

a feeling of rapture came over us. We would have been glad to have received a "pitiless pelting" from her fair hands. We were strongly tempted to throw aside our Editorial Dignity, and have a combat with the lovely maiden. Had we been out of observation, we would have given and exchanged a snow-ball, and doubtless been vanquished by our fair enemy. Alas! a foolish sense of propriety came over us, and with an air of dignity, we walked away.

Expenditures of the General Government.

Our readers cannot but see from the Report on the state of the Treasury, submitted by Mr. Cambreleng, that the expenditures of the government have been most lavish, and that they are annually increasing. Appropriations the most useless, and uncalled for, are made every session of Congress. It seems that Congress meets for little else, than to expend as much of the public money, as possible. The Whigs charge all this wasteful extravagance to the Democrats, and they to the Whigs. Whatever party may be the cause of it, whether Whigs, Democrats, Conservatives, or a combination of all, it is certainly much to be lamented. The people suffer, and demand a reform. That party will deserve the gratitude, and the support of the whole country, which shall be foremost in carrying out retrenchment, and cutting off useless expenditures of every description whatever. With an exhausted treasury—with a merciless enemy plundering and murdering our citizens in the South—with a heavy pension list, and numerous expenses, a portion of which are necessary to carry on the government, the necessity of strict economy must be apparent to all. A letter writer at Washington, a short time since, said that Congress had passed no bill, except for the payment of its own body. Now we did not believe this, but we know that the honorable members always pay themselves very liberally. To illustrate this we publish the following act:

An Act making appropriations, in part, for the support of Government for the year eighteen hundred and thirty-nine.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That the following sums be, and the same are hereby, appropriated, from any money in the Treasury, not otherwise appropriated, viz:

For pay and mileage of members of Congress and Delegates, three hundred and seventy thousand nine hundred and forty-four dollars;

For pay of the officers and clerks of the Senate and House of Representatives, forty-three thousand four hundred dollars;

For stationary, fuel, printing, and all other incidental and contingent expenses of the Senate, thirty-five thousand dollars.

For stationary, fuel, printing, and all other incidental and contingent expenses of the House of Representatives, one hundred thousand dollars.

The said two sums last mentioned to be applied to the payment of the ordinary expenditures of the Senate, and House of Representatives, severally, and to no other purpose.

In making our remarks, we cast no insinuations upon the well-meaning men of any party in Congress. There are high-minded and patriotic members, yet, of the national Legislature.

"Rome has not yet lost the breed of honorable men."

DR. FISK.—Dr. Wilbur Fisk, President of the Wesleyan University, at Middletown, Connecticut, and Bishop elect of the Methodist Episcopal Church, died in that town, on the 22d ultimo, aged 46 years. This gentleman was distinguished for his high moral character, and literary attainments. He recently published a book of travels in Europe. It is well written, and contains much useful information, especially to the members of his own denomination.

Western Bank of Georgia.—We omitted to state in our last, that this bank on the 15th ult. suspended specie payment. The Western Georgian says, that it will probably resume business in a short time.

VIRGINIA.—In the recent election for U. States Senator, from this State, there were 28 balloting—all without effect.—Such a thing never occurred before, in the history of the State. It is known that at the last balloting, Mr. Rives received the highest number of votes. On this account, and for other reasons, many believe that he will be ultimately elected. Many Whig editors, and some of other parties, advocate his claims. Mr. Rives is but a recent convert to the Whig party, and has therefore, all the zeal of a renegade. We do not know that he has any peculiar claims to the support of his new allies, and can see no reason, why they should abandon their own long-trying and faithful servants for him. The Whigs of Virginia, have numerous men fully as able, and certainly less objectionable than this late leader of the Conservatives.

Michigan.—An election for U. S. Senator, from this State, has not taken place.

