FOR PRESIDENT : JOHN C. CALHOUN,

Mr. Carry .- This zealous and able Lecturer in the cause of Temperance, arrived in our village on Sunday last, and on Monday evening delivered an elequent Lecture, to a large and respectable meeting of our citizens, whom, from the manger in which they received the Lecturer's remarks and witty anecdotes, no doubt, felt sensibly the truths that he laid open to their view. Mr. Carey will deliver his last Lecture in this village, on this evening, as his arrangements will not permit him to tarry longer among us. On Thursday, the 11th inst., he visits Hamburg ; on the 15th Augusta; on the 18th the Beach Island Temperance Society; on the 19th Aiken; on the 22d Barnwell; on the 25th Blackwell; on the 25th Branchville; on the 29th Walterborough ; on the 5th of June Orangeburg ; and on the Sth Saint Matthew's Temperance Society.

Virginia Elections.-The Charleston Mercury, of the 5th inst., says: that "it is now highly probable that Goy, Gilmer (Den.) is elected. and that G. H. Gilmer (Whig) is defeated by Coles. But the result in the first District (Norfolk) is more doubtful than ever. The Whigs have not carried the House of Delegates, though they have come too near it."

The Richmond Enquirer of the 1st inst. ap pends the following remarks to its latest election news.

"And now for the summary of this impor tant Postscript The returns received last evening, save us, we think, four more Democratic members of Congress, and among them, the statutch and able Waiter Coles, and T. W. Gilmer, whom the Whigs have, in vain, at-tempted to cut down, and whose defeat we anated, with great regret, in our estimates, in another previous column. The indomitable Steenrod, of Ohio District, goes back to Congress, and we think we may count with confi-dence on the election of that fine and worthy fellow, Gen, Chapman, of the Montgomery District. It gives us, also, our excellent friend Wallace, as Senator from Fauquier and Prince William. And in the House, it secures us those fine fellows, Taliaferro, and Muse of Franklin; Blue, and Ward of Hampshire; Wade of Montgomery; we trust, Davis o

King and Queen; Young, and Powell of Am-herst; and gives us in all probability, the Re-publican Eastham of Rappahannock. ... Thus, we shall have a decided majority in both Houses, and a glorious majority of Representatives in Congress. The only Districts sentatives in Congress. The only Districts yet to hear from, are the 13th, (Hopkins's) and 14th, where Hayes, [D.,] and Summers, [W.,] are the contending candidates. "Considering all things the stries are bright,

last says :- "We have not as yet any full returns of the elections, but last evening's mail brought sufficient information to state, that the democratic party will have a uniority in both branches of the Legislature, and that out of fifteen members of Congress, the following democratic candidates have been elected :

"Messrs. Atkinson, in the first district; Dromgoole, in the second; Coles, in the third . Hubard in the fourth; T. W. Gilmer in the fifth; Jones in the sixth; Wise, in the seventh; Lucas, in the tenth: Taylor, in the eleventh : Chapman, in the 'twelfth; Hopkins, in the thirteenth ; Steenrod in the fifteenth.

" The why candidates elected are Mosses Newton in the eighth district, and Chilton in the nuth.

"No positive return from the fourteenth district, in which Mr. Hays is the democratic, and Mr. Summers the whig candidate."

Hail Storm .- We leafn that a tremen lous Hail Storm was experienced in the lower part of Pulaski county on Wedneslay the 12th inst. The hail fell so beavy as to tear of the shingles of a number of houses-and in such quantities that a great deal was remaining in the ground the Sonday following. Owing to the back-warfness of the Spring, the cotton and corn was not generally up, or the injury have been immense. We have not would heard how far the storm extended .- Ma-con Telegraph, 25th ult.

The letter adds that all the houses have an inclination from the perpendicular.

Western Emigration .- Here is a para graph, taken from the Cincincati Gazette, that gives one some idea of emigrating west :--

It is a curiosity to see our steamers sometimes when full. They appear ofien as if they were made for the same purpose of Noah's Ark. The Goddess of Liberty. in a late trip to St. Louis, looked like one. She was literally covered and crammed wich passengers, horses, cattle, hogs, dogs, furniture and freight, having on board upwards of 400 men, women and children more than sixty borses and hogs, about 170 dozen chairs, 40 warons aud carriages, about 600 tons freight in the steamboat. and a freighted keel boat in tow. A child was born on the passage, seven pigs and a calf ? So much for emigrating west.

