

of those stocks are firmly held for revenue, and little disposition is evinced to part with them. Government securities are in good demand, and any fair and reliable prospect of peace with Mexico, would surely increase the demand, and materially advance the prices.

Foreign exchange still continues at low points, which is another favorable indication in the money market. Large quantities of cotton and breadstuffs are yet to be shipped, which will add to the supply of bills, that will be wanted for the fall exports, and for the payment of such American securities as can be bought cheaper in England than in this country. —*Courier.*

[From the New Orleans Picayune July 1.]
LATER FROM GEN. TAYLOR'S ARMY.
The steam ship James L. Day, Captain Wood, arrived last evening from Brazos Santiago, whence she sailed on the 25th ult.

By this arrival we have our correspondence to the 16th June from Monterey, but the news is of no great importance. Nothing has occurred to change the disposition of Gen. Taylor's forces in any material point, and there is no hope of an advance upon San Luis.

Captain Bankhead, commanding a company in the Virginia regiment, arrived at Monterey on the 14th ult. from China. He reported that after the departure of the main body of the battalion for Monterey he despatched a Mexican for Camargo with a communication for Colonel Belknap. A few days after he learned that the messenger had been captured by a body of armed Mexicans, near passo Zacata and sentenced to be shot.

News had reached Monterey from China, of the death of Lieut. Mahan, who was shot in the recent duel with Lieut. Munford—both of the Virginia regiment.

Three companies of Texas Rangers had recently come to Monterey after having been out scouring the roads in the direction of Camargo. They failed to fall in with Ureca or any of his men, although rumor frequently had him in the neighborhood in force. Our correspondent thinks he is still the other side of the mountains.

The rangers captured one or two "robbers," and it is said, shot one of them. Upon their return they were at once ordered up to Saltillo.

The Mexicans are said to be organizing small guerilla parties, and the roads are somewhat beset with robbers, but we do not learn of any harm done by them.

A train from below arrived at Monterey on the 15th, escorted by several companies of the North-Carolina regiment.

The health of the troops at Monterey was improving, and only one man had recently died. He was attached to the Virginia regiment.

The Mexicans are beginning to return to their residences in Monterey in considerable numbers.

A man named James Massey, a Virginian by birth, but a long resident of Texas, was shot recently by the guard, while attempting to escape from the guard house. A Texan Ranger had also been shot on the plaza by a fellow soldier, and died. Notwithstanding these untoward events, Monterey is now much more quiet than it had been. The troops are under severe discipline and preserve admirable order.

The rumor that had been spread had not reached Monterey at last accounts, but a rumor had been received that it was ordered to Vera Cruz. The rumor was probably unfounded, but it would excite no surprise were it true.

At the moment of writing this, we are in possession of our correspondence by the James L. Day, but have no papers from Matamoros.

From Tampico.—To Capt. Barry we are indebted for the politeness of having delivered us the following letters from one of our Tampico correspondents. They relate merely to times and things there. We find on the package containing them the following endorsement, dated Tampico, June 17, 1847: "Capt. Noye returned this morning—saw neither Cos nor his party. Considerable excitement prevails in the city. Every man is under arms, expecting an attack. Yours, D."

Correspondence of the Delta.
A meeting of the American citizens of Tampico was held at the Court House last Friday evening, for the purpose of making suitable arrangements for the proper celebration of our National Anniversary. Speeches were made, resolutions adopted, committees appointed, shouts raised, flags unfurled, music breathed its soft cadences, &c. &c. The Yankee boys will show the Mexicans how we do these things.

The health of the garrison is quite good—no case of yellow fever or *zonito* as yet. The city is more healthy now than it has been for some time. The garrison, since the disbandment of the Baltimore battalion, consists of one company of the 3d Artillery and the Louisiana regiment—about four hundred effective men, quite too small a force to defend the city, in case of an attack by a superior force.

The English mail steamer anchored off the bar from Vera Cruz this evening. The yellow fever is raging to some extent in that city. You will receive the news from that place days before this reaches you.

Everything is still and quiet in the city and vicinity of Tampico.

Illinois Convention.—The Convention for revising the Constitution of this State, has laid upon the table, by a vote of one hundred and two to fifty-eight, a proposition prohibiting the establishment of Banks. Another resolution, to prevent the circulation of Bank paper in that State of less denomination than twenty dollars, was also laid on the table, by a vote of 101 to 93.

