'To improve the soil and the mind.' I know of no pursuits in which more real or important service can be rendered to any country, than by improving its agriculture.

-Washington.
"Agriculture is the Great Art which every Government ought to protect, every proprietor of lands to practice, and every inquirer into nature improve."—Dr Johnson.

#### THE CULTIVATOR, A Consolidation of Buel's Cultivator and

the Genessee Furmer. W. GAYLORD & L. TUCKER, Editors.

PROSPECTUS OF VOLUME VIII FOR 1841.

In offering to the agricultural public of the In offering to the agricultural public of the United States, the prospectus of the Eighth volume of the Cultivator, (the second of the New Series,) we desire the privilege of taking our patrons and correspondents familiarly and cordially by the hand, and thanking them most heartily for the very liberal aid and support they have rendered us, both by their communications

and their subscriptions. The Cultivator was established to improve and elevate the Agriculture of the country; to give a proper tone to the morals and mind of the farmer; to show him the dignity and importance of his profession; to store his mind with useful knowledge, and convince him that while all classes are and must be more or less dependent on each other, he alone of the whole can make any near approach to independence. If there is one thing more than another, which in this country gives a man superiority over his fellow men, it is knowledge; and this knowledge,—knowledge which is as essential to the success of the farmer as of other men, it is the

design of the Cultivator to aid in imparting.
In taking charge of the Cultivator, the Editors were aware of the arduous nature of the undertaking. Under its former conductor, this journal had already attained a very high character, and we might have shrunk from the task of sustaining the reputation it had gained, or from the efforts necessary to still farther clevate its standing, had not the assurance of aid from the ablest writers and the most experienced farmers of the country,-aid which our columns will show has been and will be most promptly and fully rendered; encouraged us to the undertaking. How far we have succeeded must be left for the readers of the Cultivator to determine: but if an increase of subscription beyond any precedent in the history of agricultural journals of this country; if the almost unanijournals of this country; if the almost unant-mous voice of the public press in our favor; if the multitude of private yet flattering testimo-nials we have received, added to a circulation probably treble that of any other journal devo-ted to the agricultural interest, may be admitted as evidence, then we have certainly most abundant reason to be gratified with our success.

If our efforts to render the Cultivator worthy

of the patronage it has received, no expense or labor has been or will be spared. As it is everywhere received as the exponent of the condition and prospects of Agriculture in the Uni ted States, we intend that every subject connected with the great interest in any part of our country shall receive its due share of notice, and its proper place in our colums. The Cultivator will be a record of all improvements in the science of Husbandry; of the introduction of new and important varieties of seeds and plants; of the respective values and adaption of the several improved breeds of Horses; Cattle, Sheep and Swine, to different sections of the United States; in short, it is intended to make it a work which shall interest, instruct

and be acceptable to all.

In the number, variety, and excellence of the lilustrations, the Cultivator is without a rival, either at home or abroad. This department will be fully sustained, and increased interest and attraction given by a greater number of figures of American Animals, selected from our hest specimens of all kinds, native and imported; by the drawing of new Implements, Agri-cultural and Mechanical; and by engravings of such objects as will be better understood, when given with such illustrations. The engravings and illustrations of the present volume will be nearly equal to one hundred in number; and the on they have given our patrons will secure their continuance notwithstanding the

great expense they necessarily occasion us. les of the Cultivator have been great during the past year, and the demand for great during the past year, and the demand for the back volumes as well as the current one so constant, that we have sterotyped each number, and shall be able, now and hereafter, to fornish subscribers with whole sets, or any single volumes they may desire.

To our personal friends, to the friends of Agriculture, to those Gentlemen who have acted assure Agents to Postmistors appearing the angle.

asour Agents, to Postmasters generally throughasour Agents, to Postmisters generally through-out our country,—in short to all those who have so generously interested themselves in our be-half, in bringing a knowledge of our work to the notice of their friends, and in obtaining sub-scribers; our most heartfelt and cordial thanks are due. While we have endeavored to make our terms such as to offer an adequate inducement and reward to those who are disposed from pecuniary motives to interest themselves in our favor, who shall still be indebted to all who will in any way aid us in our efforts to make the Cultivator more generally useful, ei-ther by increasing its circulation or employing their pens for its columns.

Our gratitude is especially due to those gentlemen whose numerous able and varied communications have given such an interest and value to our paper; and we are confident from their well known regard to the vital interests of American Husbandry, that our appeal to them for their farther aid, will not be in vain. We invite communications from all. There is scarcely a subject in nature that is not more or less intimately connected with agriculture, and may not be made subservient in its advance-

Terms-One Dollar per annum; six copies for \$5; the money to be remitted in advance, free of postage. A commission of 20 per cent will be allowed to Agents who obtain 25 or more subscribers, and 25 per cent to those who obtain 100 or more. All subscribtions to commence with a volume.

