EDGEFIELD C. H.

WEDNESDAY, MAY 3, 1848.

THE RAIN.—During the last week, we had some good showers of rain in the neighborhood. A cool spell afterwards succeeded. On Sunday evening, rain commenced falling, and continued all night, and did not stop until noon on Monday.

We are indebted to the Hon. A. Burr for various Public Documents, for which he will accept our thanks.

We are indebted to some unknown friend for a copy of an Address by W. Levee over the remains of Sergeant B. F. Mattison, of the Abbeville Company, Palmetto Regiment, who was killed before the city of Mexico in the charge on Chapultepec, on the 13th Sept. '47. We think it an excellent and appropriate Address, and will endeavor to publish some extracts from it shortly.

We are indebted to Mr. Seibels, a native of this District, but now in service in Mexico, for a paper containing an account of his promotion to a Judgeship in a town in that country. Mr. Seibels is also Lieutenant Governor.

We are indebted to Capt. Rich. Ward, of this District, for a copy of the Leicester Mercury, an English paper. It contains much news, principally English, and has also some agreeable miscellany.

THE NEWS FROM EUROPE.—Revolution is quite the order of the day in Europe. It seems that the Kings and potentates, generally, are trembling for their thrones. We hope that their oppressed subjects may assert their rights and be able to preserve them.

Dr. BASCOMB.—This distinguished Divine of the Methodist Church, has preached some of his eloquent discourses in Charleston, and was invited to Columbia. Dr. B. is one of the most talented clergymen in our country. He is a most able advocate of southern institutions, and is a leading man of the Methodist Episcopal Church, South.

MEETING OF THE FRIENDS OF IRELAND IN CHARLESTON.—In pursuance of a call made by the friends of Irish independence, a large and enthusiastic meeting was held in the Hibernian Hall, in the city of Charleston, on the evening of the 23d April. The assembly was addressed by Edmund Magrath, C. P. Northrop, James D. Rhett, B. F. Carroll and A. G. Magrath, Esqs. Certain resolutions were adopted. The following is the last:

Resolved, That we regard with deep anxiety and hope the patriotic demonstration of the people of Ireland, and will cordially aid them to establish their independence in every way not inconsistent with our obligations as American Citizens.

ABOLITION EXCITEMENT IN WASHINGTON CITY.—From extracts which we publish, it will be seen that great excitement has prevailed in Washington City, on account of the stealing of certain slaves, by certain persons, with the intention to liberate them, or sell them for their own benefit. Very exciting proceedings in consequence of this, have taken place among the people of Washington—and the negro stealers have been captured. A violent debate also sprung up in Congress, for a brief account of which, we refer our readers to Congressional news.

MEETING OF THE FRIENDS OF GERMANY IN COLUMBIA.—On Wednesday evening, the 26th ult., the Germans residing in Columbia, South Carolina, formed an extensive Torch Light procession, and with appropriate banners and devices, made a beautiful exhibition, attracting a large concourse of citizens. The procession was headed by a band of youths in suitable costumes, who bore miniature flags of the United States and Germany, intermingled, and after these came the German citizens, who bore the battle flags of their respective nations. The French, Swiss and the Tartan Plaid of the Gaul, and the Shamrock of Ireland were conspicuous. The procession moved through the entire length of Main street, and down to the College Campus, and halting before the house of Professor Leiber, the torch bearers sang a German hymn of liberty, after which Professor Leiber being loudly called for, appeared and addressed the assembly in English. His address was rich in historical details. He then addressed his countrymen in the language of their Fatherland, and closed by calling for a torch to light and lead the way to the mansion of President Preston, where he proposed "three times three cheers for the United States."

Arriving there, the crowd called for the great orator, who appeared and spoke in strains most thrilling and heart-stirring. His theme was the "Genius of Germany"—her right to demand the freedom of her press—her right to claim a Representative Parliamt.—which first found birth in the Teutonic heart—her purification of the Christian Religion by the Reformation; and last but not least, her own gunpowder in the defence and the extension of all these privileges. He paid a marvellous compliment to Dr. Leiber, who had shed his blood in his youthful days in the cause of his native country. He thanked the German citizens for making the College Campus the scene of their rejoicings in the name of the Faculty and Students. He closed amid prolonged plaudits, giving the old German sentiment of "Liberty, Morality and Order." The procession then moved back to the starting point, and the whole assemblage closed in the utmost order.

**For the Advertiser.**

Mr. Editor.—In a form of government like ours, I am satisfied that the people possess the inherent right, to require of those asking office at their hands, to give an expression, of what will be their course upon any important measures, likely to be presented before them, in the event of their election. With this conviction I am prepared to reply promptly, to the propositions as made not long since, by "A Voter," through the columns of your paper.