Gratifying Compliment.—A correspondent of the Raleigh Register, writing from Puebla, Mexico, thus notices the Palmetto Regiment:

"There are two Volunteer Regiments stationed here, under command of Major Gen. Quitman—the 1st New York and the South Carolina. The former, I regret to record, have been guilty of some gross behaviour to the citizens, but have received prompt and severe punishment by sentences from Courts Martial; the latter Regiment, on the contrary, have been a pattern of good behaviour and decorum; in-

deed officers and men have commanded the universal respect of all. This speaks well and creditably for the heroes of your sister State.

Railroads—their Influence.—New York—Boston—Charleston.

The manner in which Railroads are influencing the affairs of life and the destinies and fortunes of cities and countries, is a subject of the greatest moment. Their power has not yet been fully developed, for every day exhibits some new operation on the industry of the farmer, of manufacturers, or of the course of trade, which had not been foreseen or expected. It is wonderful how they change the course of nature. They penetrate deep and far into nature, and opening their way far into the heart of rich lands, bring from them the abundant productions of agricultural skill or the fabrics of manufacturing industry, and lay them down on the ocean's shore, where the ships of the merchant can bear them across the seas to the foreign consumer; these send in return their fabrics and productions, which are by the same means conveyed into the innermost recesses of valleys and mountains, where, until this age and its improvements opened the way, the race of man enjoyed but few of the comforts and advantages of civilization. All places and all men are about being brought into the currents of life, and within the influences and improvements of all its activity and advancement.

It was for some time considered that Railroads were to be great conveniences for travelling, but were not of power enough to regulate trade; then it was found that light articles could be carried to advantage; and more recently, heavy freights have been triumphantly established. It is curious to note these progressive steps; to see how rapidly one improvement has trodden on the heels of another, and one invention sprung out of and destroyed another, realizing in moments, rather than centuries, the fable of the Phoenix. These improvements in the Locomotive have been such, that where, for instance, five years ago you could not find on our Railroad one that was able to carry more than 400 bales of Cotton in a train, nearly all employed now can take 1000, and one very lately added can easily carry 1500.

The consequence is, that the Roads have their capacities vastly increased, and can take freights at such low rates, and so expeditiously and safely from point to point, that Railroads are rapidly revolutionizing trade and changing the destinies of cities.

It will be seen, that the daily travel has increased from seventy-three passengers to one hundred and seventy-six, and even to two hundred and seventy-one, for 1847 the daily receipts of passage money, from \$216 53 to \$642 42; that the largest number of passengers and the highest profits have been when the charge for passengers has been lowest. And that, while from 1834 to 1843 the amount received for passage money and for freights were nearly equal each year, since then the freights have increased to more than double the passage money. The reason of this is that the rate of freights has been reduced, the new improved locomotives enabling the Company to convey vastly more freight, and of course to give to their business greater expedition, certainty, and cheapness.

If such are the results now, what may we not expect when the Roads reach into Tennessee, and the Greenville and the Charlotte Railroads are completed?

If Charleston, like Boston, will help or build the feelers which she can encourage and bring into existence, she, like Boston, will become a great city.—*Charleston Mercury.*

Business of our Railroad.—The following is the amount of domestic produce transported on the Hamburg Branch South Carolina Railroad for six months, ending on 1st July, 1847:

Cotton, 43,319 bags; Corn, 181,693 bushels; Flour, 3,999 bbls; Bacon, 341,367 pounds; Yarns, 1,117 bales.

In addition to its ordinary business, we are informed that parcels for the remote South, in which despatch is desirable, are frequently transmitted by our road. This morning a bill of lading was received by the *Southerner*, accompanying a parcel to be transmitted via Montgomery, Mobile, and New Orleans, to Galveston, Texas, and allusion is made to the safe and prompt arrival of a former package transmitted by the same route.—*Mercury.*

We are informed by a gentleman just from Chattanooga on the Tennessee river, that the western rail roads are now finished continuously from this city to Dalton, (Cross Plains,) thirty-two miles this side of Chattanooga, except about five miles of iron to be spiked down, which was being laid at the rate of nearly a mile each day. At Chattanooga he saw the Captain of a steam boat, who had within the week navigated the Elk river to Elkton, sixty miles from the upper end of the Muscle Shoals, being the first experiment of the kind on that river, which was performed with little difficulty, at a time when the waters were comparatively low, being obliged to cut the limbs of a few trees only to effect a free passage. This point, (Elkton,) brought them within eighty miles of Nashville, to which place there is a fine Macadamized road.

