

Harth, Esq., the sales of which amounted to \$51,563.—150 Negroes brought 46,174, an average of about 308 round. The plantation, being an old one, with all the timber trees cleared, brought \$3,500. The Provisions, &c. sold at very reduced prices.

Commutation of Sentence.—His Excellency the Governor has commuted the punishment of Abraham, slave of Alex. Robertson, Esq., who was to have been executed on Friday next for stabbing a white man. The governor has directed that in place of death, he shall suffer solitary confinement for 3 months, receive 100 lashes and be sent out of the State.

The Legislature of North-Carolina convened at Raleigh on Monday last. Col. Andrew Joyner, of Halifax, was elected Speaker of the Senate, and Hon. Edward Stanley, of Beaufort, Speaker of the House of Representatives—both whigs.

Industry.—If industry is no more than habit, 'tis at least an excellent one. "If you ask me which is the real hereditary sin of human nature, do you imagine I shall answer pride, or luxury, or ambition, or egotism?—No! I shall say indolence. Who conquers indolence will conquer all the rest." Indeed all good principles must stagnate without mental activity. —Zimmerman.

Ground Peas.—A gentleman residing near this place, informs us that he has dug and measured a sufficient quantity of his ground Peas to ascertain that they will average one hundred and five bushels to the acre! The land planted is ordinary pine land, on which was put a little manure. The labor bestowed was not more than would be necessary to plant and tend the same ground in cotton.

The nutritious qualities of the Ground Pea are generally known. They are said by those who have made the experiment, to be superior to corn for fattening hogs, and for that purpose they are raised and fed with less trouble than any other crop. They need not be gathered, but will remain good in the ground until March or April. During six months from the first of October to the first of April, hogs may be turned into a field of ground peas and kept as fat as though they had free access to a crib of corn. What farmer in Georgia will hereafter buy Western pork—*Albany Patriot.*

From the Hamburg Republican.
Mastodon Cotton.—From the following letter from one of the oldest and largest Commission Houses in Europe, it will be seen that well ginned Mastodon Cotton was worth in Liverpool, at the time the letter was written, from 16 to 20 cents a pound. The cotton the letter speaks of was ginned on the common gins.

It is now beyond question, that an article worth double the price of our common cotton, may be raised anywhere in the cotton region, without any additional expense or labor.

In selecting seed, care should be taken to select that which is pure, as much of it is mixed with other seed. Mastodon seed are all large and white.

Liverpool, 3d Sept. 1846.
R. Abbey, Esq., Yazoo City, Miss.
Sir: We regret that in reply to your favor of August 5th, we can give little satisfactory information as to the uses of Mastodon Cotton in our manufactures. Even had a sufficient quantity gone into consumption, which there has not, the manufacturers would carefully conceal the uses to which they put it, and its value to them.

Of the quality and value of the cotton in our market, we can give a strong and decided opinion. We think its length and strength and silkiness of staple place it next below Sea Island cotton, from which it presents no marked point of difference when not injured by ginning. This is a most important point, because saw-ginned Sea Island does not rank high in this market, owing to the staple being cut.

The writer believes that he has seen every parcel of Mastodon Cotton in the Liverpool market. For some 10d. is asked. We sold two bales, dull in color, at 8d., and a rather large sale was made early in the season at 9d. and 9d. Had we 100 bales of similar quality to the small bale of Mr. W. H. Mercer, we should ask 10d., and we have no doubt a sale might be made readily at 9d. But you must bear in mind that parcels of a bale or two are difficult to place, the buyer making rather a favor of taking them.

The principal points to attend to are, first, fineness, length and comparative strength of staple, which must not be injured by over-ginning or working the gin too fast, which converts valuable cotton into a broken mass of fibres, expensive to separate, and involving the loss of half the cotton. Next to this, a fine pink bloom is desirable, not too much of the cream color, and a degree of oiliness in the quality of the cotton, making the sample silky. These points attained, the Cotton would only be inferior to the higher quality of Sea Islands.

We remain, your ob't servants,
Geo. Green & Son.

IS THIS MEDICINE!
We exclaim the other day, on tasting some of Jayne's Tonic Vermifuge. It certainly has no odor of the nauseous flavor, which one associates with the idea of physic. Children consider it quite a treat, and in taking it their palates are gratified, and their health restored at the same time. Jayne's Tonic Vermifuge not only destroys worms, but carries off the mucus in which they are imbedded, and effects a radical and permanent cure. Every mother knows the prominent symptoms of worms, such as voracity, leanness, fevered breath, gringing of the teeth during sleep, paleness of the lips, itching of the nose, &c., but there is other judiciously so generally recognized. A dry cough, dull eyes, enlargement of the abdomen, and many other symptoms, and many other symptoms common to other diseases, frequently denote the presence of worms. If their existence is even suspected, the Vermifuge should be administered, because it can do no harm in any case, and may do incalculable good.

Jayne's Expectorant always cures Asthma, two or three large doses will cure the Croup or Hives of children in from 15 minutes to one hour's time. It immediately subdues the violence of whooping cough, and effects a speedy cure. Hundreds who have been given up by their physicians as incurable, by Consumption, Spitting of Blood, and other Pulmonary Affections, have been restored to perfect health by it. It never fails in giving relief.

MALE AND FEMALE Academics in Greenville.
ABBEVILLE DISTRICT, S. C.

THE COMMITTEE, appointed to procure Teachers for the Schools in the above Village, under the control of the Baptist Denomination, take pleasure in informing their friends and the public generally, that they have engaged competent Teachers for the above Schools. Mr. Wm. H. CAMPBELL will take charge of the Male Academy. Mr. C. is a native of this State, and will graduate in the South Carolina College in December next. He entered College as a student of Mount Zion Academy, in Fairfield District, which has been many years under the care of Mr. HURSON, a teacher of high celebrity. He also furnishes satisfactory testimonials of his qualifications from Hon. W. C. Preston, President of the College, and the Rev. Dr. Hooper, Professor of Languages.

He will teach the usual branches, and prepare young men for College.

The Female School will be conducted by Mr. ROBERT HENRY NICHOLS and LADY. Mr. and Mrs. Nichols bear high testimonials of literary qualifications and moral character. These are from Rev. T. Curtis, D. D., of Lime Stone Springs, in whose School they have taught the present year, with entire satisfaction. Also, from his Honor Chancellor Johnson, Hon. F. H. Elmore and W. DuBose, Esqrs, &c. Mr. and Lady will undertake to give instruction in every solid scientific and ornamental branch of Female education, the French language, Vocal and Instrumental Music, Fancy Needle work, &c.

The Schools will open on the Second Monday in January next.

Terms of tuition will be published early in December.

Good Board can be obtained at \$8 per month.
