to 0 by 30, all of which they will sell on favora-the terms. H. R. COOK & Co. Hamburg, Oct 3, 1839 tf 36 About Pr dreth' Pills,

THEIR EFFECTS.

THESE Pals or a Vegetable and Universal State here, proved by the experience of thousands to be, when properly persevered with, a CERTAIN cure in every form of the ONLY 1 - 1 - F - - 1 1 variably arise from the UNIV RSAL

400T of all diseases, namely, IMPURITY, or IMPERFECT circulation of the BLOOD. I a period of little more than three years in the United States, they have restored to a state of nearth and enjoyment over ONE HUN-DRFD THOUSAND persons, who were giv-en over as incurable by physicians of the first ank and standing, and in many cases when every other remedy had been resorted to in-

In all cases of Pain or Weakness, whether it e chronic or recent, whether it be deafures or pain in the side, whether it arise from constitutional or from some immediate cause, whether it be from internal or ext roal injury, it will be

cured by persevering in the use of these Pills. This great principle of "PURGING" in si-kness is beginning to be appreciated. It is found much more convenient to take an occasional dose of half a dozen Pills, and be always we l. han to send for a Doctor and be bled, blistered and salivated-with the certainty that if you are not killed, you are sure to have mouths of miserable weakness, and the only one who is benefitted is your Ductor Look at the difference between the appearance of those two personsone has been treated by your regular practi-ioner—see how pa'e and debili ated he is, see how the shadow of death throws his solitary glance from his enactated countenance, see low he trembles in every limb; his eyes sunk, his teeth destroyed-his constitution nech irreverably go e-yet, just hear how the Ducinvetorate case of liver complaint"-mothing but the most energetic remedies sared him."-Fuergetic measures! i. e. Mercury and Bleeding, ruined his constitution, better say. So to 3 grain pills. The white pills are catharie, alsave life, you must half poison with that comsave life, you must half poison with that comforer of the teeth and gross-MERCURYand positively make a man miserable the sad remainder of his existence; this is ca'led curing.

Sheeking felly: Let us now look at your "purged" manman who has taken Brandreth's Pil's for Liver Complaint-he has the firm, clastic tread of conscious strength, his counterance is clear and serene, his eye is full and sparkling with the feeding of new life and animation; he has been confined a few days to his bed, but he us duothing but the TRUE BRANDSETH PILLS. and soon rose without any injury being sustain d by his constitution. Instead of being months in a weak star the will be sero, ger after he has entire y recovered the a tack; he ause his blood and fluids have become purified, and having parged away the o'd and ime are fluids, the solils are thereby renovated, and he is not borne down by useless particles but has renewed his life and body both.

This principle of purging with Brandreth's Pills removes nothing but the useless and deeave) particles from the body.-the morbid and corrupt humors of the blood; those humors which cause disease-they impede the functions of the liver whe they seitle upon that organ, and which when they settle upon the muscles, produce rheomatism; or, u on the cerves preduce poet; if amonthe anes protiveness; or upon the linings of the blood yessels, apoplexy and para vsis, and all the train of disor less so metancially to the sufferer and all who behold them.

Yes puring these immors from the body is the true cure for all these complaints, and very other form of disease; this is no mere a sertion, it is a demons rable truth, and each day it is extending itself, far and wide it is be en long knows, and more & more appreciated.

The care by purging may more appendupon the laws which produce sweetness or purity than may be generally imagined. What ver tends to stagnate will produce sickness, be-cance it tends to purefaction, therefore the necossity of constant exercise is seen.

When constant exercise cannot be used FROM ANY CAUSE, the occasional use of OPENING MEDICINE IS ABSOLUTELY requir-Thus the conpurrs of the Bloom, the FOURTAIN OF LIFE are kept free from those impurities while would prevent its steady enrrent ministering health. Thus, marbid humors the infinite required from becoming mixed with it.—
It is not are prevented from becoming mixed with it.—
It is not are which is thus assisted through the means and outlets which she has provided for berself.

