LAST WORDS OF EMMET.

"Let no man write my epitaph—for as no man who knows my motives dare now vindicate them, so let prejudice or ignorance asperse them. Let me repose in obscurity and peace, until other times and other men can do justice to my character; when my country takes her place among the nations of the earth, then—and not till then—let my epitaph be written."

He stood before the assembled crowd, And not a glance had he quailed; Nor his lofty brow in high resolves Had for an instant failed; The haughty souls of interest foes Within their bosom shook, As he bent his clear eye proudly round, With such a fearful look.

And these were the high words he spoke— "Are not these lips as free To bear their witness to the cause Of glorious liberty.— As free to speak the sacred words Which only tyrants fear, As those which boldly break the rights Of injured freedom here?"

And they will speak—the fires that glow Within this breast of mine, Were kindled at the holy blaze Of freedom's hallowed shrine; And till the heart itself be dead, Its beatings thro' no more, Its pulses, still to freedom true, Will tumble as before.

Ye have the power if not the right, To crush this feeble frame. But the high spirit's fiery zeal It is not yours to tame; And while ye dare to brand with crime That never stained my brow, I too may dare to brave the power To which I will not bow.

Yes, do your worst—you may spread your pall To darken round my name. But the fearless spirit ye cannot bend— That still remains the same— And for that name I would not stoop To ask one memory. Till every rock and blade of grass Upon this soil is free!

Let not my martyr's fate be read While Erin wears her chains; I would not ask one friendly hand, To wipe away the stains;— And o'er the pillow of my rest One tear must not be shed. Till the holy cross of freedom may Be placed above the dead."

The following are the words of the new song, written expressly for Mr. Russell, and advertised to be sung by that popular vocalist at his Concert, at Nible's Garden.

THE SEXTON.—By PARK BENJAMIN. Nigh to a grave that was newly made, Leaned a sexton old on his earth worm spade: His work was done, and he paused to wait The funeral train through the open gate: A relic of by gone days was he, And his locks were white as the foamy sea— And these words came from his lips so thin, "I gather them in! I gather them in!"

"I gather them in! for, man and boy, Year after year of grief and joy, I've builded the bonuses that lie around In every nook of this burial ground. Mother and daughter, father and son, Come to my solitude, one by one— But come they strangers, or come they kin, I gather them in! I gather them in!"

"Many are with me, but still I am alone! I am king of the dead—and I make my throne On a monument slab of marble cold, And my sceptre of rule is the spade I hold, Come they from cottage or come they from hall— Mankind are my subjects—all, all, all! Let them loiter in pleasure or toilsomly spin— I gather them in! I gather them in!"

"I gather them in—and their final rest, Is here, down here in the Earth's dark breast" And the sexton ceased—for the funeral train Would nutely over that solemn plain! And I said to my heart—when time is told, A mightier voice than that sexton's old Will sound o'er the last trump's dreadful din— "I gather them in! I gather them in!"

TRUST NOT THE TONGUE.

BY THOMAS J. BEACH. Trust not the tongue, words are but air That melt the moment they are spoken; Of lover's vows beware! Too feebly sworn—too lightly broken.

Trust not the lip—the burning lip; The tongue is not more frail than this is; And let not love bewildered sip Its frantic joys from clinging kisses.

Trust not the sigh—Love ne'er betrayed His empire in the heart by sighing, 'Tis passion only pleats the air! Of this, the gentlest form of lying.

Trust not the smile—the artful smile, So easy won, so sure of winning; For while it seems so free from guile, It lights the rosy path to sinning.

Trust, trust the eye—the beaming eye, Whose timid glance true love discloses; Tho' trembling droops, yet knows not why, And on the glowing cheek reposes.

Have a good wife, take care of her, You have not, get one immediately,

Providential Escapes.—Some of the most remarkable cases of Providential preservation, of which we have ever heard occurred on Wednesday and Thursday of the flood. Men were rescued almost miraculously from the very jaws of death among the many thus saved, were Mr. Kerouglan, Mr. Maher, and junior editor of the Journal. The two first were thrown from their horses, after the bridge had floated away from the crossing of Center at Cobb street, and ran the very narrow risk of drowning; and our junior had to swim "till" swimming to keep "above water," for the benefit of his patrons. He "stemmed the torrent" which rushed over the embankment leading to the bridge, when it was running about ten knots an hour; and we the senior editor, have heard him say that the cry of "hard times" will fall upon his ear hereafter as mere "tinkling brass and a sounding cymbal." Providence has been most merciful towards us, and let us be thankful.—Hamburg Journal.

