it further enacted. Timt all permanent resident citizens of Texas, who have or may arrive to the age required of emigrants by the above section of this act, shall be entitled to the same quantity of land as emigrants, upon the ame conditions that emigrants are.

Sec. 3rd. Be it further enacted, That all officers and soldiers who engaged in the service of Texas, previous to the first of March one thousand eight hundred and thirty seven, whose families are now here. or who may arrive here by the first day of January, one thousand eight hundred and forty, shall be entitled to the same quantity of land that they would have been, if their families had emigrated to the country with them.

JOHN M. HANSFORD. Speaker of the H. Rep. S. H. EVERETT.

The Book Making Business .- The following is an extract from a lecture on printing delivered some time since before he Portsmouth Lyceum, and afterwards published. After speaking of the estab lishment of the Harpers, at New-York, the author says, "At Brattleboro," in our sigter State, Vermont, is one which is deserving of notice. The printing establishment there keeps in operation several power presses. Connected with it is a paper mill at one end, & a book bindery at the other, so that, (like the chrysalis, changing of a vile caterpiller to a beautiful butterfly, what enters at one end, the cast off cover ing of the human body, is. by a regular and rapid change brought out at the other extremity, beautiful paper, finely printed and bound-a material for the permanent dress of the immortal mind. So rapid is the progress that rags have been received at the mill in the morning, manufactured into paper, and printed before night. The "Comprehensive Commentary" is now printing at that establishment, When it is completed it will have consumed fifteen thousand reams of paper. Think not that the woolen or cotton manufactures are the only ones which benefit the agriculturalist, for this one work will use the amount of a thousand bales of cotton in paper-and will have required the skins of sixty thousand sheep for its binding!

We understand that during the five years ending with the present, there will have been published at this establishment abou one hundred and sixty thousand imperial octavo volumes, averaging more than eight hundred pages each? The volumes conrain each more than ten of the average of those issued by the Harpers, the largest publishing house in America-making an amount of matter issued, equal to one milion six hundred thousand such volumes as The business is now carried on by the "Brattleboro' Typographic Co.," corporated in 1836, with the privilege of holding a capital of two thousand dollars.

ATLANTIC STEAM NAVIGATION .- The Journal of Commerce says: "The last passage of the Royal William has proved that if steam vessels but take the South-ern route, they can cross the Atlantic as well in winter as in summer. She ran down within a hundred miles of Fayal. and came up the Gulf Stream, and all 'round found the weather so mild that no fire was necessary in the cabin, except for a very short time at each end of the voyage. The sailors worked with their coats off, and bare foot. The Gulf stream keeps every thing warm assummer, almost up to sounding off our coast. The fact is, that the world has become so small of late, that if one feels cold here at the North, he has only just to run down to the equator and warm himself by the great fire, just as on a smaller scale a dull urchin in school runs to the fire there. There is nothing now in the way of Atlantic steam navigation. The terrors of the ocean were first subdued, and now old Boreas blows his blast and scares nobody.'

Pennsylvania .- The late conduct of the Whigs, in attempting a fraudulent control of the Legislature of this great State, is

TOLEN, on the 11th inst. from the residence of the subscriber, on the Martintown Road, twelve miles above Hamburg, a Bay Horse, about fiften and a half hands high, nine or ten years old, with some white hairs on one hup, and some few saddle marks—sway backed a little result of the same factors. marks -- sway backed a finle, round body and well made—in good order when taken away worth \$125. The horse I believe was stolen by a man whose name is Richard Ford, who was committed to Edgefield Jail, on the 26th inst. for theft, and says he resides in Lincoln Co

Ga. He is a man of bad character, and is sup-posed to have traded said horse not far off, or sent him away perhaps by some of his associ-ates in Georgia. It is believed he has comrades in South Carolina, Georgia and Alabama, and that he has paid the penalty of the law at the the whipping post, as his back has been well lashed and the scars have not changed their color yet. The Jailor examined him and found such to be the case. The said Ford has recently been trading in horses and mules in this District, and no doubt all were stolen property. It is probable that he and his company carry on the business on a large scale, as he is hought to be a noted villain.

The above reward will be given for the de-livery of the horse to me, or for proof to con-vict the thief trading him.
