## Money! Money Wanted!

We take this method of informing our friends and customers, that we are compelled to make this call for settlements. We believe in punctuality in all tendings to business. We have open accounts and notes due to us, for 1837, and 1838, yet unpaid, and we say to such, without hesitation, that we must have such accounts liquidated. It will be more pleasant to us, for our customers to pay, without putting our business in the hands of an officer for collection. We have our debts to pay punctually, and must necessarily have money.

## MOFFAT'S VEGETABLE LIFE PILLS AND PHENIX BITTERS.

THE UNIVERSAL ESTIMATION in which the celebrated Life Pills and Phenix Bitters are held, is satisfactorily demonstrated by the increasing demand for them in every State and section of the Union, and by the voluntary testimony of their remarkable efficacy which are every where offered. It is not less from a deeply gratifying confidence that they are the means of extensive and inestimable good among his afflicted fellow creatures, than from a most considered consideration, that the proprietor of these eminently successful medicines is desirous of keeping them constantly before the public eye. The sale of every additional box and bottle is a guarantee that some persons will be relieved from a greater or less degree of suffering, and be improved in general health; for in no case of suffering from disease can they be taken in vain. The proprietor has never known or been informed of an instance in which they have failed to do good. In the most obstinate cases of chronic disease, such as chronic dyspepsia, torpid liver, ematation, asthma, nervous and bilious headache, costiveness, piles, general debility, scrofulous eruptions and ulcers, neuralgia, salt rickets and all other chronic affections of the organs and membranes, they effect a cure with a rapidity and permanency which thousands have testified from happy experience. In colds and cough, which, if neglected, superinduce the most fatal diseases of the lungs, and indeed the viscera in general, these medicines, if taken but for three or four days, never fail. Taken at night, they so promote the insensible perspiration, and so relieve the system of fibrile action and febrile obstructions, as to produce a most delightful sense of convalescence in the morning; and though the usual symptoms of a cold should partially return during the day, the repetition of a suitable dose at the next hour of bedtime will almost invariably effect permanent relief, without further aid. Their effect upon fevers of a more acute and violent kind is not less sure and speedy if taken in proportionate quantity; and persons retiring to bed with inflammatory symptoms of the most alarming kind, will awake with the gratifying consciousness that the fierce enemy has been overthrown, and can easily be subdued. In the same way, visceral turgescence, though long established, and visceral inflammations, however critical, will yield—the former to small and the latter to large doses of the Life Pills; and so hysterical affections, hypochondriacism, restlessness, and very many other varieties of the Neurotic class of diseases, yield to the efficacy of the Phenix Bitters. Full directions for the use of these medicines, and showing their distinctive applicability to different complaints, accompany them; and they can be obtained, wholesale and retail, at 375 Broadway, where numerous certificates of their unparalleled success are always open to inspection. For additional particulars of the above medicines, see Moffat's "GOOD SAMARITAN," a copy can also be obtained of the different Agents who have the Medicines for sale.

## THE CAUSE OF BILIOUS COMPLAINTS AND A MODE OF CURE.

A Well regulated and proportionate quantity of bile upon the stomach, is always requisite for the promotion of sound health—it stimulates digestion, and keeps the intestinal canal free of all obstructions. On the inferior surface of the liver is a peculiar bladder, in which the bile is first preserved, being formed by the liver from the blood. Thence it passes into the stomach and intestines, and regulates the indigestion. Thus we see when there is a deficiency of bile, the body is constantly costive. On the other hand, an overabundance of bile causes frequent nausea in the stomach; and of ten prompts a very severe attack of disease, which sometimes ends in death. Fevers are always preceded by symptoms of a disordered stomach; and are also scrofulous disorders, and all sympathetic functional, organic or fibrile diseases. From the same cause, the natural and healthy action of the heart, and the whole vascular system is impaired and reduced below its natural standard as exhibited in palpitations, languid pulse, torpor of the limbs, syncope, and even death itself, in consequence of an overabundance of a peculiar offensive substance to the digestive organs. The approach of bilious diseases is at all times attended by decided symptoms of an existing diseased state of the stomach and bowels; i. e. with those which are known to point out their contents to be of a morbid irritating nature; but whenever the alimentary canal happens to be loaded with irritating matter, some derangement of healthy operation either of the general system, or of some particular organ of the body is the certain result, and when this state happens to be united with any other symptoms of disease, its effects are always thereby much aggravated. The progress of organic obstructions is often so rapid as scarcely to admit of time for the application of such aid as is to be offered by art, yet, in general, the pre-emptory symptoms of gastric load are perceptible for a day or two previous to the fever, paroxysmal period, when the most efficacious assistance may be given, by unloading the stomach and alimentary canal of its irritating contents, and thus reducing the superabundant bile to its natural standard.