England.—The British Parliament assembled on the 5th of February. The business of the 2d session, during the reign of the present Queen, was opened by a speech from the throne. The London Standard says, that Her Majesty read in a clear and audible voice, her most gracious speech. There is nothing in this speech of particular interest, to our read-

ers. There is at present, a political calm in Great Britain. The Government appears to be at peace with the world.

France.—The Ministry, who resigned a short time since, have not been re-organized, and in consequence, the King had prorogued the Chambers, and dissolved the Chamber of Deputies. The new elections were to be held on the 2d inst.

Texas.—The New York Star says, that Judge J. Webb has been appointed Secretary, of State in Texas, in the place of B. E. Bee, who has received the appointment of Minister, to the United States.

MUSIC.

"Who hath not felt thy magic power,
Thou soother of the storms of life?
Who cannot tell the holy hour
When thou didst calm some raging strife!"

Mr. Editor,
With much pleasure, I congratulate you on another return of the delightful season of Spring, as it was ushered in, on the evening of the 1st instant.

On that evening, I enjoyed the privilege of attending a Concert of Music—an exhibition, given by Professor BACON, of his class of charming, young, damsels. Never did music afford such charms! At a time of the year, when the "voice of the turtle is heard in the land," when the sweet songsters of the grove, send forth their warbling notes, and when all nature, by its instinctive power, assumes the beautiful livery of joyful Spring, how can man, its nobler head, be insensible to the charms of the more thrilling music, of the still fairer part of God's creation?

Had I the power of description, I might pretend to describe its effects on the countenances of the attentive audience. The young ladies performed on the Piano, and Guitar, with ease and elegance; and by their delicate touch of the instruments, accompanied with their sweetness of voice, gave to the scene a charm, that was irresistible. The Concert was highly creditable to Mr. B. and his class, and it is gratifying to us to learn, that it is repeated monthly.

AMATEUR.

Mr. Editor.
In the Debating society of Humburg, was discussed on Saturday evening the 2d inst. the all important question "Whether a cause was an effect, or an effect was a cause," and after much eloquence and close logic displayed on these two points, it was mooted whether a cause was competent of itself, to produce an effect, or an effect was competent by itself, to produce a cause, or finally whether it was, or was not necessary for cause, and effect, to come together, so that they might engender each other.

"The poet's eye in a fine frenzy rolling,
Glances from earth to heaven, &c."

During a most animated discussion, some Gentlemen made discursive and excursive flights from Cotton bales, into the boundless realms of space, and having (when in the stary regions) seized a comet or two, by the tail, returned to earth, without even so much as having damaged their nether garments. We should be sorry to say, that their ascent was awkward, like that of the Turkey Buzzard, or their descent graceful, like that of Iris on a rainbow.

Ultimately after much discussion, the following decision was made viz: that a cause can produce an effect, but that an effect cannot produce a cause. This decision being perfectly novel, and the discovery far transcending that of Columbus, it is requested that the journals of the United States, will copy the same, for the benefit of the rising generation, as the earlier and more generally, these solemn truths are promulgated, the better for the interest of posterity.

The editors will transmit their accounts to the secretary pro tem, and charge in proportion to the value of the discovery, which will be the easiest way of liquidating the account.

A Member of the Society.

Miscellaneous.

THE BORDER QUARREL.—Congress did not adjourn finally until 3 o'clock on Monday morning, the 4th inst. There was great excitement, but great unanimity also, on the Border question, resulting in a Bill's passing making full provision for the defence of the territory and rights of Maine.

We are happy to learn from a member of the House, who arrived yesterday, that the probability of a war with England, is not considered great, at Washington. The position of Russia is a check upon England, and will prevent her going hastily into a war of conquest. The British and American troops were at the last accounts within six or seven miles of each other, the Americans being in greater force. The British Minister, and Governor Harvey, of New Brunswick, had agreed with the United States authorities, for a mutual release of prisoners, and that for the present there should be a concurrent jurisdiction, instead of the exclusive jurisdiction first claimed by the British Governor. It is hoped, therefore, that there will be no armed collision.