JESSE BUEL & CO., Publishers. Albany, 1841.

## CAUTION.

OST or mislaid, a note of hand, made Dost or misland, a note of manual payable to me or bearer, by James Gillam, for three hundred and sixty-seven dollars and some cents, and dated in November, 1837, and due about the same time. A suitable reward will be given for the recovery of said note, and all persons are hereby cautioned from trading for the same. JACKSON GAULDEN. Jan. 5, 1841.

#### PROSPECTUS OF THE Political Reformer.

Believing, as we do most sincerely, that the various coalitions and combinations of bank-ers, speculators, and stockjobbers, which exist in our country, are of deadly hostility to our free institutions—that the frightful eneroachneuts of incorporated wealth are undermining the pillars of our national glory—that there exists, among a certain class, a determination to doom to utter extinction that Liberty which was purchased by our father's blood—we are induced to appeal to our fellow-citizens of this yet free Republic, to aid us in the circulation of paper which shall unremittingly oppose these unholy designs.

That there exists at this crisis of our national flairs an absolute necessity for a work of this kind—a paper which shall coolly, faithfully, fearlessly, and perseveringly oppose and expose the dangerous schemes of the federal bank party—will not be doubted by any who are blessed with reason. Such shall be the ended of the second of th and aim of the present publication. It will advocate a thorough, radical, and complete reform in our present paper promise-to-pay-money system, which enables a privileged rew to print dollars, while the hard-working MANY are com-pelled to carn them; enabling rich droues to exchange strips of brown paper with a picture engraved upon it, for houses, lands, labor, &c. Believing that paper-money corporations are the most dangerous forms of tyranny upon the face of the earth, we shall devote our chergies to open the eyes of the public to a sense of their baneful influence. The Tariff, too—another invention of the idle to live in luxury at the expense of industry—will be undeviatingly op-posed. Internal Improvements by the Gener-al Government, a National Bank in any possi-ble form, will be handled without gloves. The fanatical crew of Abolition demagogues who would desolate our sunny fields and crimson our hearth-sides with human gore, will be dealt with according to strict justice. Indeed, no possible exertion shall be spared to make the Reformer, in all respects, richly deserving the generous support of every friend of political liberty. The interest and active exertions of liberty. The interest and active exertions of tion of this paper in their respective neighbor-hoods, is very respectfully and earnestly solici-ted. We look to them with undoubting confidence for their zealous support, and dare to hope that it will not be withheld.

CONDITIONS:

The Political Reformer will be published semi monthly, upon fine white paper, each number containing Sixteen Octavo Pages making

416 PAGES TO THE VOLUME, at the unprecedented low price of FIFTE CENTS per annum! Those who forward Five Dollars shall receive elezen copies—Ten Dollars, twentythree copies-and for Twenty Dollars, fifty copies will be sent for one year, reducing price to FORTY CENTS, only, for an Octavo Voltime of Four HUNDRED AND SIXTEEN PAGES!! No paper will be sent without the money is forwarded in advance. Orders addressed to THEOPHILUS FISK, Portsmouth, Va., will neet with prompt attention.

# ARCYLE

HIS celebrated Race Horse and Stallion will stand the ensuing Season, rom 15th February to 15th June, at Mr. WM. B. MAYS', in Edgefield District, S. C. 3 miles from the Court-House, on the Augusta Road. He will be let to mares at \$20 the single visit, \$30 the Season. and \$50 to insure; and one dollar to the groom in every instance. The money, or an approved note payable the 15th December next, must be sent with each more, or she will not be served. Good pasturage will be provided, and mares fed on grain at a reasonable price, and servants boarded gratis.

Every care will be taken of mares and foals, but no linbilities will be incurred for

escapes or accidents.
ARGYLE is a dark brown horse, without white, except a star, fifteen hands and three quarters high; possessed of uncommon bone and muscle, and a form combining with perfect symmetry, every essential of a Race Horse. He is now ten years old, having been foaled in Maryland n the Spring of 1830. He was sired by the famous Mons. Tonson, his dam Thisile, was by Ogle's Oscar, his grandam by Dr. Thornton's imported Horse Clifden; his g. g. dam by Mr. Hall's Spot; and his g. g. g. dam by Dr. Marshall's Hyder Ally, who was by Lindsay's Arabian.