Temperance Meeting .- A large and respectable, as well as very interesting meeting of the Washingtonian Temperance Society was held at the Carolina Hall on Monday evening; at waich Judge O'-Neall, the great aposile of Temperance in this State, delivered a very able and instructive address highly cacouraging to the Society, in its illustrations of the progress of the good cause. In the course of it he was 21,834 bales, viz: in Hamburg, 4,962; in strongly andeloquently rebaked the slande. against Mr. Carey, the celebrated Lecturer on Temperance, of being connected with the Abolitionists; shewed that it was designed, doubtless, to impede the Temperance cause ; and pledged himself persoually for the utter falsity of it, and the anti-Abolition principles of Mr. Carey. Mr. Carey himself, being present, vindi cated himself from the charge, and daivered a very interesting and effective address in bohalf of total abstinence. Hissimple, plain, unaffected manuer, together. with his evident honesty and sincerity, and zealous interest in the cause, well qualify him for a pioneer in it, and have rendered him emineutly successful as such.

Silk Dress .- Silk, being a non-conductor of electricity, is an excellent material for dress. One of the primary causes of the languor which is felt in damp weather is said to be the damp atmosphere robbing us of our electricity, which a medical writer calls the buoyant cordial of the body. . Those, therefore, who are apt to be spiritless in damp weather, are recommended to wear silk waistcoats, drawers, the lining of sleeves, cloaks, coats. coverlets, &c. The hint is at least seasonable in this gloomy season.

Georgia Silk .- We have been favored with the following extract of a letter from Mrs. McLauaham, a lady in Philadelphia. engaged in reeling silk, to a gentleman in Cainden county. The worms were fed on trees planted on worn cotton lauds. Those who, in our State, are not disposed to despond under discouragements which attended an embarcation in that business, will eventually, by perseverance, reap, we trust, that reward which ever attends enlightened euterprise :

"In reference to the coccons you sent to be recled, she apologizes for the great length of time she has bad them on hand. but hopes you will excuse her, when she says that they were so much superior to these raised in the vicinity of Philadelphia, that she exhibited them to the Franklin Institute, and was solicited to manufacture out of them a piece of satin, and was thereby delayed in procuring a satia loom, for which she waited three months, and on obtaining it, found it not to answer and was unable to procure one in the city. She writes that she finally made it into blue-black Gros de Naples, and supposes that you might probably wish to have a dress of it for your lady at \$1 25 a yard, at which price she is selling it. She appears quite clated at the idea of wearing a domostic Silk Gros de Naples."

LIVERPOOL, April 7. Cotton Market .- Since the receipt of the accounts by the Great Western steamer, from New York, on Saturday, the demand bas abated, and the market has lost the animation which previously existed : no change of me ment has yet taken place in prices, ith is the utmost extent of the decline, and though not very general, the middling and lower qualities being the most influenced.

HAMBURG, May 2. Cotton.—The receipts of cotton the last month for Hamburg, amounts to 2416 bales, and in Augusta. 6,199 bales; making total re-ceipts in April, 8,815 bales. The stock of cotCHARLESTON, May C.

CHARLESTON, May C. Cottou.—The receipts of Upland for the past week, have exceeded those of the week pre-vious by about 1300 bales. They amount to 4,763 bales, of which 2608 by water and 2095 w, Rall Road. Exported in the same time 3742 ales, leaving on hand a shipping stock of 18,-646 bales exclusive of 4610 on shipboard not cleared. From actual survey at the close of the market yesterday, we have ascertained that the amount in sellers hands reaches about 12,800 bales, of which near 6000 are under 12,700 bates, of which near 6000 are under limits, for higher than the present market pri-ces. The operations of the week have been large, considering the smallness of the stock-they amount to 7326 bates, at the following daily transactions .- On Saturday, 1799: Mon day, 905; Tuesday, 1492; Wednes dny, 1556; Thursday, 1065; and yesterday, 500 bales.-Holders, during the whole week, proved them-selves exceedingly stiff, and which gradnally resulted in an improvement of prices, more particularly on the lower descriptions, and as our altered quotations below will show. The 6 days later accounts from Liverpool, which reaching us catly on Thursday morning via New York, and which were rather of a more unfavorable nature than those previously received, produced no similar effect on our mar-Sales ranged from 5 to 71 cts. per lb .-Mercury.

