

Head Quarters, Columbia, 22nd March, 1838.

ORDERS No. 68. To Col. BEACFORT T. WATTS, Quarter Master General.

Sir:—You will proceed to sell the Arsenal and Magazine lots in Abbeville, in pursuance of a resolution of the late Legislature of this State, on a credit until the 1st of October next, taking bond and sufficient surety for the payment of the purchase money, and report the result of such sale to His Excellency the Governor.

By order of the Commander-in-Chief. JAMES JONES, Adj't. & Insp'r. Gen.

COLUMBIA, 16th May, 1838.

To His Excellency PIERCE M. BUTLER: Sir:—In pursuance to an order from the Executive, to cause to be sold the Arsenal and Magazine lot, in Abbeville. I have the honor to report:

I attended at Abbeville on the first Monday of this month, and effected a sale of the said lots, at public auction, in conformity to notice previously given in the Gazette. The Arsenal was purchased by T. D. Williams, at \$305. The Magazine by John Taggart, at \$280. The purchasers reside in the village of Abbeville, and are responsible citizens.

I have the honor to accompany herewith their several obligations, sustained by ample security. I have the honor to be, Sir, Your most obed't servant,

B. T. WATTS, Q. Master General.

COLUMBIA, 19th May, 1841.

To His Excellency JOHN P. RICHARDSON: Sir:—I have the honor to accompany herewith Orders No. 68' marked (A) from the Adjutant and Inspector General, and my report thereon, marked (B), to Ex-Governor PIERCE M. BUTLER.

During the administration of the late Governor Noble, he authorized me to cancel the obligation of Taggart for the purchase of the Magazine lot, and to accept the bond of D. Douglass.

The said Douglass has recently paid me the purchase money, with interest, amounting to \$324, and I witnessed a transfer of the said lot, known as the Magazine, to John Cunningham.

The bond of Williams for the purchase of the Arsenal, has not yet been paid, as there is some difficulty in regard to title. It seems there is no record of title or transfer of the said lot of ground to the State, and a man by the name of Charles Denny who owns an adjoining lot, has set up a pretext of claim to the ground, to the injury and annoyance of Williams, the purchaser.

I have the honor to be, Sir, Your obedient servant,

B. T. WATTS, Q. Master General.

EXECUTIVE DEPARTMENT.

COLUMBIA, 12th May, 1841.

To JAMES J. CALDWELL, Solicitor: Sir:—I am directed by His Excellency JOHN P. RICHARDSON, to submit for your information, and future action, the enclosed documents.

Order No. 68' marked (A) directing the Quarter Master General to sell the Arsenal and Magazine lots in pursuance of a Resolution by the Legislature.

The Reports of the Inspector General therein, marked (B) and (C).

These papers are only necessary as explanatory of the last paragraph of the report (C) in relation to the Arsenal.

It seems the said lot on which stands the Arsenal, was given by the late Major Hamilton of Abbeville to the State. There appears to be no record of title for the same, and in consequence thereof a citizen of Abbeville, by the name of Charles Denny, who owns an adjoining lot to the Arsenal, has set up a pretext of claim to the same, to the injury and annoyance of Williams the purchaser.

The Governor desires that you will investigate the affair, and take such process as you may deem consistent with propriety, and the interest of the State.

Very respectfully, Sir, Your obedient servant,

B. T. WATTS, Ex. Sec'y.

By the Governor. June 10

Look at This!

AND if you are not satisfied, call and see me, and I will endeavor to satisfy you. By this I would inform my customers, friends, and the public generally, that I have a fine assortment of well sawed LUMBER on hand, and my Saw and Grist Mill in fine order for business. All orders in my line of business will be thankfully received, promptly attended to, and neatly executed. Lumber is reduced to the exceeding low price of fifty cents per hundred feet, or \$5 00 per thousand. My Mills are situated on Beach Creek, waters of South Edisto, 43 miles from the Ridge, 53 miles from Lott's, and 8 miles from the Pine House, just opposite the 28 mile post, on the road from Augusta to Columbia, and 3 miles from where the road from Lott's to Aiken crosses the same.

Finally, and lastly, I would say to those of my customers who are indebted to me on account, previous to the 30th of Decr. 1840, will please make settlement forthwith.

W. L. COLEMAN.

June 3

FOR SALE.