The Bill passed by Congress, authorizes the President to have the Navy equipped and prepared on the war footing—to accept the services, if necessary, of 50,000 Volunteers, and at his discretion to send, or not, a special Minister to England; and appropriate for the requisite expenses, a sum of nine or ten millions.

We understand that it is not likely, that a special Minister will be sent forthwith, if at all.—*Charleston Mer.*

A correspondent of the Columbus Sentinel and Herald, writes from Tallahassee, under date of the 16th ultimo, and says:—"Major Mapes and Heinzelman, of the army, returned on yesterday from St. Andrew's Bay, and state that from 300 to 400 Creeks are known to be encamped on the north arm of that Bay! There is a military force there, comprising two companies of regulars, in all forty-two men! The houses are few and far between! In that section of country, and many murders will undoubtedly be perpetrated; nor should the citizens of St. Joseph or Apalachicola, sleep unmindful of danger, or unprepared for its approach."

The Charleston Patriot of the 4th inst. says—"The Northern Mail has been facilitated under the new arrangement which went into effect on the 1st instant, and taken by the Bay boats to Portsmouth, Virginia. We yesterday received New York papers in four, and Philadelphia papers with letters from Washington in three days.

A bill prohibiting the sale of wines and spirits by retail, has passed both branches of the legislature of Mississippi, has been signed by the governor, and has become a law. It takes effect at the expiration of sixty days from the 9th of February. The passage of this bill has given great dissatisfaction to many persons, in that state, and particularly in the city of Natchez. It was introduced by Mr. Foote of Hinds county, and he was banged in eilguy at Jackson, the seat of government.—The provisions of the law are very sweeping and its penalties are severe, and the prosecuting attorney is entitled to a fee of \$20 for every conviction, to be paid by the party condemned, and in default of payment, he or she is to stand committed till payment is made.—*Louisianian.*

An award of \$5,800 damages was some time ago rendered against the New Jersey Rail Road Company, for half an acre of land taken for the location of the road.—The Company, however, appealed from the award, on account of its excessive and extravagant character, and the Supreme Court of N. Jersey sustained the appeal and vacated the award.—*Charleston Pat.*

The Legislature of New York, has repealed the law prohibiting the circulation of small bills by the Banks of that State.

The Legislatures of Maryland and Delaware, have passed laws to enable Botanic Physicians to charge and receive compensation for their services and medicines, in the same manner as other Physicians are permitted to do.

The Hon. Theodore Frelinghuysen has been appointed Chancellor of the University of New York, in the place of Dr. Matthews, resigned.

Those who love us too well are blind to our faults—and those who dislike us, are not willing to see our virtues.

AUGUSTA AND HAMBURG MARKET.

COTTON.—Considerable depression has been experienced during the week by our dealers in this article; the accounts by the Liverpool Steamer, and the dullness of the markets on the seaboard, with the scarcity of money, have all tended to cause our market to droop, and prices may be quoted at least 4 cent per lb. and in some instances a greater reduction has been made.

The Celebrated Thorough Bred Horse NULLIFIER,

WILL stand the ensuing Spring season, at the following places, viz: at Abbeville Court House; at Mr. Vincent Griffin's, (near White Hall), and at the Subscriber's Plantation, (near the Deadfall), commencing the 4th day of March, and will visit the stands, in the above order, once in nine days, throughout the season, which will expire the 15th day of June, and will be let to mares at the following prices, viz: Twenty Dollars the single visit, Thirty Dollars the season, and Fifty Dollars insurance, and One Dollar cash to the Groom, in every instance. In cases of companies of six mares, the season will be reduced to Twenty-five Dollars for each mare, and a proportionate deduction for the visit, or insurance; by one individual becoming responsible for all, and any individual putting two or more mares of his own shall have the same deduction. Mares will be kept at the subscriber's plantation, and special care taken of them, at Twenty-five cents per day. The visit and season money will become due at the expiration of the season, and the insurance money as soon as the mare is ascertained to be with foal, or transferred, in which case the owner of the mare, when put, will be held accountable for the money. All possible care will be taken to prevent accidents or escapes, but no liability will be incurred for either.