Hiles' Compound Extract of TORRATO.

A SUBSTITUTE FOR CALOMEL.

ROM the well known and established reputation of Calomel, it has been long employ ed by the empiric, and scientific physician. as one of the most powerful agents for the removal of discase. By the former, almost every land has been deluged with nostrums, that their authors claimed as specifics in every disease incident to the human family. The folly of these pretensions accels no comment, for accurate chemical investigation has shown, that the base of most of the Panaceas. Catholicons, &c.; which have been trumpeted before the community, with so much assurance, is Calomel, or mercury in some form. Now, if this potent arnele even in the hands of the most skilful physician, (requently exerts an influence on the human system, unforeseen, and entirely beyond the control of art; undermining the constitution, and bringing on premature old age, disease and death, what result should be expected when prescribed by the ignorant? Could their many thousand victims speak, a voice from the tomb would soon dispositive 'specific' delusion that now

Sways the minds of the living.

Humane physicians deplore the sad evils resulting from the mercurial practice, and will gladly hail the introduction of an article that carsafely be substitututed for Ca'mel. They feel and that hexuly, the great uncertanty of its prim ary operation; they cannot say whether it will be favourable or unfavorable. They also know and feel, that if its use is continued for any considerable time, injurious secondary consequen-ces must certainly follow. But they must choose the least of two evils; they know no other arti-cle that will arouse a torpid liver, remove ob-structio—and set in free action the whole glandular system, and it being indispensably necessary to do this, they continue its use, not-withstanding the evil consequences which follow.

They have long desired and sought an article that would produce the good effects of this drug, without sub ecting the patient to its dele-terious results. Such a desideration, it is believed, has at length been obtained, in the article new present d to the public.

The proprietors of this article keeping in view

the fact, that a wise and benerolent Being has placed within the reach of all, remedies adapted to the diseases incident to the climate they habit and knowing likewise, that parst of the diseases while Users to rayres are based upon organic or function, derangement of the livery directed their attention to those articles which jet mare especially on the biliary organs. At er tone laborious, and expensive research,

they have succeeded in extracting a substance from the TOMATO, which, from its peculiar effeet upon the hepatic or biliary organs, they have denominated Hepatine. It is a medicine that will produce all the beneficial results of Calomel, in both acre and chronic diseases, without the possibility of producing the deleterious consequences common to that article. Its action upon the constitution is universal, no part of the system escaping its influence. It is, however, upon the organs of secretion and excretion, that its great power is particularly manufested, hence it is peculiarly adapted to the treatment of bilions feeers and other diseases in which a torpidity or congestion of the liver and portal

circle prevai s.
It is admissible in all cases where it is necessary to cleanse the stemach and bowels. It removes obstruction, and excites a quick and healthy action of the liver and other glandular viscera of the abdomen. Being diffusible in in its operation, it produces a free circulation in the vessels on the surface of the body, accompanied by a gentle perspiration. It does not exhaust like drastic purges; still, its action is more universal, and may often be repeated, not merely with safety but with great benefit. This becomes indispensably necessary in cases of long standing; for in them intense temporary impressions made by strong medicines, seldom, if ever, do good; but tend to injure the

stemina of the constitution.
It is cleansing and purifying to the system, acts in perfect harmony with the known laws tor arrogates to bioself credit. He says, "most of life, and is undoubtedly one of the most valuable articles over offered for public trial and inspection. For convenience, this medicine is formed into

> pills are tonic, stimulant, and diaphoretic, As a family medicine, one which may be resorted to with safety, and relied on with certainty, in the first stages of disease in almost any form, it exceeds all former discoveries in medicine, either from the vegetable or mineral

> kingdoms. They are put up in packages of 135 grains, or 45 Pills, at 50 cents, or 100 pills at \$1. The above Medicine just received and for sale a the Edgefield Medicine Store. July 11, 1839

> South Carolina Copper, SHIET IRON & TIN WARE Manufactory.