The Performances of ARGYLE upon the Turf, have placed him in the very first rank of American Horses as a Racer, while those of his get entitle him to an equal standing as a Stallion. He started first at Orangeburg, S. C. in January 1834, and ran at Barnwell, Augusta, Macon, Columbia, and Charleston, two, three, and four miles heats, winning successively 8 races, five of them of four mile heats, beating Patsy Wallace, Rattlesnake, (3 times) Lucy Ashton, Rushlight, Bertrand junior, (twice) Vertumnus, &c. &c. He never lost a heat, and was rarely if ever put up to his speed, until his extraordinary defeat by John Bascombe in April, 1836, the circumstances of which are familiar to every one. Subsequently he was trained and run with great success in Virginia; and in May last on the Central Course at Baltimore, after running for the first heat of three miles, and losing it by a head in 5 minutes 4-seconds, he won the second heat in 5 minutes, 40 seconds, being the best second heat of three miles recorded in the history of the American Turf, and the most brilliant performance of a year surpassing all others in the richness of its annals. During the same week, and on the same course, one of his daughters, Kate Senton, won the great sweepstakes of \$1000, beating a fine field with great ease; such a coincidence being hitherto unknown

upon the Turf. ARGYLE stood but one season and to limited number of mares, not many of which were thorough bred, yet his colts have won nine out of the eleven races fo which they have been started, beating at one, two, and three miles, the get of many of our best Stallions, besides several imported colts, some of them in first-rate time. Two of his get, Governor Butler and Kate Seaton, are now unrivalled upon the Turf by any thing of their age.

The owners of ARGYLE, in bringing him back to the State in which (the' not foaled) he was first trained and gained his carliest laurels, present him with confi-dence to the Public, as being in every way, on account of his blood, sire and form, his performances on the turf, so remarkable for endurance, as well as speed, and the extraordinary success of his get, worthy of their entire approbation. W. B. MAYS.

Dec. 15, 1840.

### NOTECE.

WOULD respectfully inform my friends and the public generally that I have purchased my brother's interest in the Phenix Stone Ware Manufactory, consisting of Ne-groes, Mules, Wagons, Harness and stock of ware, &c. &c., for the purpose of manufacturing Stone Ware in all its various branches and hope by prompt attention to business to shear a reasonable patronage.
COLEMAN RHODES.

I owe money due on the 1st of January next, and cannot extend longer indulgence. I would also say, that I wish to Mill, a large quantity of RICE, make an invariable rule in my business to have fresh and sweet. Orders for any quantity, all accounts liquidated the list of January each to be delivered at the Court-House, will be a war which will save its providerable trouble. able trouble. restey.

Citizens of Charleston. AND THE NEIGHBORING STATES MOU are respectfully informed that 70

MEETING STREET 70—is my Office for
the exclusive sale of BRANDRETH'S VEGETABLE UNIVERSAL PILLS. Price twen-

ty five cents per box, with directions in English, French, Spanish Portuguese and German. The high and universal reputation of the Brantdeth Pills, renders it unnecessary to com ment largely on their particular virtues. As an anti-bilious and purgative medicine, they are unequalled by any. Their purifying effect on the blood is universally allowed—all that have ever used have approved and recommended

In many cases where the dreadful ravages of alceration had laid bare ligament and bone, and where to all appearance, no human means could save life, have patients by the use of these Pills, been restored to good health; the devour ing disease having been completely eradicated.
In consequence of the pleasantness of their

operation, they are universally used in every section of this wide extended country where they are made known, and are fast surperseding every other Preparation of professed similar import. Upwards of Fourteen Thousand cases have been certified as cured, solely from their use since the introduction of that into the U. States, thus establishing the fact beyond all doubt, that the Brandreth Pills cure the (appar rently) most opposite diseases, by the simple act of continually evacuating the bow, els with them, until the disease gives way; therefore, whatever may be said of the THEORY, the UTILITY of the PRACTICE is now BEYOND al

As Brandreth's Pills cure Scurvy, Costive ness, and its consequences, seastaring men, and all travellers to foreign regions, should not be without, in order to resoit to them on every occasion of illness. No medicine chest is re quired where they are.

N. B,-Time or climate affects them not provided they are kept dry. Southern gentle men will find this medicine one that will insure

health to the people on their estates.

Be careful and never purchase Pills of a Druggist, PROFESSING to be Brandreth's Pills. Under no circumstances is any one of this class made an Agent. My own established Agents have invariably an engraved Certifi cate, signed B. Brandreth, M. D, in my own cate, signed B. Brandreth, M. B. in my own hand writing. This is renewed yearly—and when over twelve months old, it no longer guarantees the genuineness of the medicine, it would be well, therefore, for purchasers to carefully examine the Certificate. The seal is uot wax, but embossed on the paper with a steel seal. If the genuine medicine is obtained there is no doubt of its giving perfect satisfaction, and if all who want it are careful to go by the above directions, there is little doubt but they will obtain it.