A BILLIARD TABLE, of Charleston manufacture, never yet been in use, and inferior to none in the city of Charleston. It is bound with solid brass, silver plated, and was built for a gentleman in Georgia for \$350. It will be sold a bargain, as the owner is in want of funds at present. Apply for further particulars at the office of the Spirit of the Times, Charleston, May 29.

The Savannah Georgian, Edgefield Advertiser, and the paper at Forsyth, Ga., will please copy the above three times, and address W. P. at this office.—Spirit of the Times.

NEW GOODS.

JOHN O. B. FORD, HAS just received from New York, a full stock of fashionable

Spring and Summer Goods, Containing, beside his usual supply of Staple, Domestic Goods, a handsome assortment of fine Lawns, Muslins, and Lace Goods; Super London Light Prints, fashions of 1841; Printed Swiss Muslins, and Printed Lawns; Damask Satin, Embroidered Lace, and Faint Shawls; and of all kinds of Fancy Goods, his assortment is more than ever varied, and complete. To those acquainted with his estimate of "an assortment," he deems this sufficient without an enumeration of articles—fresh supplies being received by almost every arrival.

Country Merchants supplied at unusually low rates. Hamburg, April 5, 1841.

BOOK & JOB PRINTING

OF Every description executed with neatness and despatch, at the Office of the EDGEFIELD ADVERTISER.

PROPOSALS

For publishing by subscription, at Edgefield, C. H. A Semi-Monthly Agricultural Paper, entitled

The Plough Boy.

IN presenting to the public a Prospectus of an Agricultural Paper, the subscriber is well aware of the many objections which will be started against it; such as often frighten the most sanguine, and generally terminate the existence of such periodicals, before their intrinsic value is fully made to appear. Knowing all the inconveniences which must necessarily arise, in bringing out a work of this nature; but, having received assurances from a number of gentlemen, well skilled in the Science of Agriculture, of their assistance in his undertaking; he hopes to be enabled to nurse it through its infancy, and by the aid of our enlightened Agriculturists, he has but little fear that it will eventually reach maturity.

That such a work is wanted, in this section of our country, none will deny. No Agricultural paper is at present published in this State, and those published at a distance, are difficult of access, to most of our Planters and Farmers, on account of the heavy charge of postage, and uncertainty of the mails.

The Plough Boy will be entirely devoted to Agriculture, and all exertions will be made to give the best selections from other papers, and to obtain Original Communications from our oldest Planters and Farmers, on that subject. No pains will be spared to make it a complete Text Book for Southern Agriculturists.

WM. F. DURISOE.

TERMS:

The Plough Boy will be published Semi-Monthly, and each number will contain sixteen pages, royal octavo; making a volume of four hundred and sixteen pages, yearly, exclusive of an Alphabetical Index, at the end of each volume.

The first number will be issued on the first Saturday in July, and mailed regularly to subscribers.

The price of subscription will be \$1 50 per annum, four copies for \$5, and ten copies for \$10; payable in all cases, in advance.

The last page of THE PLOUGH BOY will be reserved for the insertion of any Advertisements which may be sent, relative to Agriculture, but none others.

Postmasters are requested to act as Agents for the work; and all persons wishing to subscribe, will please forward their names and Post Office by the 25th of June.

All letters addressed to the publisher must be post paid.

May 6

LOOK AT THIS.

WE will sell at public auction, on Wednesday the 21st of July next, if not previously disposed of, our STEAM MILL in Edgefield district, and the tract of Land on which it is situated, lying on the Mortentown road, forty-three miles above Hamburg, and seven miles below Cambridge; together with all the property on the premises, consisting of horses, mules, oxen, cows, hogs, wagon to carry logs, and carts.

The Mill is capable of cutting from 2500 to 3000 feet of lumber per day; and we have had a demand for the same, which we have had no means to meet, and we feel confident in saying that such will continue to be the case, as it is situated in the margin of the pine woods, adjacent to a wealthy section of country, which is almost destitute of pine suitable for building.

The situation is elevated and healthy, and well calculated for a public stand; there is on the tract of land an abundance of timber, and about three hundred acres, which is deemed almost equal to any lands in the district, in point of fertility, of which about sixty acres are in cultivation.

There is also on the premises a large Carpenter's shop, Blacksmith's shop, stables and crib, (framed,) together with other buildings. Those that may wish to purchase, would do well to call and examine the property for themselves; and if they should wish to make a private contract for the same, we would refer them to Henry R. Williams, who is on the premises, or either of us, who can be found near Milton Post Office, Laurens district.