From the Charleston Mercury. The [Last] Vicksburg Sentinel states that, "the President and Directors of the Brandon Bank, did not as was at first reported take the road to Texas, but on the contrary fell into the back track with intent to return to the bosom of the 'Old Dominion'—no doubt the recent Whig victory in that State emboldened them.— They travelled in an imposing style—an advanced guard to remove obstructions (sheriffs and such like impediments) a main body to protect the negroes and bankers, and a reserve or rearguard. If they could have accomplished their march, it would have been greater than the "retreat of ten thousand"—but alas for valor, science and foresight—these gallant ship-plate chieftains, after performing prodigies of running, run into a dish at last.— They had put a note in the Bank of Long Leas, endorsed with horse pistols, and bowie knives as collateral security, but it was kicked out. In short they were repulsed into Alabama, overtaken and compelled to make an assignment. The negroes were appraised and the President and Directors of the Brandon Bank were forced to resume payment on any amount of their own notes, equal to the gross sum—in other words, they were paid the full price of the negroes in Brandon money at par! this we take to be one of the most fortunate "business transactions" of the present year—"operating in incurrent money" with a vengeance—the very last and most ingenious plan for "correcting the exchanges."

Discovery in Tanning.—A discovery has been made which seems likely to revolutionize the trade. By means of a tanning machine, or pair of horizontal rollers fixed over a tank, between which is introduced a belt or band of hides attached by ligatures to each other, to the number of 50 to 100, and by which the rollers are constantly fed or supplied, the hides are lifted out of the pit on the side of the machine as they pass between the rollers, the exhausted ooze of tanning liquor is pressed out of them, and they are deposited in bins in the pit, on the other side of the machine, where they absorb another supply of fresh ooze. The first hide having been inserted between the rollers, the others follow in succession, and upon arriving at the end of the band the motion of the roller is reversed, and the belt is returned through the machine to receive another squeeze. This alternating motion is constantly repeated the pit being replenished from time to time with fresh solutions of tan, till the operation is completed. The effects produced by this simple plan, as we have satisfied ourselves by the inspection of documents from those who have been working on the patent method for many months, and from those who have purchased, manufactured, and wore the leather, are—1st. the shortening the time of tanning to one fourth of that generally required. 2d. The production of a considerable increase of weight. 3d. The leather tanned by this method resists water longer than that tanned by the old process. 4th. The new method is cheaper to work on than the old. 5th. That it is applicable to the existing tan yards, at a comparatively trifling expense, with a capability of working in rounds or stories, and of expending tar and liquor. 6th. That it is available for all sorts of leather.—English Paper.

THE CRANE WITH ONE LEG.—A noble Florentine had ordered a crane for dinner; but his cook's sweetheart coming in hungry, he cut off a leg for her, and sent it to the table with but one. His master in a passion called him up, and asked him "if cranes had but one leg?" "No, sir," replied the fellow, with great presence of mind, "and your excellency never saw those animals with two." Did I never, indeed, said my lord, still more provoked, "order the carriage to the door directly." The open chaise was brought, and the cook put into it by his master's directions, who, seizing the reins, drove him to the neighboring lake, three miles from the palace, where stood numbers of carnes by the water side, as is their custom, upon one leg, with the other drawn up under their fellow. "Now look, sir," said the cunning fellow, "they are all so you may perceive; not one of them has more than one leg." "You are impudent enough," replies the nobleman, "we will see presently if they are all lame;" and suddenly crying "ho, ho, ho," away scampered the birds on as many limbs as they could muster. Oh! but my lord, returns the droll cook, comically, this is not fair; you never cried "ho, ho, ho," to the crane upon your dish, or who knows but he might have produced two legs as well as these!"

SILK.—The New York Star mentions, as a proof of the attention which the culture of Silk will probably receive in that State, that one person in the city of New York has sold in small parcels, to farmers and others, five hundred ounces of silk worm eggs within the last sixty days. It is calculated that no less than thirty five hundred ounces of eggs have been sold in that city during the present season.—Chronicle & Sentinel.

Vegetable Life Medicines.

THESE Medicines are in vogue for their name to their manifest and sensible action in purifying the springs and channels of life, and ending them with renewed tone and vigor. In many hundred certified cases which have been made public, and in almost every species of disease to which the human frame is liable, the happy effects of MOFFAT'S LIFE PILLS AND PHOENIX BITTERS have been gratefully and publicly acknowledged by the persons benefited, and who were previously unacquainted with the beautifully philosophical principles upon which they are compounded, and upon which they consequently act.

