EDGEFIELD C. H.

THURSDAY, JANUARY 7, 1841.

Subscribers hereafter, will call for their papers at the building immediately in the rear of E. B. PRESLEY'S Brick Store.

We are indebted to the Hon. F. W. Pickens for a copy of a publication, entitled "A brief review of some of the points of the Spanish Brig L'Amstad, and the principles involved."

Cold as a coy damsel on her first introduction to the man she is destined to marry, commenced the "New Year." Since our last, which was published on the last day of last year, a material change has occurred in the weather, and for the past few days, it has been altogether too cold for comfort. On upland, hill, and valley, the dry bones of the deceased year are found. Nature sits trembling on her throne like a bereaved mother, and her desolate moan is heard among the naked branches of the forest. Desolation stalks abroad, and the stern Monarch waves his icy sceptre over our pleasant places.

Since writing the above, another change occurred, from a clear, cold air, to a warm, and consequently, a disagreeable atmosphere.

A fire broke out on the Plantation of Mr. Thos. B. Harvey, in this District, on the 4th inst., which consumed most of the out houses attached to the Dwelling House, including some negro houses. It was with great exertion that some of the small negroes were saved from the devouring element. The amount of Mr. H. Loss we have not ascertained.

We have been informed, that a bald faced Horse, having been rode, until completely exhausted, which has since died, was left at the Plantation of Mr. E. J. Miller, about 8 miles below this Village, on Tuesday the 30th ult. Where he came from, who came on him, or where his ungrateful and cruel rider went, is unknown to our informant.

The United States Deputy Marshal for Edgefield District, has politely handed us the following:

CENSUS OF EDGEFIELD DISTRICT, 1840.		
White Male Inhabitants,	7,559	
White Female " "	7,458	
Total,	15,017	
Free Colored Males,	155	
" " Females,	138	293
Slaves Males,	8,721	
" " Females,	8,802	17,523
Total	32,853	

The subjoined account is remarkable, but it is true. A man and woman were born in Edgefield District, and now reside in it, who are the parents of twenty-three living children. The father is about 47 years of age, and the wife about 37.

Col. G. F. Townes, who has for some time past, had the editorial charge of the Greenville Mountaineer, has withdrawn, and is succeeded by O. H. Wells, Esq., who has been connected with that paper, as Proprietor, for some years. Colonel Townes has published, in the Mountaineer of the first instant, a neat and elaborate address to its patrons, in which he expresses his acknowledgments, for the approbation and encouragement he has met with, since his connection with the paper, and concludes, by recommending his successor, Mr. Wells, as one whose arduous exertions will, he doubts not, render the Mountaineer a useful vehicle of information.

W. T. Thompson, well known as the able and talented editor of the Augusta (Ga.) Mirror, has closed his connexion with that paper, in consequence of an accumulation upon his books of too large a number of non-paying subscribers, to admit of his continuing the publication of his valued Journal.

We regret that such is our painful duty to again record another instance of the ingratitude existing in a list of delinquent subscribers.

Mr. Thompson commenced the publication of the Mirror, under circumstances not the most favorable, but which would have resulted in the establishment of one of the most celebrated Literary Journals in the Southern States, if he had met with that punctuality from his subscribers, which his untiring efforts to establish, and advance a medium of domestic literature, has so richly deserved.

There will be a brief suspension of the publication of the Mirror, but he assures those who have paid him in advance for his paper, that they shall lose nothing, as its publication will again be resumed, as soon as possible.

In addressing those whose original contributions have graced the columns of the Mirror, he says—

"We scarce know how to express our gratitude to our kind correspondents—our collaborators in the worthy cause which we

so reluctantly abandon. If in parting from the Mirror, we feel as if we had sustained the loss of a near and dear relative, so the dissolving our connection with those congenial spirits who have so generously lent us their aid, is like bidding adieu to friends to whom we owe a debt of gratitude which we may not repay. But we have a word of encouragement for them. We have reason to believe the Mirror will fall into able hands, who will render it still more worthy their continuance and support, than with our limited means and poor abilities we have been able to render it."

Political Reformer.—We have received the 1st No. of the Political Reformer, published at Portsmouth, Va., by Theophilus Fisk. It is a neat, well printed paper, in pamphlet form, of 16 pages, at the low price of 50 cents. We will publish the Prospectus in our next. A specimen No. can be seen at our office. We hope our Democratic friends will give it a helping hand. It is published on the Cash System.