PROPOSALS For Publishing in the City of Charleston, a ?e-riodical to be entitled THE TOKEN, AND ODD FELLOWS

MAGAZINE. THE Subscribers propose publishing a Pe-riodical to be devoted to the interests of Odd Fellowship, with the above title. The rapid increase of the Order, in this State, and its probable extensive spread in the adjoining States, seem to call for the establishment of such a work in South Carolina, which shall be the exponent of the principles of the Order, and a medium of communication between the Bro-therhood. While the general interests of the Order at large are confined to " The Covenant." the North has its " Roinbow," the East its "Symbol," and the Ancient Dominion " The Independent Odd Fellow," the Palmetto State should not be without its organ, through which the knowledge of an institution which has attracted no small share of public attention, may he advantageously made known to our fellow

citizens. While the prominent object of "The Token," will be to set forth and defend the principles of the Order, and to convey to the members such the Order, and to convey to the members are intelligence of its progress and operations as may be deemed interesting, a portion of its pages will be devoted to general Laterature, so as to make it worthy of the Bondoir, and the secure to us the sindles and approbation of the fair sex, whom we are particularly desirous to please. We therefore wish the proprietors success in their undertaking.

The negroes were valuable, and belonged to Messrs. Charles & Robert Collins.

Teniperance cause in Georgelown .- Mr. Carey, the innerant temperance preacher delivered his first lecture here on the 22d. February and formed a society of whites which now numbers more than two hundred members . Subsequently one or two societies have been formed among the colored people of whom we understand that near 500 have taken the pledge. The re formation is palpable, and a close obser-ver remarked to us yesterday that he had observed but one soutish drunkard in the last three weeks,. The population of our town is about 2400 scals-and in 1837, there were 190 Hogsheads of whiskey sold there were 190 Hogsheads of whiskey sold in the phace by retail, to say, nothing of that good prices will be maintained, sufficient the more costly liquors. The quantity last year did not exceed 100 barrels at retail, and the prospect now. is that 50 barrels will be enough for the current year. This is still room enough for the most zealous of the reformers .- Observer.

Marriage Extraordinary .- Our readers enerally, we suppose, have seen the cele brated Siamese twin brothers, who were evhibited is this as well as all the principal cities and towns of the country, and who subsequently purchased a farm in North Carolina, on which they at present reside. Their marriage is thus announced by a correspondent of the N. Y. Courier. "On Thursday, April 13, were married at Wilkes Co., N. C., by Elder Colby

extent from wagons and out warehouses. To day, prices are steady with an advance on last week's siles. Our quotations are 44 to 7 cents as extremes; principal sales at 54 to 64 cents. Notwithstanding the heavy arrivals for April in this market, we look for a much larger supply the present month, as we usually have more cotton in at this time, than the month preceding .- Journal.

AUGUSTA, May 4.

Remarks .- The markets whence we leve heard are represented as having improved, since the arrival of the advices by the Britan nia. We shall linear in a few days the effect those advices have hgd on the cotton markets of Mobile and New Orleans. We must calculate on an advance, as-prices were very firm by last accounts. The improvement, however, in the cotton markets, as we observed last week, is not so much to be ascribed to a greater demand for 'the article, as the revival of trade, produced by greater confidence in commercial operations. It is well known that the supply of the raw material will amount to more than the consumption of 1841; but it is anticipated, that, owing to a revival of trade and unfidence, an increased consumption of cot ton goods will necessarily occur. inasmuch as the lower classes in Europe will have obtained more means to clothe theorselves better than they have been able to do for some years past. It is then reasonable to expect that the stock of cotton in Europe at the beginning of next year, will not be so large as it has been esti-mated, though it will be large enough to prevent any material advance in prices . Dealers in cotton and planters should, therefore, be on their goard, in order to escape all disappoint to remonerate the planter for his capital and labor. If in Europe trade and confidence be-gin to revive, and will in a short time be entirely restored, we have no doubt that in this country the same prospect is before us. In the north trade has assumed a more wholesome aspect; there is less epeculative notions in commercial operations, and credit is more cau tionsly given, and less extravagantly granted. This better change in all trading transactions will have the beneficial effect of restoring con-fidence in all classes of the community. The manufacturing districts of the country begin to feel this revival of business. Shipments have been made from the north of manufactured goods to the East Indies and China, and even a particular kind of cotton goods has been shipped to England.

Cotton .- Since last Thursday the market has been generally active, a good freling among holders and purchasers manufained, and the prices of the week easily obtained, with an aders, 16 Misses Sarah and Adelade. daugh. vance of about & of a cent on all qualities.
