

**Methodist Conference.**—We learn from the Bowling Green (Ky.) Gazette that this body after a session of eight days in that place, brought its labors to a close on Thursday evening last, the 19th ult.—The course of the delegates in reference to the question of slavery, in the case of Bishop Andrew and Mr. Harding, of the Baltimore Conference, before the General Conference in May last, was by resolution, unanimously approved of. Dr. Bascom, was heard before the adoption of this resolution was in reference to the difficulties to the Church growing out of the Slavery question. His address, which was written occupied about four hours in the reading, and is said to be eloquent, resistless and overwhelming. A series of resolutions based upon the Abolition action of the General Conference, was adopted, in which was recommending a general Convention of the Southern portion of the Methodist church at Louisville in May next.—The following gentlemen were elected delegates to that Convention viz:—Messrs. Stevenson, Kavanaugh, Bascom, Crouch, Gunn, Brush, Geo. Taylor, J. Harrison, McCrown, Ralston, J. King, J. James.

We some weeks since, re-published a toast once given by Gen. Thompson in this district as follows:  
"The acquisition of Texas.—The most effectual, if not the only means of settling the slave question."

If the ex-minister has, in any of his recent speeches in favour of Mr. C., assigned a reason for his change of opinion, we have not heard of it. His letter against annexation, takes the ground that Mexico should, at all events, be consulted. In 1837, the General, then a member of Congress, introduced the following amendment to the appropriation bill: "For the salary and outfit of a diplomatic agent to be sent forthwith to the independent government of Texas, thousand dollars." And, "For the expense of running a boundary line between the United States and the independent government of Texas, thousand dollars."—*Pendleton Messenger.*

**Whigs and Abolitionists.**—We have already published enough to inform our readers of the efforts made by the Whigs to prop their sinking cause by gaining over the ultra-abolition party. The latter have rejected the overtures and in their recent Convention have put forth their own candidates for the Presidency and Vice Presidency; giving as their main reason for it, Clay's last letter on Texas. Poor Clay! If there were any end to his last letters, we should say he had got to the bottom of the ladder.—*Charleston Mercury.*

For Congress in this State, we have as yet heard of no opposition to Messrs. Black, Woodward, Burt, Rhett and Holmes, now representatives. In Col Campbell's district, (he having declined a re-election,) Gen. John McQueen and A. D. Sims Esq are candidates, both democrats. In our district the present representative, Hon. R. F. Simpson, is opposed by Dr. Butler, whig. We have no doubt of Simpson's election by a large majority.—*Pendleton Messenger.*

**Projects of the Democrats of Old Pendleton.**—In conversation with an intelligent citizen of Anderson, we were gratified to learn that the democratic Ticket for State Legislature will succeed in spite of the efforts of the ex-Minister Tompson, and ex M. C. Butler, and the other small potatoe politicians about Anderson, by a majority of from two to four hundred, and the Congressional Ticket by 1,500.—*Abbeville Banner.*

**New Whig Allies.**—Gen. Apathy, Gen. Dismay, Gen. Disappointment, and Gen. Defeat have embraced Whiggery, and are now stamping it all over the Union, for the great military chieftain, Gen. Henry Clay, of the revolutionary war.—*St. Jo. Com. Bulletin.*

**Frost.**—The Augusta Chronicle and Sentinel says: "The cool weather of the last few days resulted in a somewhat severe frost yesterday morning heavier indeed, than has been experienced here in many years at this season, and much earlier than is within the recollection of our longest residents. Its effects were quite visible upon tender vegetation."

**The Weather.**—On last Friday and Saturday we had a good prospect for rain, but on Sunday morning it cleared off cold and dry, and we had a slight frost on Monday morning. Our river is lower than it has been for five years, and is un navigable for either pole boats or steam boats.  
*Hamburg Journal 25th ult.*

**Frost.**—On Saturday last we were visited with a cold storm of rain from the North East, which continued nearly all day. At night it cleared off, and the next and two succeeding mornings there were light frosts—not sufficient, however, to injure vegetation. Since that time the weather has continued cool clear and pleasant.—*Greenville Mountaineer October 4.*

**The Crops.**—Since the favorable state of the weather which now prevails first set in, we understand the picking has progressed finely; and we are also much gratified to learn that many plantations from which, some three or four weeks since, they did not expect to realize more than half a crop, will, by this sudden favorable change, be found to produce fair average crops.—*Marion (Ala.) Tel.*

**Loss of Cotton by the Overflow.**—The Concordia Intelligencer, after diligent inquiry for correct data, estimates the loss of cotton by the late floods in Louisiana, Mississippi and Arkansas to be 139,105 bales!

