

New Stages.—Mr. RICHARD WARD the enterprising Proprietor of the Line of Stages running to Columbia, has put two new Coaches upon the line. They are called

SERGEANT DAVID L. ADAMS.  
AND  
SERGEANT WM. BLOCKER.

These names will not fail to recommend them to the citizens of Edgefield District particularly, and also to others. Both Coaches are built in a superior style, and are fitted up neatly and comfortably for passengers.

Barbecue at William Haverd's on Saluda, Edgefield District.—On Thursday the 6th inst. a Barbecue in honor of the Volunteers to Mexico was given at WILLIAM H. AVERD'S on Saluda, in this District. Capt. JAMES C. BROOKS acted as President of the day and Dr. GEORGE W. YARBROUGH as Vice President. At 11 o'clock, Lieut. JOSEPH ABNEY, according to request, addressed the assembly. His address was about three fourths of an hour in length, and was marked by great warmth and eloquence. The audience evinced their delight by the profound silence and deep attention which they paid to the speaker. After the delivery of the Address, the Committee announced, that half an hour would be devoted to refreshments. This was accordingly done, and at half past 12 o'clock, the gentlemen repaired to a beautiful grove where an excellent Barbecue was served up. A Committee of gentlemen were appointed to wait upon the ladies, of whom a considerable number were present, at a sumptuous and elegantly arranged repast in the enclosure near the house. A number of regular and volunteer toasts were offered, which will be found below. The assembly was addressed by the candidates who were present. At the spot where the repast for the ladies was served, there was much innocent amusement among the young people. In the evening there was a dance at the house of Mr. Haverd. Throughout the day, good feeling and harmony prevailed. All seemed to enter into the spirit of enjoyment, and the utmost propriety characterized the occasion.

MR. EDITOR.—In your paper a short time since, a writer under the signature of "Old Saluda," published an article replete with trite vulgarisms and stupid personalities. He dared not attempt a refutation of the Message of Ex-Gov Hammond—but ironically styles him a demi-God. There is just as much sense and justice in this remark, as there would be in my calling "Old Saluda" a *demi-Devil* and no more. It is more tolerable to listen to a licentious and wretched essay, in which there is wit or reason, justice or common sense—than to listen to the "vox et preterea nihil" of one, which has no redeeming or palliating merit whatever. In lieu of real argument "Old Saluda" would impose a mere wrangle upon the community.

He is personal altogether. I conceive his main purpose to be—to forestall public opinion against the remainder of "Anti Debt" to the series of articles now being published in behalf of the Bank.

Hence he makes the charge that this writer and others whom he mentioned are stock holders in the private Banks. This charge is entirely gratuitous. For the sake of argument, as well as to declare what I believe to be true—I deny the charge. Let him prove the affirmative—let him even attempt it with any show of reason, and he will find the task impossible—because the charge is untrue. Were he able to prove it—still the argument versus the Bank would remain untouched and unanswered.

Meet "Anti Debt" by some effort at substantial argument, and then the community may believe that he has other resources than those which enable him merely to impeach the motives of this writer—and to warn the public against trusting his statements.

I do not say that any argument which "Anti Debt" has made or will make against the Bank is irrefragable and deserving absolute reliance on the part of the people. In fact the controversy is just ripening. Fair Play yields an able pen and proves himself worthy to be heard and studied. The same must be said of "Anti Debt" who justly avoiding all invidious charges against the motives of his antagonists, argues the question of the Bank exclusively upon grounds of public policy.