Description.—NULLIFIER is a beautiful Bay, handsomely marked, with a delightful coat of hair, which shows his superior stock. His appearance is commanding—the eye of the greatest power, substantially, and strength. He will be nine years old this Spring—is full sixteen hands high, having superior size, large bone, and is as well muscled as any other horse, in this, or any other country, and has as much durability.

Performance.—NULLIFIER, the Spring he was three years old, ran a Sweep-stakes over the Jerusalem Course, mile heats, six subscribers, One Hundred Dollars entrance, when he was beaten, a prodigiously hard race, and not more than six or eight inches the second heat. The next week he ran, and won a Sweep-stakes, over the Norfolk Course, mile heats; Two Hundred Dollars entrance, beating several colts with great ease, particularly the second heat. The week after this, he ran another Sweep-stakes, over the Nottaway Course, mile heats, which race he won three heats, under the hardest drive, every heat. He was not then trained till next Spring. He was four years old when he ran at Tree Hill, a most interesting and hard contended race, when he was beaten by Goliath, at four heats, and by many other mares, were in this race, and NULLIFIER was only beat one foot the last heat.—The next week he went to Baltimore, and ran over the Central Course, four mile heats, for the Jockey Club purse, when he was beaten by the flying Dutchman—a very hard race; many other horses running, but only these two contending. The next fall he ran at Broad Rock, two mile heats, which race he won at four heats, beating seven others, after he had lost the first and second heats. In this race he got one of his sinews sprung; and has not been trained since.

The above is all correct and true.

W. R. JOHNSON.

Pedigree.—NULLIFIER was got by the celebrated running horse, Old American Eclipse, son of the celebrated American running horse, Old Durock, &c. &c. his dam was by the imported horse, Sir Harry, the best son of Sir Peter Teazle, grand dam by the imported horse, Saltram; g. grand dam by Col. Symes' celebrated American horse, Old Wild Air; g. g. grand dam by Rover; g. g. g. grand dam by the imported horse, Falow; g. g. g. g. grand dam by the imported horse, Vamper. A certified copy, from Virginia, signed by Benjamin Jones, Robert B. Corban, and Francis P. Corban. For his own and his colts' performances on the turf, reference can be had to the American Turf, & Sporting Magazine. He is a very sure foot getter, and his colts are large and have a splendid appearance, and are now running with great success, both on the Northern and Southern Courses.

ARCHIBALD ARNOLD.

P. S.—NULLIFIER will be in my possession and care, till the end of the present year.

Description.—Her Cline is a beautiful blood bay, 15 hands 3 inches high, of stately form, presenting a commanding & beautiful front; in fact, his fore hand is remarkable fine. He is a sure foot getter. He has run and won many races in this State, Virginia, and Maryland.—When he left the turf, he was regarded one of the best three-mile horses in the State, and two miles unequalled, and although he has run many hard races, he never broke down, and his limbs are yet as fine as when a colt. At three years old, after winning the great stake at Baltimore, (see Turf Register), his owner, Wm R. Johnson, of Virginia, was offered and refused five thousand dollars for him.

His colts are generally very promising, partaking of the old Sir Archy stock, his sire; are extremely docile and gentle, nearly all making good family horses, (where the dam is of good temper,) a very important consideration. His price too, is much lower than any other horse ever stood in this country, when his color, form, size, performance and fine Pedigree are taken into consideration.

Pedigree.—Her-Cline was got by Old Sir Archy, his dam, Georgiana, was got by Col. Alston's Gallatin, son of imported Bedford; his g. dam by Calypso, by imported Knowlege; g. g. dam by Eclipse, (son of imported Obscurity); g. g. g. dam by Skipwith's Figure; g. g. g. g. by imported horse Bailor's Fearnought, out of a thorough bred mare.