With the little knowledge, which I possess, of the history of the Bank of the State of South Carolina, I am convinced that the advantages, that were confidently expected at its organization, have not been obtained. Its early advocates were sanguine that in its operations the State would receive such an amount of revenue that direct taxation would at least be considerably reduced if not made merely nominal, and that it would also be to the people, (its stockholders) a source of accommodation. That it has in any way had a tendency to lessen our direct taxation, I doubt not all are convinced that it has failed; and as to the accommodations which were proposed a reference to the communication of "A Voter" is sufficient to show that its object in this respect has been entirely perverted; its own direct and indirect managers being its favorites. Now with a view to correct these abuses of power, as practised in the direction of this institution, and as a surer guarantee to the rights of the people, should the citizens of Edgefield district honor me with a seat in the Legislature, I will vote for a Report of the liabilities of the Officers and Directors of the Bank and its Branches, and of the Members of the Legislature to the Bank of the State of South Carolina to be made annually to the Legislature and published.

JOHN LAKE.  
May 1st, 1848.

**For the Advertiser.**

**TO THE VOTERS OF EDGEFIELD DISTRICT.**

I have yielded to the wishes of friends to become a candidate for the Legislature at its next session, and having been interrogated by "A Voter" in the Edgefield Advertiser, in relation to the Bank of the State of South Carolina. Believing it to be an undeniable right belonging to the citizens of any Republican Government to know the sentiments and feelings upon all questions of importance of those who propose to represent them in the Legislature, I will proceed briefly to answer the questions as introduced by "A Voter."

The question is, "Will you, if elected, vote for a Report of the liabilities of the Officers and Directors of the Bank and its Branches, and of the Members of the Legislature to the Bank of the State of South Carolina, to be made annually to the Legislature and published." I answer, yes—and furthermore, I am in favor of a thorough investigation of the Bank, and its condition be made known to the people of the State, who are the stockholders of the Bank. R. B. BOUKNIGHT.  
May 1st, 1848.

**Higgins' Ferry, April 18th, 1848.**

Mr. Editor: By copying in your paper the remarks of "Tyger," from the Charleston Mercury, (which piece I enclose,) you will not only oblige me, but render a service to your readers.

Respectfully, Yours, &c.  
A SUBSCRIBER.

**From the Charleston Mercury.**

Mr. Editor: There is a disposition in some of the upper Districts, on the part of the people, to make at the ensuing election for State Representatives, the question whether the State Bank shall or shall not be "openly, fairly and fully investigated" by that body.

can be understood by any one who will take the pains to look for themselves.

It is said by the advocates of the Bank that such explanation would be fatal to the interest of it; that the patronage would cease when the indebtedness of those who dealt with it was made public. Is this justice to the Stockholders (THE PEOPLE) and character of the State? Where is there a Bank whose Stockholders does not meet once in thirty years (!) to investigate books and scrutinize the acts of the officers? It is also said that if the transactions of the Bank are to be made public, no person would discount, nor offer his paper for discount, at the Bank; consequently, the doors might as well be closed.—Granted. No man, or set of men, are bound to patronize this Bank; or, as a Banker member once said, there is "no complete" about this matter. Lay the law down that every transaction was to be known to those who desired it made public; then if they choose to present their paper, well and good; if not, then the Bank officers could be dispensed with.—Are not the rights of the people in a very precarious situation, while they are thus banking in the dark? And more especially when, as shown by "Anti-Debt," the officers themselves are largely indebted to the Bank? And also when the greater portion of its customers are broken down aristocracy, bolstered up by false pretences, whose very existence depends upon the Bank?

"Anti-Debt" makes many serious charges, which, if they are well authenticated, and I have every reason to believe can be, will cause the sovereign people to rise in their majesty and crush this mighty monster, whose breath is more to be dreaded than that of the Upan tree, and whose influence will contaminate and blight every prospect of republicanism and liberty. The complex state into which the monetary affairs and interest of our State have got will require nearly an age to extricate itself.

The Rail Road interest has been the means of adding an onerous debt upon the State, which I fear will never be paid until the people are taxed for the payment. The capital of the Bank (if there be any) has been expended with a free hand upon railroad projects; and were the State Stock now to be sold, it would not bring thirty cents to the dollar, besides losing the interest; and not only this, but it has laid open the door to extravagance and corruption among our public servants.—"Ubi mel, ibi apes." To remedy these evils, which have so long existed, is what has prompted the upper or backwoods country to make this question at the polls. Action is the watchword, and there is no time to be lost—we must be up and doing. After what has been said by "Anti-Debt," it is utterly useless to enter into a detail of the merits and demerits relative to this question; indeed, I feel incompetent, and consequently must leave it to able pens.

In conclusion, Mr. Editor, I beg you to ask your correspondent, "Anti-Debt," permission to publish five thousand more extra copies of his "series of essays," for gratuitous distribution; and I ask you what will be the cost thereof. We up here believe that a free circulation of these essays will be doing "the State some service."

TYGER.

**A REMARKABLE FULFILMENT OF PROPHECY.**

As prophecy is interpreted by those conversant with sacred history—appears to be in progress throughout the world, our attention has been directed to the subject by a friend who has placed in our hands a book published in this city in 1812, by the Rev. R. C. Shimeall, a clergyman of the Protestant Episcopal church. It is entitled the "Age of the World and the signs of the Times." The most remarkable prediction, or rather interpretation of prophecy in this book, is the following, at page 223:

"The great day of crisis, both to the church and the world is 'just at hand.' Look to 1817! May heaven prepare us all to meet undismayed, the terrors, and to share triumphantly, in the glories of that day."