He contends that such institutions in power and influence become superior to and control the government—legislation being indirectly forced to subservient their ends and purposes—that they often illude—by specious exhibitions of their capacity the Legislatures to vote large appropriations of the public funds with an accumulation of public good—and that our Bank has never paid a dollar of the debts of the State by its profits. That there has never been a dollar of the State debt bona fide paid at all save the small amount of bonds purchased up by the Comptroller General with the surplus of the taxes. But I do not pretend at this time to judge between these parties. It would be premature. I do however protest against the illiberal and unjust attempt of "Old Saluda" and of other writers of the same calibre—to prejudice the public mind and thus as far as they are able disqualify it—disparagingly to consider what has been, and may hereafter be, written against the policy of a public Bank. This very effort of "Old Saluda" and his petty coadjutors is anticipated by "Anti-Debt" where he says "I (he) am inclined to think that the friends of the Bank rely more upon the expectation that these (his) numbers will never be read by the sturdy and honest farmers of the State, or if read, will not be fully understood. It is to be hoped that they will be disappointed in both these respects." "Old Saluda" seeing no chance to prevent the reading of these numbers—adopts a new subterfuge to save the Bank—by telling the community that their author is a stock holder in the private banks and wrote merely to increase the value of his stock. This sir, is the spirit of a designing demagogue, that would suppress free inquiry upon matters of general and vital concern.

JUSTICE.

For the Advertiser.

HIGGINS FERRY, August 2d, 1848.

MR. EDITOR.—Since I last wrote to you, we have had a pretty withering drought, which has considerably worsened our corn crops and made some of us very much down in the mouth. Within the last week or two, however, we have had very fine rains, and the prospect now is very fair that we shall make a plenty to live upon, and a little to spare to those who may be so unfortunate as not to make enough.

In the time of the drought, some of my friends amused themselves by poking their fun at me about my saying this is the centre of the globe—asking me whether the centre had moved, and where it is now, and all that sort of thing. One gentleman sent me word that he was very much surprised to hear that we had been suffering for want of rain here, and another said that he could prove "incontrovertibly, uncontestedly, and demonstratively," that this place is not the centre of the globe. I should like very much to see him get

about his long-winded proof. If it had rained any where else during the time of the drought, they might have had some little ground for talking thus; but it was dry every where, all around so far as I could hear, and therefore they may just shut up. Our late rains go still further to prove, that "if we may depend upon the movements of clouds in this matter," this place is the centre of the globe, the very place where the Mormons in accordance with their belief, ought to build the Holy City. The clouds would gather in every direction, North, East, South and West, and seem to be raining every where but right here. Yet they would all move surely up and meet plump over the "centre of gravity," and then, oh! how it would rain. Every body that I should chance to meet the next day, would say, "why it looks like you have had considerably more rain here than I have had."

To conclude, Mr. Editor, does't it look funny to print *car and colton* for funs. Yours most sincerely,

YENBA.

THE CROPS.

ALABAMA.—The Montgomery Journal of the 28th ult. says:

"The late immense fall of rains, unprecedented at this season, have, we learn, seriously affected the cotton crop. The low cotton lands are flooded, and the rivers and creeks at their average winter height, and a continuance for a short time longer of this weather will render the chances for even a half a crop problematical."

LOUISIANA.—The Coupee Tribune, of the 23d ult. remarks:

"Since Wednesday noon last we have had a pretty steady rain, with few intermissions. We understand that the recent wet weather has produced rust in the cotton, and that several of our planters will, no doubt, be injured materially from it should the wet weather continue. We have also been informed that the caterpillar has made its appearance, but as yet not in sufficient numbers to do any very great injury."

SUGAR CROPS.—Concerning the sugar crop, the St. Landry (La.) Whig says:

"We learn from different parts of the parish, that their crop is doing unusually well. Travellers from Attakapas, and residents of that district, whose local partialities render them the better witnesses, tell us that the sugar crops of St. Landry are far more flourishing than those of St. Mary, in the aggregate. New engines, for the purpose grinding the growing crop, are arriving daily, and planters, owing to the brilliant promise of the present, will be sadly disappointed if they do not realize an abundant productive harvest."

THE AUGUST ELECTIONS.—North Carolina elects Governor and Legislature on the 3d of August. Elections will be held in six States on the 7th August, as follows: Kentucky, Governor and Legislature; Indiana, Legislature; Illinois, members of Congress and Legislature; Missouri, Governor, members of Congress and Legislature; Iowa, members of Congress and Legislature; Arkansas, Governor and Legislature.

