[From the National Intelligencer.]

Important from the West, (if true.)-From the second number of a new paper just established at Batesville, in Arkansas, by the title of "The North Arkausas," under date of August 9th, we copy the following:

"Important from the Indian Nation .-The following letter, from any intelligent citizen of this vicinity, now in the West, contains most important information. It will be recollected that Rridge was killed about two years ago, by the adherents of the Ross party. The death of Ross was doubtless an act of retaliation. It must result in a serious difficulty : BEATTIE'S PRAIRIE, (ARK.) July 15.

'To the Editor of the Arkansas : DEAR SIR :- All is consternation here

among the Cherokees: John Ross is killed A gentleman direct from the neighborhood of Ross, arrived here a few hours ago with the news. The truth of the report is not doubted here. The particulars are not, as yet, ascertained."

No doubt is expressed by the publisher of the truth of this information. Until it is confirmed, we may be allowed to hope that it is not true, though circumstances induce the apprehension that it may be. The death of such a man as Ross by violence would be of itself an event to be deplored; but, when his position of Chief of his Nation, and the consequences which are likely to flow from such a catastrophe are considered, it would be deeply to be lamented.

For the Advertiser.
CELEBRATION AT GERMANVILLE,

At an early hour of the day, agreeable to public notice, a large and respectable assemblage collected at the place appointed in numbers not less than 6 or 800 persons, accompa-nied by a large concourse of the fair sex of the district, with their usual smiles and shining fa-ces, to make man the more light hearted to take an interest on such an occasion.

At 12 o'clock the Orator of the Day, Dr. G.

M. Bates delivered a most stirring and spirited tress, after which the Band of Music marched the company from the stand to a most sumptuous repast, prepared by Mr. Wm. Corley, where was found all the delicacies that the surrounding district could afford, and prepared in a style not to be surpassed, of which the com-pany partock in right hearty style

After the cloth was removed, the following

Toats were drank. REGULAR TOASTS:

Our City.-The truth is, we need more mcrchants in Hamburg to do business. We should have heavier stocks of goods of all kinds, in order that planters and others can make better selections, and at cheaper rates. The business | him moving."

should be divided more than it is at present. There is trade enough to keep several more houses in employment. While our sister city receives but little over half as much cotton as comes to Hamburg, there are over twenty times as many mercamile houses; and it i plain that if they do well, our merchants ought to do a great deal better. Augusta has other trade than that of cotton; so has Hamburg .--Hamburg Journal.

The Season and the Crops .- The Rice planters at the head of tide way on the Pee Dee and Santee have escaped the late freshets, and to good banks and trunks many of them owe it. We have had the fullest tides for the last four days, and so high have they been owing to the S. E. wind, that many fields would have been submerged, if the trunks or the banks had vielded. The tides lessened vesterday as to height, and the danger is over. The rice crop is nothing over an average one Several planters will commence harvest ing the latter part of the week. John Izard Middleton, Esq. commences cutting to-day, and expects to get in 70 acres this week, but this he cannot do with safety,

unless the tides lessen greatly.

The Corn and pea crops will be rather short owing to the rains from the 20th of June to the 20th of the present month. There will not be corn and peas proportioned to blades and vines-and in the cotton growing districts, the same cause has made more weed than usual and ics cotton. If we have a late frost, the potathe crop will be ordinary. It is not good now,-Georgetown Observer.

The Weather .- We have continued wet weather. It has been injurious to hay, particularly where it was not saved early but since the acquaintance with the country, we have never seen so fine a prospect of corn. In truth, there were more people engaged, and more hard work done through this section of the country, during the past spring and the present summer, than we have ever known in one season before. This is the true remedy for hard times. Keep at it, economise well, and there will be no dangers as to a profitable and prosperous result .- Ashrille (N. C.) Messenger, 25th ult.

Rattle-Snakes .- Mr. Charles H. Lance and Mr. Nelson Israel while looking after cattle last week on the mountains at the head of Avery's creek in this county, found a den of rattle-snakes, upon which they made war and succeeded in killing thirtyfour! Some of which were as large as were ever known killed in this country .-

Counterfeit Mexican Dollars .- Henry Matson, an individual accused of uttering counterfeit Mexican dollars, was examined yesterday before Recorder Baldwin. Mr. L. U. Gainnie acted as counsel for the accused. The evidence established clearly that the prisoner had received the counterfeit money in good faith, and had circulated it in total ignorance of its being largely mingled with spurious alloy. He was accordingly discharged.

Fifteen dollars of the money was essay. ed by Dr. Riddel, several were found to contain 52, 53, 54, and 55 cents of silver. and the rest copper; others were composed of nickel and copper. From the testimony elicited it seems probable that the money was actually issued from the Mexican mints. We can scarcely believe that the government has ventured upon the ruinous and disgraceful experiment of debasing her coin .- N. O. Bee.

From the N. Y: Journal of Commerce.

Mr. Calhoun-Always manly in fee ing and powerful in intellect, once the idol of the nation .- Mr. Calhoun has been treated, for some years past, by the presses of the North, with taarked neglect, and worse than that, marked misrepresentation. He might have been President after Gen. Jackson if he would have with their smiles and blooming faces. 6 cheers. stooped to little things, and those not so
VOLUNTEER TOASTS little nor so mean as politicians, are aclittle nor so mean as politicians are acory of customed to resort to. But he would no compel Mrs. Calhoun to invite into her society a woman whom the opinion of Washingtond had excluded, and this piece of manliness thrust him out of the succession, and brought Mr. Van Buren in.