## MOFFAT'S LIFE MEDICINE'S.

MOFFAT'S LIFE MEDICINE'S, should always be taken in the early stages of bilious complaint; and if persevered in strictly according to the directions, will positively effect a cure. The mineral medicines often prescribed in these diseases, although they may effect a temporary cure, at the same time create an unhealthy state of the blood, and consequently tend to promote a return of the very disease which they are employed to cure. It is then by the use of purgatives, exclusively formed of vegetable compounds, which possess within themselves no deleterious agencies, which develop or bring into action; and therefore capable of producing no effect, save that which is desired—that a safe remedy is found. THE LIFE PILLS and PHENIX BITTERS have proved to be the most happy in their effects in cases of Bilious diseases, of any purely vegetable preparation ever offered to the public. If the stomach is foul, they cleanse it by exciting it to throw off its contents; if not they pass to the duodenum without exerting vomiting or nausea in the stomach; stimulating the neighboring viscera, as the liver and pancreas, so as to produce a more copious flow of their secretions into the intestines; stimulating the exhalant capillaries, terminating in the inner coat, which an increased flow of the useless particles of the body, foreign matters, or retained secretions, are completely discharged. For sale wholesale and retail by the proprietor, WILLIAM B. MOFFAT, 37 Broadway, New York, to whom all letters relative to the Medicines or orders must be directed. For further particulars of the above Medicine see MOFFAT'S GOOD SAMARITAN, a copy of which accompanies the Medicines. A copy may also be had on application at the store of C. A. DOWD, at Edgfield Court House, who has the Medicines for sale. August 1

## About Brandreth's Pills, THEIR EFFECTS.

THESE PILLS are a Vegetable and Universal Sal Medicine, proved by the experience of thousands to be, when properly administered with a certain cure in every form of the BILIOUS DISEASE, all arising from the same origin, and invariably arise from the U. S. L. (G. S. L.) ROUTE of all diseases, namely, IMPURE BLOOD, or IMPURE CIRCULATION of the BLOOD. A period of little more than three years in the United States, they have restored to a state of HEALTH and enjoyment over ONE HUNDRED THOUSAND persons, who were given over as incurable by physicians of the first rank and standing, and in many cases when every other remedy had been resorted to in vain.

In all cases of Pain or Weakness, whether it be chronic or recent, whether it be deafness or pain in the side, whether it arises from constipation or from some immediate cause, whether it be from internal or external injury, it will be cured by persevering in the use of these Pills. This great principle of "PURGING" in its commencement is beginning to be appreciated. It is found much more convenient to take an occasional dose of half a Dozen Pills, and be always well, than to send for a Doctor, and be blistered, and salivated—with the certainty that if you are not killed, you are sure to have months of miserable weakness, and the only one who is benefited is your Doctor. Look at the difference between the appearance of those two persons—one has been treated by your regular practitioner—see how pale and debilitated he is, see how the shadow of death throws his solitary glance from his emaciated countenance, see how he trembles in every limb; his eyes sunk, his teeth decayed—his constitution perhaps, irreparably gone—yet, see how the Doctor arrogates to himself credit. He says, "most inveterate case of liver complaint"—"nothing but the most energetic remedies saved him." "Energetic measures!" i. e. Mercury and Bleeding, ruined his constitution, better say, "So to save life, you must half poison with that comforter of the teeth and gums—MERCURY—and positively make a man miserable the sad remainder of his existence; this is called curing. Shocking folly!