We will furthermore state for the information of those that might wish to purchase the Engine, without the other property, that we will sell it alone; the engine is thirty-nine horse power, as computed by Mr. W. B. Lockwood, the Engineer who set it up; and is capable of driving one slab saw, one gang of 12 saws, and one set of grubs; as the times is hard, and money scarce, we will take negro property in exchange for it; women and children would be preferred, or sell it on a credit of one, two and three years, the purchaser giving approved notes.

WILLIAMS & GRIFFIN.

May 10

MOFFAT'S

LIFE PILLS, & PHENIX BITTERS.—The perfectly safe, unerring, and successful treatment of almost every species of disease by the use of MOFFAT'S LIFE MEDICINES, is no longer a matter of doubt, as a reference to the experience of many thousand patients will satisfactorily prove. During the present month alone, nearly one hundred cases have come to the knowledge of Mr. Moffat, where the patient has, to all appearance, effected a permanent cure by the exclusive and judicious use of the Life Medicines—some eight or ten of these had been considered beyond all hope by their medical attendants. Such happy results are a source of great pleasure to Mr. M. and inspire him with new confidence to recommend the use of his medicines to his fellow-citizens.

The LIFE MEDICINES are a purely VEGETABLE preparation. They are mild and pleasant in their operation, and at the same time thorough-acting rapidly upon the secretions of the system—carrying off all acrimonious humors, and assimilating with and purifying the blood. For this reason, in aggravated cases of Dyspepsia, the Life Medicines will give relief in a shorter space of time than any other prescription. In Fever-and-Ague, Inflammatory Rheumatism, Fevers of every description, Sick Headache, Heartburn, Dizziness in the Head, Pains in the Chest, Flatulency, impaired appetite, and in every disease arising from an impurity of the blood, or a disordered state of the stomach, the use of these Medicines has always proved to be beyond doubt greatly superior to any other mode of treatment.

All that Mr. Moffat asks of his patients is to be particular in taking them strictly according to the directions. It is not by a newspaper notice, or by anything that he himself may say in their favor, that he hopes to gain credit. It is alone by the results of a fair trial. In the reader an invalid, and does he wish to know whether the Life Medicines will suit his own case? If so, let him call or send to Mr. Moffat's agent in this place, and procure a copy of the Medical Manual designed as a Domestic Guide to Health, published gratuitously. He will there find enumerated very many extraordinary cases of cures; and perhaps some exactly similar to his own. Moffat's Medical Office in New York, 375 Broadway.

For sale by

C. A. DOWD.

March 18.

Notice

IS HEREBY GIVEN, that application will be made, at the next session of the Legislature, for an amendment of the Charter incorporating the Town of Edgefield.

P. F. LABORDE, Intendant.

May 10, 1841

The Limestone Springs OF SPARTANBURG DISTRICT.

THE Subscriber having rented this Establishment, will open the same for the reception of Company for the Summer. This salubrious watering place yields to none in the Southern States for attractions, which should induce those travelling for health or pleasure to make it their resort. The accommodations are ample for 300 visitors—families can have suites of rooms in the great Hotel, or houses with parlours, or single or double cabins, all of which are complete and most comfortably furnished and furnished. The table and bar will be supplied with the best the country affords, and no pains shall be spared to give satisfaction to the company.

At the Springs is an agreeable and cultivated society of permanent residents. Two excellent academies, male and female, where visitors may put their children to school.

In the Hotel are large and well arranged public rooms, a band of music attends for those disposed to dance. The bar will be well supplied, and abundance of ice has been stored up for the season.

These Springs are situated 25 miles from Union Court House; 20 miles from Spartanburg, 25 miles from Yorkville, 25 miles from Glenn Springs, and 22 from Wilsons White Sulphur Springs, being the central point to them all. The waters of the Spring are limestone, highly charged with carbonic acid gas, and are as light, pure and delightful to the taste as water can be. They possess decided medicinal virtues, especially in cases of dyspepsia and liver affections. There are besides the limestone, too strong chalybeate springs of equal efficacy in restoring strength in cases of debility.

Baths, cold and warm and shower, shall be always ready at a moment's notice.