**Appointments.**—The Madisonian of Saturday afternoon says: "We understand that appointments have been made by the President to fill the vacancy caused by the death of the American Consul at Liverpool, and also to fill the vacancies occasioned by the deaths of two Pursers in the Navy."

The New-York Herald of Saturday says: "We understand that Mr. Waggoner, nephew of President Tyler—who was a short time since appointed Pursuer in the U. S. Navy, in place of Mr. Uphur, deceased, nephew of the late Secretary.

**Medical College of the State of South Carolina.**—The catalogue of this scientific and flourishing institution, issued in June last, contains the names of 224 students, viz: from S. Carolina 152 Alabama 32, Georgia 20, N. Carolina 11, Mississippi 5, Tennessee 2, Florida 2. The number of graduate at the last commencement was eighty two.

The Museum of the Literary and Philosophical Society has been transferred to the College, and it has been newly arranged and enlarged—contributions of the minerals of this State are solicited, and it suggested they can be sent by the students who visit the city. Opportunities for clinical instruction will be afforded at the Marine Hospital; and the Faculty have established a hospital on the College lot for the reception of cases requiring surgical interference.

Candidate for the diploma of the College must have attained the age 21 years, bear a good moral character, have studied medicine 3 years with some respectable practitioner, have attended two full courses of Lectures, the last in this Institution, and one course of Demonstrations in the respectable thesis or dissertation in the Dissecting room of the College, and offer a medical subject.

Accommodations for board and lodging are steadily improving and are now brought to a degree of economy and comfort, not surpassed in any Atlantic cities—\$4 to \$5 per week.

The session will begin on the 2d Monday of each November, and close on the 1st Saturday of March following.

N. B.—Gentlemen desiring further information will address their postpaid to H. R. Frost, M. D.—*Charleston Courier.*

As an act of justice to all concerned, we this week publish the names of the all the candidates in alphabetical order.

**OBITUARY.**  
Died, at her residence in Edgefield District, Oct. 4th, Mrs. NANCY WILLIS, in the 73d year of her age.  
The deceased had been for several years a consistent member of the Salem Baptist Church. She had been the subject of protracted illness, which she endured with calm resignation and christian fortitude, looking forward to joyful anticipations, when she should be released from all her earthly troubles. She is gone—and left a vacuum among her friends and relatives which cannot be filled. But her loss, we are confidently assured, is her eternal gain. H.

**Commercial.**

**HAMBURG, Oct. 2.**  
Cotton.—We stated last Tuesday that the market for Cotton was much depressed, and the dealers disposed to hold off for awhile. The same feeling still pervades our buyers, and prices are consequently about the same, unless it is when a prime planter's lot is on sale, with an inducement of a good deal of trade; then perhaps will be advanced. The receipts for the last month sum up 3,918 bales, mostly new Cotton, and a large portion of it stored on planter's account. Our quotations to-day are, from 44 to 64 cents, principal sales 54 to 54 cents according to quality.

**October 3.**  
Cotton.—The market has been rather dull for the last week, owing to the limited demand for shipping, and the dull state of the Savannah and Charleston markets, as these markets have, as yet, few buyers, on account of business commencing earlier than usual. Our quotations to-day are, for Old 44 to 6 cents, and for New 5 to 64, according to quality.

**Groceries.**—Our merchants are daily receiving their Fall supply of goods, their stocks are now fair, but will be greatly increased by fresh arrivals during the course of a week or two. The river has been very low, but is now gradually rising, and we may expect a large quantity from that source.—*Republican.*

**AUGUSTA, Oct. 5.**  
Cotton.—This article is a little lower than it was last week, but the decline is so slight as to be with difficulty indicated by figures. We quote 44 to 64, as the extremes of the market, the principal sales being at 5 to 53.

We had two slight frosts lately, but as far as we can learn, they have not done much injury in this vicinity. The river is again low, but there has been two swells in it lately, which have been of great service to the navigation.

**Baggings.**—We have had a brisk demand for this article through the past week. Planters have been supplying their wants freely, which will be considerably larger than they expected a few weeks ago, as it is thought the crop will be larger than they anticipated. Prices are without alteration.