The Legislatures now to be chosen will have the elections of United States Senators for six years from the 4th of March next, as follows: North Carolina, in place of Mr. Badger, (Whig); Kentucky, in place of Mr. Crittenden, (Whig); Indiana, in place of Mr. Hanagan, (Dem.); Illinois, in place of Mr. Breeze, (Dem); Missouri, in place of Mr. Atchison, (Dem); Iowa, two Senators, none having yet been chosen; Arkansas, one in place of Mr. Sevier, (Dem); and also one for the unexpired term of Mr. Ashley, deceased, now filled by appointment by Mr. Sebastian, (Dem.)

JOHNSON FEMALE SEMINARY.—We had the pleasure of attending a public examination of the pupils of the Institution on last Thursday and Friday. The performances were alike creditable, to both teachers and scholars; and we only express the common feeling of an intelligent auditor, when we say that we were highly gratified. Dr. Johnson attended by invitation of the trustees, and on Friday delivered a Commencement Address, replete with good sense and sound reasoning. On Friday evening, the young ladies of the school, gave a social party which was attended by a large concourse of ladies and gentlemen from the village and its vicinity. The supper prepared for the occasion evinced taste in the delicacy and generosity, in the profusion of the choice viands of life.—Anderson's Gazette.

INDICTMENTS.—We learn that indictments have been found in the United States District Court, during its late term in Chicago, against Mr. Truett, the Mayor of Galena, and two other persons of that place, for resisting the United States Marshal, and assisting in the escape of an Irishman charged with the commission of a murder in Ireland and arrested under the treaty between the United States and Great Britain.

It seems he was a candidate for office, and did not wish to offend the voters of the district, where the prisoner had resided, and who had rallied for his rescue. At all events he took such a course as defeated the law and the objects of the treaty, and we are glad that his conduct will now undergo the scrutiny of a high and impartial judicial tribunal. St. Louis Republican.

Adjournment of Congress.—It will be seen by reference to the proceedings of Congress that the House of Representatives on Monday concurred in the resolution of the Senate appointing the 14th day of August for the close of the session. This is a consummation which will be hailed with joy throughout the country.

Gen. Cass and the Proviso.—A telegraphic dispatch from Washington, on Monday, to the Philadelphia Bulletin, says:—"We understand that a letter is in town from General Cass, pledging himself, if elected, to veto the Wilmot Proviso.—Char. Courier.

Gen. Shields is the democratic candidate for the United States Senate from the State of Illinois.

POSTSCRIPT

BY LAST NIGHT'S MAIL.

PASSAGE OF THE PROVISIO.

We have already alluded to the Passage of the Oregon Territorial Bill. The section which extends the ordinance of 1787 over the Oregon territory, is in the following words:

"That the inhabitants of said Territory shall be entitled to enjoy all and singular the rights, privileges and immunities granted and secured to the people of the territory of the United States northwest of the river Ohio, by the articles of compact contained in the ordinance for the government of said territory, on the thirteenth day of July, seventeen hundred and eighty-seven; [and shall be subject to all the conditions, and restrictions, and prohibitions in said articles of compact imposed upon the people of said territory,] and."

In committee of the whole, the House had stricken out this section, but the House refused to concur in the striking it out of the bill, by the following vote:

Mr. Wentworth moved to reconsider the last vote; which motion to reconsider was laid on the table.

THE REV. W. T. BRANTLEY, has been elected to the vacant Chair of Belles Letters in Franklin College, Georgia.

From the Southern Baptist.

FURMAN THEOLOGICAL INSTITUTE.

To the Baptists and other benevolent friends of an enlightened Ministry.

The distressing pressure in the monetary affairs of the State, has rendered the collection of what is due to the Convention of the Baptist denomination, for the support of the above Institution very difficult, and hence the difficulty of meeting its necessary expenses. In this state of things, the Board of Trustees have requested the Senior Professor, Rev. J. C. Furman, to make a tour through the State for the remainder of the year, for the purpose of kindly awakening brethren and other friends to the importance of aiding in the necessary work of carrying on the Institution, which they have brought into existence. The Board feels assured that, by this temporary withdrawal of the valuable services of the Professor, they will more successfully advance the interests of the Institution, than by allowing him to remain in their performance; since from the decline of his health, they have reason to apprehend that his services would in the event of their continuance, be subject to serious interruptions; whilst in the labor now assigned him for a few months, he will be so refreshed, as to return with renovated vigor to his duties the next year. Rev. Professor Furman is now commended to the members of the Denomination, and to others of benevolent character, in the service upon which he is about to enter, in the hope that this service will be rendered profitable, under God, through the prayers and contributions of his people and other friends of sacred learning.