Remember 70 Meeting street, is the only place in Charleston where the genuine medi-cine can be obtained, and at W. W. Sales, Hamburg and C. A. Down, Edgefield G.H. the only

authorised Agents for Edgefield.

Vegetable Life Medicines.

THESE Medicines are indebted for their name to their manifest and sensible action in purifying the springs and channels of life, and enduing them with renewed tone and vigor. In many hundred certified cases which have been made public, and in almost every species of discase to which the human frame is liable the happy effects of MOFFATS
PILLS AND PHENIX BITTEM have been gratefully and publicly ac-knowledged by the persons benefitted, and who were previously unacquainted with the beautifully philosophical principles

upon which they are compound upon which they consequently act The LIFE MEDICINES recom

themselves in diseases of every from & de scription. Their first operation is to loosen the various impurities and crudities constantly settling around them, and to remove the hardened fixces which collect in the convolutions of the small intestines .-Other medicines only partially cleanse these and leave such collected masses behind as to produce habitual costiveness, with all its train of evils, or sudden diarrhea, with its imminent dangers. This fact is well known to all regular anatomists, who examine the human bowels after death; and hence the prejudice o, these well informed men against quack medicines-or medicines prepared and heralded to the public by ignorant persons. The second effect of the Life Medicines is to cleanse the kidneys and the bladder. and by this means, the liver and the lungs, the neutralul nerion of which entirely depends upon the regularity of the urinary organs. The blood, which takes its red color from the agency of the liver and the lungs before it passes into the heart, being thus purified by them, and nourished by food coming from a clean stomach, courses freely through the veines, renews every part of the system, and triumphantly mounts the banner of health in the bloom

ing cheek.
Moffat's Vegetable Life Medicines have been thoroughly tested, and pronounced a sovereign remedy for Dyspepsia, Flatulency, Palpitation of the Heart, Loss of Appetite, Heartburn and Headach, Restessness, Ill-temper, Anxiety, Languor and Melancholy, Costiveness, Diarrhœa, Cholera, Fevers of all kinds, Rheumatism Gout, Dropsies of all kinds, Gravel, Worms, Asthma and Consumption, Scurvy, Ulcers, Inveterate Sores, Scobutic Eruptions and Bad Complexions, Eruptive complaints. Sallow, Cloudy, and other disagreeable Complexions, Salt Rheum, Erysipelas, Common Colds and Influenza, and various other complaints which afflict the human frame. In FEVER and AGUE, particularly, the Life Medicines have been most eminently successful; so much so, that in the Fever and Ague districts, Physicians

almost universally prescribe them.

All that Mr. Moffat requires of his pait ents is to be particular in taking the Life Medicines strictly according to the directions. It is not by a newspaper notice, or by anything that he himself may say in their favor, that he hopes to gain credit.— It is alone by the results of a fair trial.

MOFFAT'S MEDICAL MANUAL. designed as a domestic guide to health,-This little pamphlet, edited by W. B. Mosfat, 375 Broadway, New York, has been published for the purpose of explaining more fully Mr. Moffat's theory of diseases, and will be found highly interesting to persons seeking health. It treats upon prevelent diseasos, and the causes thereof. Price, 25 cents-for sale by Mr. Moffat's agents generally.

These Valuable Medicines are for sale C. A. DOWD. Edgefield C. H. March 28, 1840 if 9

### (Water-Proof.)

#### WARE-HOUSE. AND Commission Business.

HE Subsciber is much gratified that he is once more able to offer his services to his friends and old customers, and the public generally in the Ware-House and Commission Business. He flatters himself that the eligible location of his Ware-House, and its comparative immunity from the risk of fire and flood, will

Procure him a liberal patronage.

He has rebuilt the Ware-House formerly known as Adams & Walker's, and is filling up noe wing of it above the highest water-mark of the late freshet, for the purpose of storing there in the Cotton of Planters and Country Merchants. This site is at least two feet higher than any other ware-house in town; and the division that has been elevated will store from 1800 of

2000 bales. He will sell Cotton, and attend to such business as is usually transacted by Commission Merchants, at as low a rate as others engaged

in the same calling.
In again offering his services to his friends and the public, the subscriber cannot refrain from acknowledging the liberal patronage he once received from them; and hopes by his at-tention to business that it will be renewed, and it will be thankfully received. GOLLOTHUN WALKER.

Hamburg, August 8, 1840

Tan-Yard & Shoe Shop opened. N the Edgefield Road near Mt. Vintage, where good Cow Hides will be bought, or tanged on shares-one half for the other and fine Shoes, Boots, and Negro Shoes will be made on as good terms, and of materials infe-rior to none in the State.