We have this day seen, (says the Salisbury, N. C. Watchman,) a machine for planting Cotton, which we think deserves a notice. It was invented in Yanceville, N. C., by two young men of the name of Miner and Phelps, who are Carriage makers, by trade, and for which they have obtained a patent right. The merits of the machine, consists in its opening the furrow, sowing the seed, and covering it, which we are informed, and believe, it does with more regularity, than can possibly be done in the usual way, all in the same time, and with as much ease as ploughing a furrow. It is so constructed as to be used for planting Corn also, either in checks or drills.

We are more pleased in seeing improvements in the planting and agricultural world, than any other department of business; and we would rejoice to see the qualities of the above invention fully tested by our Planters. That it is an improvement in planting, and labor-saving, there can be no doubt; and we feel equally certain it will be taken into use, by all who are not resolved to plod in the beaten tracks of their ancestors alone; or, in other words, content "to do as our fathers done."

The Legislature of Georgia adjourned on the 22nd ult. having passed 180 Acts.

Census.—The Census of the District of Columbia, just completed, shows a population of 43,712, being an increase 1830, of 3,878.

Hard to Get.—An editor down East advertises for "a devil of a moral character."

HALLO! TURN OUT.—The Members of the Anti-Bachelor and Eccetera Society are hereby requested to attend at the "Old Maid's Hall," on Saturday evening next, at 7 o'clock precisely.

In consequence of a Challenge having been addressed to this Society, by the "Athens (Ga.) Bachelor's Club," through the columns of the Advertiser, a punctual attendance is most particularly requested, as matters deeply interesting and vitally important will be presented to the Society.

By order of
HON. E. NOGG, Pres.
N. E. RUM, Sec'y.

Mr. Editor.—I request the favor of you, to re-publish the following Resolutions in the columns of your valuable paper. The Convention, by which Body they were passed, has lately held its Anniversary in Sumterville. The Meeting was deeply interesting.

Yours Respectfully,
WM. B. JOHNSON,
President of the Baptist State Convention, in South Carolina.

Whereas, a general disquietude among our Churches in the South and Southwest of the United States, has been produced by the proceedings of some Abolitionists of our denomination, at the North, with whom we have long been associated in the Foreign Missionary enterprise—a disquietude, that threatens a division of the Southern from the Northern churches—and whereas, from the magnitude of the Missionary enterprise, and the importance of united action for its advancement, such division is to be deprecated, and if possible, prevented—and whereas, the manner of adjusting the existing difficulty so as to remove the disquietude, and prevent the division, is one of delicacy and importance, requiring deliberation and mutual counsel.

Therefore, Resolved, 1. That it be recommended to the Delegates from the Slaveholding States, who shall attend the Baptist Triennial Convention, in April next, to assemble in the City of Baltimore, in the Meeting House, in which the Triennial Convention is to assemble, at 10 o'clock on Monday before the last Wednesday in April next, that they may deliberate and determine upon the manner in which they shall act on this subject, when they shall meet at the Triennial Convention.

Resolved 2. That they be requested, after the rising of the Triennial Convention, to give information to their constituents, of the result of their doings.

Whereas, Brethren Kingsford and Wilcox, have been introduced to this body, as agents of the American and Foreign Bible Society; the last, as Missionary Agent of the American Baptist Home Missionary Society; they were invited to seats in council, and requested to make any communications that they had in charge. Whereupon, each in his turn, made encouraging statements of the affairs of the Society, which he represented. This done, each alluded to the exciting subject, produced by the conduct of the American Baptist Anti-Slavery Convention held in New York, in April last; and the Anti-Slavery meeting held directly after the adjournment of the Boston Association in the present year. The statements,

and remarks, made by these brethren, in reference to the numbers and influence of the abolitionists of our denomination in the northern states, shew that they are small and feeble; that the great body of our brethren at the north, brethren of standing and influence, have no sympathies with the abolitionists, and that they have no desire to interfere, in the smallest degree, with the institutions of the South; and that they will be ready to give an expression of their disapprobation of the proceedings of their abolition brethren at the north, at the next meeting of the Triennial Missionary Convention in Baltimore.