Affectionately,

WILLIAM B. JOHNSON,  
Pres. of the Board of Trus.  
June 27, 1848.

Melancholy.—The Anderson Gazette of the 3th inst. says "Mr. William Snider of Pickens District, committed suicide on the 18th ult., at his own residence, by hanging himself. He is supposed to have been laboring under mental derangement. He has left a wife and several children."

Deaths in Boston last week, 101, of which 18 were diseases of the bowels.

LATER FROM MEXICO.

Our New Orleans Correspondent, writes us under date of 29th ult. that an arrival at New Orleans brings accounts from the Mexican Capital to the 18th ult.

No other hostile operations had taken place between the troops of Bustamante and Paredes. Both parties are suffering for want of provisions.

The Government is much dissatisfied with Bustamante's conduct.—Charleston Courier.

From the Plains.—Lieut. Royall attacked by eight hundred Indians.—Letters received from the Plains at Weston, Mo., inform us that the command of Lieut. Royall, Santa Fe Battalion, acting as an escort to Major Bryant, Paymaster U. S. Army, was attacked on the morning of the 17th, at Cow Creek, by a body of Indians, supposed to number 800; and after quite a spirited engagement, succeeded in repelling the assailants.

The Battalion had three men wounded, their names are Shocum, Harry and Moody. Lieut. Royall made a narrow escape, having been speared through the cap, and Mr. Deitz the Paymaster's clerk, was shot.

Twenty three Indians were killed on the field and left dead, and probably as many wounded. They succeeded in capturing 18 horses from Lieut. Royall besides 6 from Pagan, was a master.

The command was left, however, as conquerors of the field, and went on in the even tenor of their way, arriving at Mann's Fort on the 21st, where our informant left them in good health and better spirits, awaiting the resting of their animals to make another start for Santa Fe.

Arrival of an Insurrectionary Fugitive.—The Providence Journal announces that Gen. Lopez of Cuba, said to be the intended leader of the revolution contemplated in that Island arrived at Bristol, last Saturday, in the brig Neptune, with his son and servant, and proceeded the next day to New York. He stopped at the Franklin House. General Lopez reached Matanzas just as the Neptune was leaving; the only vessel bound immediately for a foreign port. Several arrests had been made previous to his departure."

Rev. Alexander McCain will preach at Antioch Church on the 4th Sunday in this month.

WORMS! WORMS! WORMS!

THE BANE OF CHILDHOOD

AND the certain precursor of many dangerous diseases, if allowed to remain long in the human system in great numbers.

Thousands of children die annually from Worms. The season is now close at hand when they become most troublesome to children.

Dr. WOODRUFF'S WORM SPECIFIC is a safe remedy for worms. Try it. It is as good as the best, and cheap as the cheapest.

Mr. Joseph Shippy of Muscogee Co. Ga., says it brought away 200 worms from a negro child belonging to him, in a short time.

Mr. John L. Little of Whiteville, Ga., says I gave it in one case, and brought away fifty worms. In another case it cured his negro woman of Tenia or Tape worm.

Mr. Thomas Boyd, of Coweta Co. Ga. says he gave it to a negro boy who was in bad health; it brought away immediately thirty-six worms. He was soon well, and remains so up to this time.

Griffin, Pike Co. Ga. July, 1848.—Mr. Woodruff—Please forward immediately three dozen of your Worm Specific without delay.

Respectfully, Jones G. Hill, & Co. Talbot Co. Ga. Dec. 12, 1845. Dr. Woodruff—I have recently made trial of your Worm Specific in a bad case, with the happiest effect. I think more of it than ever, and believe it will do in ninety-nine cases in the hundred.