The LIFE MEDICINES recommend themselves in diseases of every form & description. Their first operation is to loosen the various impurities and crudities constantly settling around them, and to remove the hardened fibres which collect in the convolutions of the small intestines.—Other medicines only partially cleanse these and leave such collected masses behind as to produce habitual costiveness, with all its train of evils, or sudden diarrhoea, with its imminent dangers. This fact is well known to all regular anatomists, who examine the human bowels after death; and hence the prejudice of these well-informed men against quack medicines—or medicines prepared and heralded to the public by ignorant persons.

The second effect of the Life Medicines is to cleanse the kidneys and the bladder, and by this means, the liver and the lungs, the beneficial action of which entirely depends upon the regularity of the urinary organs. The blood, which takes its red color from the agency of the liver and the lungs before it passes into the heart, being thus purified by them, and nourished by food coming from a clean stomach, courses freely through the veins, renews every part of the system, and triumphantly mounts the banner of health in the blooming cheek.

Moffat's Vegetable Life Medicines have been thoroughly tested, and pronounced a sovereign remedy for Dyspepsia, Flatulency, Palpitation of the Heart, Loss of Appetite, Heartburn and Headache, Resiveness, Ill-temper, Anxiety, Langour and Melancholy, Costiveness, Diarrhoea, Cholera, Fevers of all kinds, Rheumatism, Gout, Dropsies of all kinds, Gravel, Worms, Asthma and Consumption, Scurvy, Ulcers, Invererate Sores, Scabulous Eruptions and Bad Complexions, Eruptive complaints, Sallow, Cloudy, and other disagreeable Complexions, Salt Rheum, Erysipelas, Common Colds and Influenza, and various other complaints which afflict the human frame. In FEVER and AGUE, particularly, the Life Medicines have been most eminently successful; so much so, that in the Fever and Ague districts, Physicians almost universally prescribe them.

All that Mr. Moffat requires of his patients is to be particular in taking the Life Medicines strictly according to the directions. It is not by a newspaper notice, or by anything that he himself may say in their favor, that he hopes to gain credit.—It is alone by the results of a fair trial. MOFFAT'S MEDICAL MANUAL, designed as a domestic guide to health.—This little pamphlet, edited by W. B. Moffat, 375 Broadway, New York, has been published for the purpose of explaining more fully Mr. Moffat's theory of diseases, and will be found highly interesting to persons seeking health. It treats upon prevalent diseases, and the causes thereof. Price, 25 cents—for sale by Mr. Moffat's agents generally.

Citizens of Charleston, AND THE NEIGHBORING STATES.

YOU are respectfully informed that 70 MEETING STREET 76—is my Office for the extensive sale of BRANDRETH'S VEGETABLE UNIVERSE PILLS.—Price English five cents per box, with directions in English, French, Spanish Portuguese and German.

The high and universal reputation of the Brandreth Pills, renders it unnecessary to commend largely on their particular virtues. As the anti-bilious and purgative medicine, they are unequalled by any. Their purifying effect on the blood is universally allowed—all that have ever used have approved and recommended them.

In many cases where the dreadful ravages of ulceration, had laid bare ligaments and bone, and where to all appearance, no human means could save life, have patients by the use of these Pills, been restored to good health; the devouring disease having been completely eradicated.

It is consequently of the pleasantness of their operation, they are universally used in every section of this wide extended country where they are made known, and are fast superseding every other Preparation of professed similar import. Upwards of Fourteen thousand cases have been cured as "cured," of that into the U. States, thus establishing a fact beyond all doubt, that the Brandreth Pills cure the (apparently) most opposite diseases, by the one simple act of continually evacuating the bowels with them, until the disease gives way; therefore, whatever may be said of the THEORY, the UTILITY of the PRACTICE is now beyond all doubt.

As Brandreth's Pills cure Scurvy, Costiveness, and all travellers to foreign regions, should not be without, in order to resort to them on every occasion of illness. No medicine chest is required where they are.

N. B.—Time or climate affects them not, provided they are kept dry. Southern gentlemen will find this medicine one that will insure health to the people on their estates. Be careful and never purchase Pills of a Druggist, professing to be Brandreth's Pills. Under no circumstances is any one of this class made an Agent. My own established Agents have invariably an ENGRAVED Certificate signed by Brandreth, M. D. in my own hand writing. This is renewed yearly—and when over twelve months old, it no longer guarantees the genuineness of the medicine, it would be well, therefore, for purchasers to carefully examine the Certificate. The seal is not wax, but embossed on the paper with a steel seal. If the genuine medicine is obtained there is no doubt of its giving perfect satisfaction, and if all who want are careful to go by the above directions, there is little doubt but they will obtain it. Remember 70 Meeting street, is the only place in Charleston where the genuine medicine can be obtained, and at J. Sales, Hamburg and C. A. DOWD, Edgefield C.