Let us now look at your "purged" man—the man who has taken Brandreth's Pills for Liver Complaint—he has the firm, elastic tread of conscious strength, his countenance is clear and serene, his eye is full and sparkling with the feeling of new life and animation; he has been confined a few days to his bed, but he uses nothing but the TRUE BRANDRETH PILLS, and soon rose without any injury being sustained by his constitution. Instead of being months in a weak state, he will be stronger after he has entirely recovered the attack; because his blood and fluids have become purified, and having purged away the old and impure fluids, the solids are thereby renovated, and he is not borne down by useless particles, but has renewed his life and body both.

This principle of purging with Brandreth's Pills, removes nothing but the useless and decayed particles from the body—the morbid and corrupt humors of the blood; those humors which cause disease—they impede the functions of the liver when they settle upon that organ, and which when they settle upon the nerves, produce rheumatism; or, upon the muscles produce gout; or, upon the lungs produce consumption; or, upon the intestines, costiveness; or, upon the linings of the blood vessels, apoplexy and paralysis, and all the train of disorders so melancholy to the sufferer and all who behold them.

Prepared and sold by WILLIAM B. MOFFAT, 375 Broadway, New York. A liberal deduction made to those who purchase to sell again. Agents—The Life Medicines may also be had of the principal druggists in every town through out the United States and the Canadas. Ask for Moffat's Life Pills and Phenix Bitters; and be sure that it is a fair simile of John Moffat's signature is upon the label of each bottle of biters or box of pills. Just received and for sale by C. A. DOWD, Agent. Edgfield C. H. July 1, 1839 if 22

In all cases of Pain or Weakness, whether it be chronic or recent, whether it be deafness or pain in the side, whether it arises from constipation or from some immediate cause, whether it be from internal or external injury, it will be cured by persevering in the use of these Pills. This great principle of "PURGING" in its commencement is beginning to be appreciated. It is found much more convenient to take an occasional dose of half a Dozen Pills, and be always well, than to send for a Doctor, and be blistered, and salivated—with the certainty that if you are not killed, you are sure to have months of miserable weakness, and the only one who is benefited is your Doctor. Look at the difference between the appearance of those two persons—one has been treated by your regular practitioner—see how pale and debilitated he is, see how the shadow of death throws his solitary glance from his emaciated countenance, see how he trembles in every limb; his eyes sunk, his teeth decayed—his constitution perhaps, irreparably gone—yet, see how the Doctor arrogates to himself credit. He says, "most inveterate case of liver complaint"—"nothing but the most energetic remedies saved him." "Energetic measures!" i. e. Mercury and Bleeding, ruined his constitution, better say, "So to save life, you must half poison with that comforter of the teeth and gums—MERCURY—and positively make a man miserable the sad remainder of his existence; this is called curing. Shocking folly!

Let us now look at your "purged" man—the man who has taken Brandreth's Pills for Liver Complaint—he has the firm, elastic tread of conscious strength, his countenance is clear and serene, his eye is full and sparkling with the feeling of new life and animation; he has been confined a few days to his bed, but he uses nothing but the TRUE BRANDRETH PILLS, and soon rose without any injury being sustained by his constitution. Instead of being months in a weak state, he will be stronger after he has entirely recovered the attack; because his blood and fluids have become purified, and having purged away the old and impure fluids, the solids are thereby renovated, and he is not borne down by useless particles, but has renewed his life and body both.

This principle of purging with Brandreth's Pills, removes nothing but the useless and decayed particles from the body—the morbid and corrupt humors of the blood; those humors which cause disease—they impede the functions of the liver when they settle upon that organ, and which when they settle upon the nerves, produce rhe