His virtues have always drawn out the

enthusiastic admiration and love of his friends. "Tell me," said a leading Whig of this city some months ago in conversation with Mr Preston, on Mr. C's. wonderful popularity at the South?" "It is the purity of his character," replied Mr. P. "no man ever becomes acquainted with him who does not love him." This was generous praise from a generous opponent. Mr. C.'s noble stand last year in favor of law and order in Rhode Island, when some other interests in the democratic party were meanly and wickedly urging on the dogs of civil war, has done something to soften the prejudices against him which the tariff controversy had engendered. He is again brought forward as a candidate for the presidency. His consistent moral and religious character, his great talents as a statesman, and his life of manly parriotism, will ensure him a host of ardent friends, so long as there are men in the republic to admire these quailties. The letter which we print to-day, is a specimen of the man. He does not disguise that his opinions have somewhat changed since his entrance on public life. -Whose opinions have not changed in thirty years? Most of our prominent statesman have boxed round the Com pass in that time. Not one of them has changed less than Mr. Cathoun.

Keep him moving .- The Cleaveland Plaindealer, says: " Henry Clay visited Ohio during the last Fall campaign, addressed 150 thousand Buckeyes at Day ton. The vote of the State was changed from 23,000 whig in 1840, to 3,000 demperatic, making a gain of 26,000. A few months before the election in Louisiana, Mr. Clay made his grand entre into New Orleans, and harrangued the multitudes there assembled for several days. The result is told in the triumphant election of every democratic candidate for Congrees, sweeping the State like a prairie fire and frightening the coons into a cold sweat.

He is next to visit North Carolina .-Hope he will go by way of Vermout. Rhode Island, and the Jarsies. Keep

What is in the wind now? -We had a visit the beginning of this week from that enterprising old cirizen of Georgia, Henry Shultz. Mr. Shultz is not the man to publish his business to every one, or to any one before it is matured. He only stated that he came up by Macon to see Griffin and the Rail Road, and was going back by Madison. He was much pleased with the grading of the road, spoke feelingly (and sympathetically, no doubt) of Gen. Griffin; and expressed himself with warmth as to the future wealth and prosperity which would flow through the road to the metropolis of Georgia. We wish some of the Directors of the Central and Monroe Roads had been by, when he was discoursing upon the utility of low prices, active business and spirited competition. He would have crowded some of their picayane notions sprang out of their little neads (no offence, gentleman.) Mr. S. stayed in Griffin but one day, and took his departure the next morning for Madison. Georgia Jeffersonian

How they live n Great Britain .- In the United Kingdom, it has been proved that there are 19.0(a).000 of the people who are not consumers of wheat ; 500,000 consume seven ounces daily; 1,500,600, ten ounces; 3,000,000 fourteen ounces; 3,000,000, seventeen ounces; 4,000,000, twenty four sunces daily. This gives 17-600.000. Then there are 4.000.000 who live on ontment, and 10,000,000 who, to use the words of Rev. Sidney Smith, rejoice in potatoes." And this is the way human beings live in aristocratic Great Britain.

Facts for the Skeptical .- In four groups of Islands in the Pacific occean, where thirteen years ago, the people were idolaters, and most of their cannibals, there are now 40,000 members of Christian church s. In one district in Southern India, the Church Missionasy Society have 19,003 candidates for baptism, and 693 communicants. In New Zealand, in a district of the Island, the average attendance of the natives upon divine worship is 7, 417; candidates for baptism 1,400; native Christians, 878 .- By the labors of Missionaries of the American Board, 59 churches have been gathered among the heathen, embracing about 20,000 mem-

LAND FOR SALE.

HE subscriber offers for sale, a valemble tract of land, situated 8 miles from Edgefield, C. H., on the Stage road to Abbeville, extending to the Martintown road between which roads there is a desirable situation respectfully improved, the tract contains about five hundred acres, and over one half vet in forests, and is well watered having several never failing springs on it. To an approved purchaser a great bargain will be WM. BRUNSON. Aug. 23

[CIRCULAR.] To Planters & Merchants. BEG leave to inform you, that I continue the WAREHOUSE and COMMISSION BUSINESS at my old stand, known as the WATER-PROOF WAREHOUSE. Detached as it is from other buildings, its location renders it nearly as secure from fire, as if it was fire-proof. The floors have been elevated above the high water mark of the great freshet of

May. 1540. Planters will thus be secured from the possibility of loss and damage by freshets.

I avail inyself of the present occasion, to re-turn my thanks to my friends and patrons, for their liberal support during the past season. I solicit from them and the public generally. a continuance of this confidence, and assure them that in return for their patronage, I will use my best personal efforts to promote and protect their interests, committed to my charge. addition to this assurance, I pledge myself that I will in no case purchase a bale of cotton, directly or indirectly. I will attend personally to the sale and forwarding of cotton to Savannah or Charleston; also, to the sale of Bacon, Flour, &c. &c., and to the receiving and forwarding of goods to the up-country. Having a fine wharf attached to my Warehouse, no wharfage will be charged on cotton to my care, either for sale or to be forwarded to Savannah or

Charleston. My commissions for selling cotton, will be 25 cents per bale, and 124 cents for forwarding. I will also attend to the buying of goods per order.

Very respectfully, yours, &c Hamburg August 2, 1843 6m August 9