Admitting the correctness of history and chronology, as handed down to the present generation, our author says again:—"The crisis in A. D. 1817, and the finishing of the mystery of God, in 1868, is established upon grounds of equal certainty."

Now, as 1817, was the year in which the liberal movement in Europe was commenced by the Pope, in opposition to the allied powers of France, Russia, Prussia, and Austria, and as the late King of France to the liberal movements in Italy was one great cause of the late astounding revolution in Europe, this interpretation of prophecy, founded as it is, upon the fulfilment of other prophecies, becomes of absorbing interest. We therefore give the following chronology, from Mr. Shimeall's book, pointing to these events:

YEARS.	A. M.
From the creation to the flood,	1656
From the flood to Abraham's leaving Haran,	427
Affliction and Bondage,	430
Exodus to end of Saul's reign,	544
Death of Saul to Babylonian Captivity,	473
Babylonian Captivity,	70
To beginning of Daniel's 70 weeks,	79
Total,	3679
To the end of Daniel's 70 weeks, less 37,	453
Beginning of 1260 days, in A. D. 533,	533
The 1260 days of Daniel and St. John,	1260
Excess of 1260 days of Daniel over 1260,	30
Excess of 1335 of Daniel xii over 1290,	45
Total,	2321
Add Historical years above,	3679
Commencement of the Millennium,	6,000

Here it will be observed, the days and weeks are supposed to terminate at the end of six thousand years from the creation, when the prophecy of Rev. xvi. 17, is to be fulfilled. The 70 weeks of Daniel (less 37) being taken from 2321, the aggregate of all the prophetic weeks and days, we have 1868, the year of the Christian Era in which the 6,000 years terminate.

of the beginning of the Millennium, The 70 weeks (490 years) of Daniel, ending A. D. 1837, and 2,300 days, beginning at the same time with the 70 weeks, (453 years before Christ,) the 2,300 days ended 1847. There remain, then, 21 years to 1868, which (as our author says) are to be signalized by "the breaking up of the visible Gentile kingdoms and churches (Rev. xiii. 19) and Mr. Shimeall claimed that 1847 was to witness the beginning of the restoration of the Jews to Palestine, which was literally fulfilled last year, when numbers from all parts of Europe received permission from the Turkish government, to settle in Jerusalem and the vicinity. Altogether, the subject is of extraordinary interest. The book was printed in this city in 1842, by Swords, Sanford & Co.—New York Morning Star.

The following is an extract from a letter received per the Acadia from a highly intelligent gentleman of this city, now travelling in France: "I have nothing satisfactory to add on the position of things here; they appear to be getting worse every day. The finances of the country are in a dreadful condition, and trade is at a stop. Almost all mercantile houses are stopping payment for the time, and most of the Banking houses which have not failed are liquidating. The metallic currency is fast disappearing. The panic is dreadful, and there is such apprehension for the future that there is no telling where it will stop. I have, they say, nobody pays, and merchandise arriving has no claimants, and many of the ships are being sent to other ports."—Charleston Mercury.

SPRIT OF RELIGION.—Christ re-established the unity of human nature. He taught us the principles of eternal justice, and the grand secret of all harmony and happiness, on earth as in heaven—love! Till we arrive to that point of his system, we are unacquainted with Christ's unity, and are ignorant of nature and our destinies. The dogmas and the mysteries that even the very highest disciples have wrapped around this glorious sun of the Christian system—this all embracing sentiment of universal love, have only obscured its light from us, and screened from us its vital warmth. The gospel does not consist in doctrines and ceremonies, but in love.

But to love, we must know who are worthy of our love; and here again the revelation of Christ embraced the infinite: "Thou shalt love thy neighbor as thyself." And then came the question—"Who is my neighbor?" And the answer, expressed in an immortal story was, "Every one who needs thy help."

WHY OUR ARMY IS SO SUCCESSFUL.—According to official reports, there are two hundred women in the American army. Solomon says, "A loud scolding woman shall be found to drive the enemy away." No wonder the Mexicans cut and ran when they found two thousand of them on hand.

A COLORED LAWYER.—Judge Morse, of Kings County, New York, has decided that it is unconstitutional for a colored man to practice law in that State, and set aside a judgment where a colored man was the counsel.

**OBITUARY.**

Departed this life in Benton county, Ala. on the 11th April, 1848, aged 26 years 5 months and 3 days, Mrs. FRANCES A. E. CARR, wife of Mr. C. T. Carr Esq., formerly of Edgefield district, S. C. The deceased has left a husband and three children to mourn their irreparable loss; but they have no cause to mourn as those that have no hope. The deceased embraced the Christian Religion under the Baptist denomination in her 13th year; since which time she has been a true follower of Christ in the attitude of a devoted Christian, a kind neighbor, independent, and a careful and affectionate wife. She died with full confidence in her Savior, with a better world in view.