Therefore Resolved: 1. That this body is much gratified with the statements and remarks of these brethren, on this exciting subject. 2. That they have full confidence in the integrity, christian temper and true-heartedness of these brethren. 3. That, unalterably attached to the Bible cause, and Missionary interests, they recommend these brethren to the churches, in particular, and to the benevolent, in general, as worthy of entire confidence, earnestly desiring, that they may be well received, and liberally aided in their collections for their respective objects.

And whereas, Rev. A. Rick, of this body, has also received an appointment from the American and Foreign Bible Society, as agent for the South.

Resolved, 1. That we are much gratified at this appointment, and at his acceptance of it. 2. That we most cordially recommend him to the churches, and to the benevolent, trusting that they will liberally aid him by their countenance and contributions. 3. That copies of these resolutions be given to each of these brethren, signed by the President of this Society.

"Forty, some say will be a year of wonder. Some say, a year of calamities, some, of thunder."

FROM ST. AUGUSTINE.

By the schr. *Stephen & Francis*, Capt. Magee, arrived on Saturday, we received the *Herald* of the 31st. ult. from which we copy the following.

ST. AUGUSTINE, Dec. 31.

Forty Indians Captured—Ten Indians Hanged.—Capt Thompson of the *Walter M.*, arrived this morning from Key Biscayne brings a verbal report that Colonel Harney, who had proceeded into the Everglades with ninety men, succeeded in discovering the town of We-ki-kak, where he captured 29 women and children, and one warrior and killed or hanged ten warriors (they perhaps shot in the attack).

We hope, however, that they were hanged, after being caught alive, for belonging to the gang which committed the massacres at Caloosahatchie, and Indian Key, they deserved neither mercy, judge, or jury—nothing but an executioner; and the people of Florida have long deplored the infrequency of such salutary retributive examples. If these Indians were hanged, their people will see we are at last in earnest. How much blood might have been saved had 10 Indians been hanged five years ago!

We gave the gallant Colonel our good wishes when he went down, and are rejoiced to see them fulfilled.

The party returned round the coast, leaving Captain Davidson, who, is, we are sorry to say, dangerously ill, at Indian Key. Another expedition is preparing. Official reports may be expected to-morrow by the *Wm. Gaston*.

We said a few days ago that the destruction of our Indian was of more importance than the taking of Beyrout. What then must be our rejoicing when 40 are captured. Our market is illuminated to night the big gun is out—the band is playing cheerily, and the people are shouting for joy.

Col. Harney, we are told, went in at the Miami, and came out near Cape Sable.—If so, he must have gone where no white man has proceeded, and discovered a singular and important water communication across the South of the Peninsula.

Cotton.—There has lately been a rise in the Chattahoochee river, and the boats came down from Columbia and intermediate points without difficulty, though bringing but little Cotton. The crop tributary to that river will fall short of the last year's from 30 to 50 per centum, and do not estimate, that the shipment from this port and Apalachicola together will exceed seventy thousand bales.—*St. Joseph Times.*

The Farmers Bank of Chattahoochee Ga. The name of this Bank has been changed to the Phoenix Bank. We understand that it has passed into the hands of gentlemen who will put it again into operation. We advise those who have bills to hold on to them, as they will probably command the specie on the first of February.—*Georgia Argus.*

Colt's Rifle.—The Houston (Texas) Telegraph says—In the late Indian fight, Captain Andrews used one of Colt's patent rifles; which he discharged ten times, while a comrade could discharge his rifle only twice. He believes these rifles, in proper hands, would prove the most useful of all weapons in Indian warfare.

Fire.—A fire broke out, about 10 o'clock, on Saturday morning last, in the wooden building belonging to the estate of Blake, situated on the east side of Meeting street road, just above Line street. The flames originated from sparks from the chimney, igniting the roof of the dwelling, which in a short time was reduced to ashes. *Charleston Courier* January 4.

We learn from the Georgia Journal, that Jefferson J. Lamar, Esq., of Stewart Co., died on the 15th inst., in consequence of a wound received from a Mr Reynolds, on the evening preceding the election in October last.—*Aug. Chron. & Sen.*

Another valuable Lead Mine was recently discovered in the Southern part of Missouri, and the extraordinary value of the peculiar kind of ore made known by a German smelter. A furnace has been erected, to which the blast is applied by steam, and the company expect to make four millions of Lead next year.—*Aug. Chron. & Sen.*

Why is a gun like a jury? Because it is charged and discharged.
