THE SNAKE AND THE WOODPECKER. -We have noticed in many places a very wicked and very unprofitape practice, viz: boys or men standing sentinel in orchands with a gun, woodpeckers. In any country, and particularly in this, where orchards generally are so poorly taken care of, the wondpeckers are of great advantage in the way of killing insects and worms. It Edgefield Court House, at the first Mon was once thought that those birds pecked day in April next, the three following tracts into the fruit trees for the purpose of of land, being a part of the Real Estate of getting the sap, if that was the case, they Wiley Glover, deceased, viz: could find trees no our woods of native growth, containing sap much more paia. table than can be found in our orchards. The fact is, they hunt after and destroy much of the vermin that infest, and in very many cases, kill our most valuable fruit trees. When there are orchards very much infested with worms, the woodpeckers in all probability cannot save it, but we have no doubt that they have saved many an orchard by devoring the worms and insects before they became numerous. They are the open enemies of all noxious reptiles. Not long , go we were riding by an orchard, and our attention was astracted by the incessant clatter of some two or three dozen of these sap-suckers. We knew from the nature of the birds that something unsual must be going on, and we hitched our horse and proceeded cautiously to the snot. On coming near we discovered a child, a little girl asle-p; we could hear other children at a distance at play. On genting still closer we saw the cause of the bi ds' nne isi. ress-there, within three feet of the innocent one, by coiled up, and suiking at the birds as they pounced down upon him on every side, a large venomous s rpent; we procured a large stick, and unperceived got a stroke at him, and filowing it no with others soon d spatched him. The child had been at play with the rest, and becoming wearied, had lain down and fatten to sleep.

A machine for splitting laths, the invention of Mr. Winslow of Cincinnati, has been put into operation in Southwork, Pa. It is the first of the kind out cash. up east of the Alleghanies, and has sur prised the good mechanics of Philadelphia.

A hage log is placed in the machine, and by means of two knives, one working perpendicularly, and the other horizontally, the laths are cut from the side of the log, which is pushed around by the machinery, so that the laths are of a uniform thickness and width. It is driven by steam power, and will cut the faths at the rate of two hundred a minute.

As there will probably be but one Depot in a t wn or vil-lage, the agency will be very valuable

The celebrates Medicines of the GRAEF ENBERG COMPANY are rapidly and compictely superceeding all others. Where once introduced, no one thinks of using any others Their character is best explained by that THERTY THOUSAND BOXES OF THEIR PILLS ALONE ARE SOLD EACH AND EVERY WEEK

Certificates up a certificates from all parts of the country are constantly received, testify ing to their wonderful powers. Their efficacy is almost immediately felt, so that a single box will snow the invalid whether they are or are not doing him good. The sick should at once abandon all other medicines and give these Pills a fair trial.

The operations of the Company throughout the world are of imprecedented magnitude, the high and commanding character of which has eceived the unqualified approbation of distinguished Clergymen, Jurists, philantropists, and he public generally. The Patent Medicine business is assuming an entirely new position through the Graefenberg Company. Almost every family in the land has occasion to use some kind of patent medicine and an organization like that of this Company is of paramount public importance. By this means, reliable

nedicines may be had. The leading article to which public attention

#### DR. JOEL BRANHAM'S LIVER & DYSPECTIC MEDICINE.

N offering this valuable Medicine to the people of S. Carolina for the relief and care of many diseases incident to a Southern climate, I do not claim for it infallbility; neither do I say it will cure all diseases. But in

CHRONIC LIVER AFFECTIONS AND DYSPEPSIA.

I can confidently advise and recommend its use from my personal observation and use of ny own practice. This article is favorably rec ived wherever it has been used. I am allowed to refer to Mr. George Heard of Troup. Mr John Warren of Columbus, Mr. McAffee of Cobb, Mr. Asbury Hull of Athens, Mr. William D. Terrell of Putnam, Revd. John E. Dawson of Lagrange; to which a great number of names might be added, who ear their testimony to its value.

Habitual costiveness is found very frequently connected with feeble constitutions, and persons of sedentary habits, which often exert a very unfavorable influence upon the general haelth of the subject; and is particularly mani-fested by a restless and desponding state of the mind, irregular if not a loss of appetite. For this condition of the system, this article is confidently recommended with the positive assurance that if the dose is properly adjusted, so as not to move the bowels too actively, relief may be relied on, without any, even the least of the un leasant consequences, resulting from the use of the common purging medicines usually resorted to. This article will be found to act as a pleasant cordial and tonic, restoring the appetite, and at the same time fulfilling every indication that the common purging medicines are designed to effect.

There are some constitutions liable to regu lar attacks of Bilious fever atmost every to such. I recommend the use of this Medicine, beginning at least by the middle of May, or first of June

Many persons whose Digestive organs are freble, often experience a sense of fullness, weight, and oppression, about the stomach af ter eating—in such cases a dose of this medi-cine will often afford immediate relief.

Pregnant women often suffer from hear burn and costiveness, they may use the article without the least danger and with great benefit. In sick or nervous head-ache, it is a most valuable medicine

I could append a long list of certificates, but. forbear, preferring to rely on the virtues of the medicine to sustain itself. The medicine is a gentle and certain cathartic tonic and sudorific.

negotinble notes as are sure to be paid in bank at their maturity, the saving to those who choose to deal in this manner will be a very consider-

Few dealers in the country buy more than \$200 worth of stationery in a season, many not over one-half, and a large portion not more than one fourth of that amount. There is not a dealer, therefore, who visits Philadelphia who would be inconvenienced by paying these small sums in Cash, and as each can save mo-ney by doing so, H. & T. believe they are of-fering an inducement which will gladly be embraced by those who make their purchases in Philadelphia. Those who enter into each an arrangement will be enabled to sell at prices much below their former rates at home, and will consequently reap a larger aggregate pro-