The locality is one of the most healthful in the world. The country around it possesses many attractions in its beautiful scenery, its historical associations, and in the manufactures which are springing up all around it. The battle fields of Blackstocks, Cowpens and Knapmountain are all near enough for a pleasant excursion—and the prospect from Gelkin mountain takes in a large part of four districts, and embraces many views of highly picturesque and beautiful scenery.

Since the last Summer, the roads leading to these Springs have been put in order, and the bridges repaired and repaired. A new bridge has been built at the Nesbit Iron Works over the Broad River, and no difficulty now exists for travellers—a line of stages runs twice a week from Spartanburg by these Springs to Lincoln—another twice a week from Union Court House, and a horse mail to Yorkville.

There is always on hand a supply of burnt lime of the best quality.

The Carolina, Pendleton Messenger, Augusta Chronicle, Greenville Mountaineer, Edgefield Advertiser, Winway Intelligencer, Camden Journal, will please insert the above once a week for two months, and send their accounts to the subscriber at Limestone Springs for payment.

J. C. JENNY.

May 28

GENERAL ORDERS.

HEAD QUARTERS, COLUMBIA, May 12, 1841.

(General Orders, No. 4.) JOHN P. MARSHALL, Esq., having been appointed Aide-de-Camp to His Excellency Governor Richardson, with the rank of Lt. Colonel, will be obeyed and respected accordingly.

By order of the Commander-in-Chief. ARNISTEAD BURT, May 20, 1841.

Notice.

JOHN M. WEATHERFORD, living one mile and a half East of the Red Hill, tells before me, a small mouse colored mare MULE, supposed to be about thirteen hands high, and twelve or fifteen years old, some marks of gear, with stripes around the legs and across the withers, moves a little stiff in the left hip, no other flesh marks visible. Appraised at fifteen dollars.

JOHN HILL, J. P.

April 30, 1841.

MOFFAT'S

Vegetable Life Medicines.

THESE Medicines are indebted for their name to their manifest and sensible action in purifying the springs and channels of life, and ending them with renewed tone and vigor. In many hundred certified cases which have been made public, and in almost every species of disease to which the human frame is liable, the happy effects of Moffat's Life Pills and Phenix Bitters, have been gratefully and publicly acknowledged by the persons benefited, and who were previously unacquainted upon which they are compounded, and upon which they consequently act.

The Life Medicines recommend themselves in diseases of every form and description. Their first operation is to loosen from the coats of the stomach and bowels, the various impurities and crudities constantly settling around them; and to remove the hardened faces which collect in the convolutions of the smallest intestines. Other medicines only partially cleanse these, and leave such collected masses behind as to produce habitual costiveness, with all its train of evils, or sudden diarrhoea, with its imminent dangers. This fact is well known to all regular anatomists, who examine the human bowels after death; and hence the prejudice of those well informed men against quack medicines—or medicines prepared and heralded to the public by ignorant persons. The second effect of the Life Medicines is to cleanse the kidneys and the bladder, and by this means, the liver and the lungs, the healthful action of which entirely depends upon the regularity of the urinary organs. The blood, which takes its color from the agency of the liver and the lungs before it passes into the heart, being thus purified by them, and nourished by food coming from a clean stomach, courses freely through the veins, renews every part of the system, and triumphantly mounts the banner of health in the blooming cheek.

Moffat's Life Medicines have been thoroughly tested, and pronounced a sovereign remedy for Dyspepsia, Flatulency, Palpitation of the Heart, Loss of Appetite, Heart-burn and Headache, Restlessness, Ill-temper, Anxiety, Languor and Melancholy, Costiveness, Diarrhoea, Cholera, Fevers of all kinds, Rheumatism, Gout, Dropsies of all kinds, Gravel, Worms, Asthma and Consumption, Scoury, Ulcers, Inflammatory Sores, Scorbatic Eruptions and Bad Complexions, Eruptive complaints, Sallow, Cloudy, and other disagreeable Complexions, Salt Rheum, Erysipelas, Common Colds and Influenza, and various other complaints which afflict the human frame. In Fever and Ague, particularly, the Life Medicines have been most eminently successful, so much so that in the Fever and Ague districts, Physicians almost universally prescribe them.

All that Mr. Moffat requires of his patients is to be particular in taking the Life Medicines strictly according to the directions. It is not by a newspaper notice, or by anything that he himself may say in their favor, that he hopes to gain credit. It is alone by the results of a fair trial. These valuable Medicines are for sale by