From this it will appear, that the trip from Charleston to Nashville, Tennessee, may be made all the way by steam, as soon as boats are regularly established on Elk river, except thirty-two miles of staging from Dalton to Chattanooga, over rather a rough road, and eighty miles from Elkton to Nashville, over a very fine graded road. Say four hundred and eighty rail road, one hundred and eighty by steam boat, and one hundred and twelve by stage coaches—making in all about seven hundred miles. This route may be performed in about four days—forty hours only are consumed in reaching the Tennessee river at Chattanooga.—*Char. Cour.*

Cool Weather for the Season.—On Saturday, the 3d inst., the Thermometer stood at 62 degrees at 6 o'clock, A. M., and fires were comfortable till 10 o'clock in the day. We have had very little hot weather this season. Wednesday and Thursday of the present week, abundant rains have fallen in this section, after about ten days'

dry weather. The present rains almost insure good Corn in the forward fields; and if they have extended into the middle Districts, will make the crop in those sections generally.—*Greenville Mouv.*

The Hon. Dixon H. Lewis.—We are glad to perceive that among the festivities incidental to the reception of the President, Senator Lewis, of Alabama, has received every attention from men of all parties.—A deputation from Tammany Society waited upon him with the respects of that ancient corporation, and he has visited, by invitation, most of the public places. He is a warm friend and supporter of everything pertaining to commerce, and merits all the attentions which the commercial metropolis can bestow upon him.

N. Y. Sunday Times.

The Crops in Georgia.—The Editors of the Savannah Republican say: "From the general testimony of those whom we met from various quarters of the State, we have derived the opinion that the Cotton crops in the State will turn out generally very well, while the Cotton crop is decidedly more unpromising than usual."

TURN HIM BACK!

RUEBEN WHITE, a young man of imbecile mind, and very ordinary appearance having wandered away from his friends who reside in this District, and not having been heard of by them for several weeks past, it is their wish that persons knowing where he is, would take some pains to direct him toward Anderson C. H. S. C., so that he may once more return to his anxious mother.

Editors who will give the above a gratuitous insertion, will confer a lasting favor on a poor widow.

Anderson C. H. June 23.
July 14 1t 25

OBITUARY.

(COMMUNICATED.)
Departed this life on the 5th inst., at Edgfield C. H. S. C., in the sixty-seventh year of her age, Mrs. HENRIETTA JOHNSON, wife of William Bullen Johnson, D. D. The deceased was baptized in 1805, and was received, on the same day, into the membership of the Church of Christ, at Euhaw, Beaufort District, S. C. During her last distressing illness of five months continuance, brought on by a paralytic stroke, she was enabled, by the grace of the Lord Jesus, to "possess her soul in patience," and not to murmur or complain under the severest pains. She was often engaged in prayer, and took great delight in hearing the scriptures and spiritual hymns read, and having prayer at her bedside. "Knowing this, that the trial of her faith worketh patience, she that patiently endureth will perfect her work, she that patiently endureth will perfect her work, she that patiently endureth will perfect her work." Having long committed her soul to Him, who is the resurrection and the life, she felt no fear of death, and awaited its approach without alarm. And when the time of her departure came, her happy spirit left its dissolving abode without a struggle or a groan, for a purer habitation, to mingle with "the spirits of just men made perfect," and "to be with Christ which is far better." Her mortal remains were consigned on the day succeeding that of her death, to the silent tomb, there to wait the coming of her "Lord Himself, who shall descend from Heaven with a shout, with the voice of the Archangel, and the trumpet of God." Then graciously gathering up the sleeping dust, and fashioning it "like unto His glorious Body," He will make it "a beautiful building of God," prepared for the residence of the pure spirit, that, in their reunion, both may enter with their Lord into all His glory. "For if we believe that Jesus died and rose again—even so them, which sleep in Jesus, will God bring with Him."