**Groceries.**—There was a fair demand for these articles since our last, as both the trade and retail purchased freely at our present quotations.—*Washingtonian.*

**October 3.**  
Cotton.—Our market exhibits very little activity, principally owing to no doubt to the low state of our river, though our planters are not disposed to offer much of their cotton present prices. A fair demand prevails at our quotations, which are an eighth of a cent below last week's prices. The market ranges at from 4 to 6 cents, requiring a choice article to bring the latter rate. The receipts for the week have been fair, and it will be observed in our table of stock, that the receipts of the month have been unusually large—*Consol.*

**COLUMBIA, Oct. 3.**  
Cotton.—There is considerable doing in this article, at prices ranging from 44 to 64 for old, and from 54 to 64 for new. Very little now selling below 6 and out little over 6. The receipts from the 26th to the 1st, inclusive, have been 2,417 bales, 683 of which have been stored; and the shipments by the Rail Road, during the same period, have been 2,500 bales.

**Groceries.**—The market is well supplied.—No material change in prices since last week.

**CAMDEN, Oct. 2.**  
Cotton.—This article is being, in our hearing, freely, but from all the planters we hear complaints, the crops having sustained considerable injury, from a severe storm, which passed over this section some five or six weeks since. The article now brought to market may be classed "fair," but we learn there will be very little fine cotton made this season. Prices range from 5 to 6 1-4.—*Camden Journal.*

[Correspondence of South-Carolinian.]

**CHARLESTON, Oct. 1.**  
Since my last report, on Wednesday the 25th ult., our cotton market has improved considerably, in regard to a more steady demand. Several new purchasers have made their appearance, and imparted firmness to prices, but without any actual improvement. The sales since Wednesday up to last evening have averaged upward of 650 bales per day; amounting in all to 3,279 bales.

From present appearances, it seems to be the general opinion here that the market will maintain its present position for some time to come, with only an occasional fluctuation according to the accounts which may be received from abroad. The receipts as yet, are but moderate, particularly those by water. During the last seven days, they have amounted to 4,066 bales, viz: by Rail Road 3,240, by water 544, and by wagon 382. Exported in same time 252 bales coastwise, leaving on hand a shipping stock of 14,042 bales exclusive of 2,080 on shipboard not cleared. Present quotations of Liverpool classification stand as follow: inferior to ordinary 43 a 54; middling to middling fair 53 a 64; fair to fully fair 64 a 64.

For Groceries of all descriptions, the past week has been an exceedingly dull one—neither in Sugar, Coffee or Molasses have there been any wholesale transactions, and although there is a considerable stock of either of these articles in the market, holders show no disposition to push sales, and consequently remain stationary. I quote Sugars—Muscovado—extremes, \$6 1/4 a \$8 1/4—Coffee, 64 a 74.

**CHARLESTON, Oct. 4.**  
Cotton.—Received since our last, by Rail Road 5270 bales, by Water 527, and by Wagons 403—making a total of 6202 bales. Exported in same time to Havre 1326 bales Up lands, and coastwise 992 bales, making a total of 2318 bales, and leaving on hand a shipping stock of 17,280 bales, exclusive of 2766 bales on shipboard not cleared.

The somewhat better enquiry for Uplands which we noted in our last weekly review towards the latter part of that week, continued on the first day of the past, Saturday last, when 729 bales were disposed of. On Monday, however, some purchasers appeared to have withdrawn, and the market altogether since then has borne a rather heavy appearance. The shortly expected foreign accounts by the Calcutta, whose regular day of departure from Liverpool was on the 19th ult., may perhaps have been the cause of this falling off in the demand. The sales since Monday have amounted to 1721 bales, making the total sales of the week 2450 bales.—*Mercury.*

**NEW YORK, Oct. 3.**  
Coffee.—The market generally is very dull, and prices of Brazil may be said to have a downward tendency. The sales are 1000 bags Brazil, at 67 a 72 cents; 300 Laguayra, 7 a 7 1/2; 300 Sumatra 63; 100 Cuba, 63; 50 Green Java, 87; usual time; 300 St. Domingo, 58 a 54 cents cash; and 200 Angostura, on terms we did not learn.

**Cotton.**—Since our last, the cotton market has been very quiet, but we have no change to notice in prices. The sales are but 1200 bales; say 1000 Upland and Florida, ordinary to middling at 5 7 cents, middling fair to fair 63 a 64, and 50g Mobile and New Orleans, ordinary to middling 5 1/2 a 6, and middling fair to fair 64 a 74. There are very little doing in the better grades, and we have heard of no transactions in new crop.