Died, at the residence of Mrs. Sarah Y. Golding, in this village, on the 10th instant, RICHARD MASSEY, son of Mr. Philip and Mrs. Martha Dumire, aged 2 years 2 months and 1 day, after a painful illness of 11 weeks and 1 day. He sweetly fell asleep in Jesus.

Now sleep little infant baby sleep,
For in thy Father's Kingdom thou shalt rest;
The God of peace resides within,
His flesh all pure, without a stain,
His soul without a sin.

BELL HANGING.
THE Subscriber respectfully informs the citizens of Edgfield Village, and its vicinity, that he will do all kinds of work in the Bell Hanging Business, having on hand every variety of BELLS, suitable for house use, and all the necessary furniture for hanging them. Persons desirous of having work done, can find me at Mr. Peter Golly's establishment, in this place.

HENRY M. SPIKES,
July 14 4t 25

Military Notice.
ALL Persons who have occasion to appeal from the decision of the Court Martial, ordered by me, (in compliance with an order from Brigadier General Bradley,) whilst I was in command of the Seventh Regiment, which Court was held at the Old Wells, on the 29th day of May last, are required to make their appeals to me, and not to Col. Mims, as I conceive that duty devolves upon me, as Col. M. was absent from the State, and not of course in command of the Regiment at the time of the parade, or the ordering of the Court.

Col. Mims is not, nor never was authorized, to grant any appeals, from Courts ordered by any officer but himself. For the fact, I refer to the Militia Law, page 29.

Male & Female Academies,
INGREENWOOD, ABBEVILLE DIST.
(Under the control of the Baptist Denomination.)

THE Board of Trustees would take this opportunity to express their high gratification at the success with which their efforts have met in endeavoring to establish the above School. Having labored under much inconvenience the past session for want of comfortable buildings in which to accommodate the instructors and their pupils, they are happy in being able now to announce to the former patrons of their school, and to the public generally that the large and commodious building, situated in a convenient part of the village and on a most delightful spot, which they have erected, is ready for the occupancy of the Female school, the past session having closed in it. The Male school will also be conducted in a convenient and comfortable house pleasantly situated. The Board would avail themselves of the present opportunity of returning their most cordial thanks to the friends who have so liberally patronized them, and solicit a continuance of their patronage. At the same time, with great pleasure, repeating what they have on a former occasion announced, viz.—there entire confidence in the high moral character and literary qualifications of the several instructors in both departments of these schools.

The 2nd session will commence on the 26th instant, and from the number of pupils the last session, (40 in the Female and 26 in the Male department,) and from promise of others, the Board feel assured that the schools will be more prosperous than during the previous session. Mr. and Mrs. Nicholls, the principals of the Female school, having expressed their determination to locate permanently in this place for the purpose of imparting instructions in the various branches of Female Education, the Board would respectfully commend them to the favor and benediction of all friends of Female Education and bespeak for them that liberal share of public patronage, which they so justly merit. Having determined also to employ every year in the male department, an Instructor in every respect, worthy of public confidence, (as has been their good fortune the present year in the person of Mr. W. L. Harris,) they feel confident that the schools under their control will prosper, being established upon a permanent basis.

Good Board can be obtained at \$8 per month. Terms of Tuition, in the Male Department, per Session of Five Months.

Orthography, Reading, Writing and Arithmetic, \$6 00
The above, with Geography, English Grammar, Composition, and Declamation, 9 00
The above, with Natural, Mental and Moral Philosophy, Logic, Rhetoric and History, 12 00
The above, with Chemistry, the higher Mathematics, Latin and Greek, 15 00
Contingencies, 50

A MYSTERY.
THE Subscriber warns all persons from trading for a Note, given by him to Sampson Whittle, for Twenty-three dollars and seventy-five cents. Mr. Wiley Bolles, is got the note in his possession, given April 24th last, due August 1st 1848. As I do not intend to pay said note, unless compelled by law, as there is a mystery about the original. Mr. Henry Kecker, can tell what the mystery really is, as well as I can.

NATHAN BARTLEY,
July 14 2t 25

Sheriff's Sale.
BY virtue of sundry writs of Fieri Facias, to me directed, I will proceed to sell at Edgfield Court House, on the first Monday and Tuesday in August next, the following property, in the following named cases, to wit:

G. L. & E. Penn vs. B. J. Ryan, Joel Curry, ex'rs., and others, severally vs. the same, a house and lot in the village of Edgfield occupied by the defendant as a Hotel, containing a half acre, more or less, bounded by the public square, the lot of J. L. Doherty, and others, also another lot in said village, containing five acres, more or less, adjoining lands of Mrs. Corley, Jno. Kirksey, and others, also various articles of household and kitchen furniture.

C. J. Glover vs. H. Danton, the defendant's interest in a tract of land whereon Mrs. Danton lives, containing two hundred acres, more or less, adjoining lands of B. F. Strome, J. B. Griffin, and others.

C. H. Goodman, and others, severally vs. W. H. Adams, the tract of land known as the Nick Lyon land, containing one hundred and fifteen acres, more or less, adjoining lands of D. Rountree, and others.

Terms of sale Cash, except the property of B. J. Ryan, which will probably be sold on a credit until the first of January next.

RECRUITING SERVICE,
VOLUNTEERS,
HEAD QUARTERS, PALMETTO REGIMENT, S. C. V.,
Puebla, Mexico, June 3d, 1847.

Regimental Orders, No. 59.
IN accordance with General Orders, No. 15, from the Adjutant General's Office, Washington City, Capt. Brooks, of Company D, now on leave of absence, on account of ill health, Captain Joseph Kennedy, of Company G, and Lieut. J. B. Kershaw, of Company C, are detailed for the Recruiting Service.

II. Captain Brooks will, on the receipt of this order, report to the Adjutant General's Office at Washington, for instructions. In the interim he will open a Recruiting Rendezvous at Edgfield C. H., South Carolina.

III. Captain Kennedy and Lieut. Kershaw will proceed by tomorrow's train to South Carolina. They will report on their arrival to Capt. Brooks, the senior officer, and to Washington City, and until further orders from the Adjutant General's Office, at Washington, Capt. Kennedy will open a Recruiting Rendezvous at Fort Moultrie, and Lieut. Kershaw at Camden South Carolina.

IV. In addition to the Monthly Reports to the Adjutant General's Office, these officers will report monthly to the Head Quarters of this Regiment.

In obedience to the foregoing order, I will remain at Edgfield C. H., in the discharge of the duty assigned me, until a reply to the application I have made to the authorities at Washington, for permission to join my Regiment has been received.

The recruits enlisted by Capt. Kennedy, Lt. Kershaw, and myself, will certainly be attached to the South Carolina Regiment, and will be received as Volunteers. A favourable opportunity is thus presented to those gallant spirits of Edgfield who burned to mingle in the fray, and disappointed only by a want in number, of now gratifying their earnest and patriotic wishes.

A Bounty of \$13 00 will be paid to each recruit, immediately on his enlistment, and in addition to the Monthly pay of \$7 00, the provision made in the subjoined extract from an Act of Congress, together with other provisions of clothing, rations, &c., make the service desirable even in a pecuniary point of view.

By the 9th Section of an Act of Congress, entitled "An Act to raise, for a limited time, an additional military force, and for other purposes," "each non-commissioned officer, musician or private now in service or who may hereafter be enlisted during the present war with Mexico, and who shall receive an honorable discharge either by expiration of his term of enlistment, or for disability incurred in the course of his service, will be entitled to a warrant for One hundred and sixty acres of Land, which he will be at liberty to locate in one body, upon any of the public lands that may be subject to private entry; or he may, at his option, when honorably discharged, receive treasury scrip to the amount of ONE HUNDRED DOLLARS, bearing six per cent. interest, payable semi-annually, and redeemable at the pleasure of the United States by Brevet Major Wade, and who has not been legally discharged, will report in person to me, forthwith."

Each and every soldier, mustered into the service of the United States by Brevet Major Wade, and who has not been legally discharged, will report in person to me, forthwith.

(Under the control of the Baptist Denomination.)

THE First Session of this Institution terminated on Friday the 11th inst., in the handsome and commodious School House recently erected in the above salubrious and pleasant village.

The Principals, Mr. and Mrs. R. H. NICHOLS, are desirous to tender their grateful acknowledgments to their friends and the public, for the very liberal patronage so early bestowed on their new undertaking, and to assure them that neither labor
